## Introduction to BlackRock Global Index Funds

### Structure

BlackRock Global Index Funds (the "Company" or "BGIF") is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (*société d'investissement à capital variable*). The Company has been established on 30 August 2012 and its registration number in the Registry of the Luxembourg Trade and Companies Register is B 171278. The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities pursuant to the provisions of Part I of the law of 17 December 2010, as amended from time to time and is regulated pursuant to such law. Authorisation by the CSSF is not an endorsement or guarantee of the Company by the CSSF nor is the CSSF responsible for the contents of this Prospectus. The authorisation of the Company shall not constitute a warranty as to performance of the Company and the CSSF shall not be liable for the performance or default of the Company.

The articles of association governing the Company (the "Articles") have been deposited with the Luxembourg Trade and Companies Register, and such deposit has been published in the Mémorial C, Recueil des Sociétés et Associations, on 14 September 2012.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate portfolio of investments maintained and invested in accordance with the investment objectives applicable to such compartment, as specified herein. The Directors are offering separate classes of Shares, each representing interests in a compartment, on the basis of the information contained in this Prospectus and in the documents referred to herein which are deemed to be an integral part of this Prospectus.

### Management

The Company is managed by BlackRock (Luxembourg) S.A., a public limited company (*société anonyme*) established in 1988 under registration number B 27689. The Management Company has been authorised by the CSSF to manage the business and affairs of the Company pursuant to chapter 15 of the 2010 Law.

### Choice of Funds

As of the date of this Prospectus, investors are able to choose from the following Funds of BlackRock Global Index Funds:

Fund	Base Currency	Equity / Fixed Income
iShares World Equity Index Fund (LU)	USD	Equity
iShares Europe Equity Index Fund (LU)	EUR	Equity
iShares Japan Equity Index Fund (LU)	USD	Equity
iShares Pacific ex Japan Equity Index Fund (LU)	USD	Equity

iShares Emerging Markets Equity Index Fund (LU)	USD	Equity
iShares Euro Government Bond Index Fund (LU)	EUR	Fixed Income
iShares Euro Corporate Bond Index Fund (LU)*	EUR	Fixed Income
iShares Euro Aggregate Bond Index Fund (LU)	EUR	Fixed Income
iShares Emerging Markets Government Bond Index Fund (LU)	USD	Fixed Income
iShares Global Government Bond Index Fund (LU)	USD	Fixed Income

\* Fund not available for subscription at the date of this Prospectus. Such Fund may be launched at the Directors' discretion. Confirmation of the launch date of this Fund will then be made available from the local Investor Servicing team. Any provisions in this Prospectus relating to this Fund shall only take effect from the launch date of the Fund.

**A list of Dealing Currencies, Hedged Share Classes, Distributing and Non-Distributing Share Classes and UK Reporting Fund status Classes is available from the Company's registered office and the local Investor Servicing team.**

## IMPORTANT NOTICE

**If you are in any doubt about the contents of this Prospectus or whether an investment in the Company is suitable for you, you should consult your stockbroker, solicitor, accountant or other professional adviser.**

The Directors of the Company, whose names appear in the Section "Board of Directors", and the directors of the Management Company are the persons responsible for the information contained in this document. To the best knowledge and belief of the Directors and the directors of the Management Company (who have taken all reasonable care to ensure that such is the case), the information contained herein is accurate in all material respects. The Directors and the directors of the Management Company accept responsibility accordingly.

**This Prospectus has been prepared solely for, and is being furnished to investors for the purpose of, evaluating an investment in Shares in the Funds. The Funds are not suitable for short term investment and should therefore generally be regarded as long-term investments. Investment in the Funds is only suitable for investors who understand the risks involved in investing in the Company, including the risk of loss of all capital invested.**

**In considering an investment in the Company, investors should also take account of the following:**

- ▶ **certain information contained in this Prospectus, the documents referred to herein and any brochures issued by the Company as substitute offering documents constitutes forward-looking statements, which can be identified by the use of forward-looking terminology such as "seek", "may", "should", "expect", "anticipate", "estimate", "intend", "continue", "target" or "believe" or the negatives thereof or other variations thereof or comparable terminology and includes projected or targeted returns on investments to be made by the Company. Such forward-looking statements are inherently subject to significant economic, market and other risks and uncertainties and accordingly actual events or results or the actual performance of the Company may differ materially from those reflected or contemplated in such forward-looking statements; and**
- ▶ **nothing in this Prospectus should be taken as legal, tax, regulatory, financial, accounting or investment advice.**

**An application / decision to subscribe for Shares should be made on the basis of the information contained in this Prospectus which is issued by the Company and in the most recent annual and (if later) interim report and accounts of the Company which are available at the registered office of the Company. Information updating this Prospectus may, if appropriate, appear in the report and accounts.**

This Prospectus, and the KIID for the relevant Share Class, should each be read in their entirety before making an application for Shares. KIIDs for each available Share Class can be found at: <http://kiid.blackrock.com>.

Statements made in this Prospectus are based on laws and practices in force at the date hereof and are subject to changes therein. Neither the delivery of this Prospectus nor the issue of

Shares will, in any circumstances, imply that there has been no change in the circumstances affecting any of the matters contained in this Prospectus since the date hereof.

This Prospectus may be translated into other languages provided that any such translation shall be a direct translation of the English text. In the event of any inconsistency or ambiguity in relation to the meaning of any word or phrase in any translation, the English text shall prevail, except to the extent (and only to the extent) that the laws of a jurisdiction require that the legal relationship between the Company and investors in such jurisdiction shall be governed by the local language version of this Prospectus.

**Any shareholder in the Company will only be able to fully exercise its shareholder rights directly against the Company, and in particular the right to participate in general meetings of shareholders, where such shareholder is registered in its own name in the register of shareholders for the Company. In cases where a shareholder invests into the Company through an intermediary investing in its own name but on behalf of the shareholder, it may not always be possible for such shareholder to exercise certain of its shareholder rights in the Company. Investors are therefore advised to take legal advice in respect of the exercise of their shareholder rights in the Company.**

### Distribution

This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. Details of certain countries in which the Company intends to seek authorisation to offer Shares are contained in Appendix D. Prospective investors should inform themselves as to the legal requirements of applying for Shares and of applicable exchange control regulations and taxes in the countries of their respective citizenship, residence or domicile. US Persons are not permitted to subscribe for Shares. The Funds are not registered for distribution in India. In some countries investors may be able to subscribe for Shares through regular savings plans. Under Luxembourg law, the fees and commissions relating to regular savings plans during the first year must not exceed one third of the amount contributed by the investor. These fees and commissions do not include premiums to be paid by the investor where the regular savings plan is offered as part of a life insurance or whole life insurance product. Please contact the local Investor Servicing team for more details.

## **Glossary**

### **2010 Law**

means the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended, modified or supplemented from time to time.

### **Base Currency**

means in relation to Shares of any Fund, the currency indicated in the Section "Choice of Funds".

### **Benchmark Index**

means the index against which the return of the Fund will be compared.

### **BlackRock Group**

means the BlackRock group of companies, the ultimate holding company of which is BlackRock, Inc..

### **Business Day**

means any day normally treated by the banks in Luxembourg as a business day (except for Christmas Eve) and such other days as the Directors may decide.

### **Class, Classes, Share Class or Share Classes**

means any class of Share attributable to a particular Fund, as the Management Company may from time to time designate, as further described in Section "Classes and Form of Shares".

### **Dealing Currency**

means the currency or currencies in which applicants may currently subscribe for the Shares of any Fund. Dealing Currencies may be introduced at the Directors' discretion. Confirmation of the Dealing Currencies and the date of their availability can be obtained from the registered office of the Company and from the local Investor Servicing team.

### **Dealing Day**

means any Business Day other than any day declared as a non-Dealing Day by the Directors as further described in the Section "Non-Dealing Days" and any day falling within a period of suspension of subscriptions, redemptions and conversions and/or such other day determined by the Directors to be a day when a Fund is open for dealing.

### **Directors**

means the members of the board of directors of the Company for the time being and any successors to such members as may be appointed from time to time.

### **Distributing Shares or Distributing Share Classes**

means Shares on which dividends may be declared at the Directors' discretion.

### **EMU**

means the Economic and Monetary Union of the European Union. A reference to the securities of companies domiciled in those EU member states participating in EMU may, at the Investment Adviser's discretion, be taken to include the securities of companies domiciled in countries which formerly participated in EMU.

### **ESMA**

means the European Securities and Markets Authority, or such replacement or successor authority as may be appointed from time to time.

### **Euro, EUR and €**

means the single European currency unit (referred to in Council Regulation (EC) No. 974/98 of 3 May 1998 on the introduction of the Euro) and, at the Investment Adviser's discretion, the currencies of any countries that have previously formed part of the Eurozone. As at the date of this Prospectus the countries that make up the Eurozone are: Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Luxembourg, Malta, Netherlands, Portugal, Slovakia, Slovenia and Spain.

### **Fund**

means a segregated compartment established and maintained by the Company in respect of one or more Shares Classes to which assets, liabilities, income and expenditure attributable to each such Class or Share Classes will be applied or charged, as further described in this Prospectus.

### **GBP and £**

means the lawful currency of the United Kingdom.

### **Hedged Share Classes**

means those Share Classes to which a currency hedging strategy is applied. Hedged Share Classes may be made available in Funds and in currencies at the Directors' discretion.

### **Institutional Investor**

means an institutional investor within the meaning of the 2010 Law which satisfies the eligibility and suitability requirements of institutional investors.

### **Investment Advisers**

means the investment advisers appointed by the Management Company from time to time in respect of the management of the assets of the Funds as described in the Section "Investment Management of the Funds".

### **Investor Servicing**

means the dealing provisions and other investor servicing functions by local BlackRock Group companies or branches or their administrators.

### **KIID**

means the key investor information document issued in respect of each Share Class pursuant to the 2010 Law.

### **Management Company**

means BlackRock (Luxembourg) S.A., a Luxembourg société anonyme authorised as a management company under the 2010 Law.

### **Net Asset Value**

means in relation to a Fund or a Share Class, the amount determined in accordance with the provisions described in paragraphs 11. to 17. of Appendix B. The Net Asset Value of a Fund may be adjusted in accordance with paragraph 17.3 of Appendix B.

**Non-Distributing Shares or Non-Distributing Share Classes**

means Classes of Shares on which dividends will not be declared.

**PNC Group**

means the PNC group of companies, of which the PNC Financial Services Group, Inc. is the ultimate holding company.

**Principal Distributor**

means BlackRock Investment Management (UK) Limited acting in its capacity as Principal Distributor. References to distributors may include BlackRock Investment Management (UK) Limited in its capacity as Principal Distributor.

**Prospectus**

means this offering memorandum, as amended, modified or supplemented from time to time.

**Remuneration Policy**

means the policy as described in the section entitled "Management" including, but not limited to, a description as to how remuneration and benefits are calculated and identification of those individuals responsible for awarding remuneration and benefits.

**Share**

means a share of any Class representing a participation in the capital of the Company, as and carrying rights attributable to a relevant Share Class, as further described in this Prospectus.

**SICAV**

means an investment company with variable capital (*société d'investissement à capital variable*).

**UCITS**

means an undertaking for collective investment in transferable securities.

**UCITS Directive**

means Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS), as amended.

**USD and US\$**

means the lawful currency of the United States of America.

## Investment Management of the Funds

### Management

The Directors are responsible for the overall investment policy of the Company.

BlackRock (Luxembourg) S.A. has been appointed by the Company to act as its management company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement (the "**Management Company Agreement**") with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration, and the marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in this Prospectus.

The Management Company forms part of the BlackRock Group.

The Remuneration Policy of the Management Company sets out the policies and practices that are consistent with and promote sound and effective risk management. It does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Company and does not impair compliance with the Management Company's duty to act in the best interest of shareholders. The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company and the UCITS funds that it manages and of the investors in such UCITS funds, and includes measures to avoid conflicts of interest. It includes a description as to how remuneration and benefits are calculated and identifies those individuals responsible for awarding remuneration and benefits. With regard to the internal organisation of the Management Company, the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the UCITS funds managed by the Management Company in order to ensure that the assessment process is based on longer-term performance of the Company and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period. The Remuneration Policy includes fixed and variable components of salaries and discretionary pension benefits that are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component. The Remuneration Policy applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profile of the Management Company. The details of the up-to-date Remuneration Policy, including but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee where such a committee exists, are available on the individual Fund product pages under the "All

Documents" tab at [www.blackrock.com](http://www.blackrock.com) and a paper copy will be made available free of charge upon request from the registered office of the Management Company.

### Investment Advisers

The Management Company has delegated its investment management functions to the Investment Advisers. The Investment Advisers provide advice and management in the areas of stock and sector selection and strategic allocation. Further details regarding the Investment Advisers are set out under the heading "Investment Advisers". Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

BlackRock Investment Management (UK) Limited is a principal operating subsidiary of the BlackRock Group outside the US. It is regulated by the Financial Conduct Authority ("**FCA**") but the Company will not be a customer of BlackRock Investment Management (UK) Limited for the purposes of the FCA rules and will accordingly not directly benefit from the protection of those rules.

The Investment Advisers are indirect operating subsidiaries of BlackRock, Inc., the ultimate holding company of the BlackRock Group. The principal shareholder of BlackRock, Inc., is the PNC Financial Services Group, Inc., which is a US public company.

The Investment Advisers form part of the BlackRock Group.

## Risk Considerations

**All investments risk the loss of capital. An investment in the Shares involves considerations and risk factors which investors should consider before subscribing. In addition, there will be occasions when the BlackRock Group may encounter potential conflicts of interest in connection with the Company. See Section "Conflicts of Interest and Relationships within the BlackRock Group and with the PNC Group".**

**Investors should review this Prospectus carefully and in its entirety and are invited to consult with their professional advisers before making an application for Shares. An investment in the Shares should form only a part of a complete investment programme and an investor must be able to bear the loss of its entire investment. Investors should carefully consider whether an investment in the Shares is suitable for them in light of their circumstances and financial resources. In addition, investors should consult their own tax advisers regarding the potential tax consequences of the activities and investments of the Company and/or each Fund. Below is a summary of risk factors that apply to all Funds which in particular, in addition to the matters set out elsewhere in this Prospectus, should be carefully evaluated before making an investment in the Shares. Not all risks apply to all Funds. The risks that, in the opinion of the Directors could have significant impact to the overall risk of the portfolio are detailed below.**

**Only those risks which are believed to be material and are currently known to the Directors have been disclosed. Additional risks and uncertainties not currently known to the Directors, or that the Directors deem to be immaterial, may also have an adverse effect on the business of the Company and/or the Funds.**

### General Risks

The performance of each Fund will depend on the performance of its underlying investments. No guarantee or representation is made that any Fund or any investment will achieve its respective investment objectives. Past results are not necessarily indicative of future results. The value of the Shares may fall as well as rise and an investor may not recoup its investment. Income from the Shares may fluctuate in money terms. Changes in exchange rates may, among other factors, cause the value of Shares to increase or decrease. The levels and bases of, and reliefs from, taxation may change. There can be no assurance that the collective performance of a Fund's underlying investments will be profitable.

### Index-Related Risks

In order to meet its investment objective, each Fund will seek to achieve a return which reflects the return of the Benchmark Index as published by the relevant index provider. While index providers do provide descriptions of what each Benchmark Index is designed to achieve, index providers do not provide any warranty or accept any liability in relation to the quality, accuracy or completeness of data in respect of their benchmark indices, nor any guarantee that the published indices will be in line with their described benchmark index methodologies. Errors in respect of the quality, accuracy and completeness of the data may occur from time to time and will be corrected at the Fund's expense. During a period where a Benchmark Index contains incorrect constituents, the Fund tracking such published Benchmark Index would have market exposure to such constituents. As such, errors may potentially result in negative or

positive performance impact to the Fund and, by extension, impact its shareholders.

In addition, apart from scheduled rebalances, index providers may carry out additional ad hoc rebalances to their benchmark indices in order to, for example, correct an error in the selection of index constituents. Where the Benchmark Index is rebalanced and the Fund in turn rebalances its portfolio to bring it in line with the Benchmark Index, any transaction costs (including any capital gains tax and/or transaction taxes) and market exposure arising from such portfolio rebalancing will be borne by the Fund (which may cause additional tracking error) and, by extension, its shareholders. Therefore, errors and additional ad hoc rebalances carried out by an index provider to a Benchmark Index may increase the costs of the Fund.

There is no assurance that a Benchmark Index will continue to be calculated and published on the basis described in this Prospectus or that it will not be amended significantly. The past performance of each Benchmark Index is not a guide to future performance.

Please refer to the Section "Benchmark Indices" for further information, for example, circumstances which may require the Benchmark Index to be changed.

### Tracking Error / Investment Risks

While the Funds seek to match the performance of their respective Benchmark Indices, whether through a replication or optimising strategy, there is no guarantee that they will achieve perfect matching of performance and the Funds may potentially be subject to tracking error risk, which is the risk that their returns may not match exactly those of their respective Benchmark Indices, from time to time. This tracking error may result from incurring operational fees and expenses in respect of the Fund, screening for corporate involvement in cluster munitions etc. (as further detailed under "Investment Objectives and Policies - General") and /or an inability to hold all the constituents of the Benchmark Index in their appropriate proportions, for example where there are local market trading restrictions, and/or where the regulations limit exposure to the constituents of the Benchmark Index.

A Fund's tracking error may be affected if the times at which a Fund and its Benchmark Index are priced are different. Where the Benchmark Index is valued at the time the relevant markets close for business and a Fund is valued at an earlier or later time, the tracking error of that Fund may appear to be higher than if the Fund and the Benchmark Index were priced at the same time. This is particularly relevant where a Benchmark Index provides exposure to countries in the Asia-Pacific region.

### Limited Operating History

Newly formed Funds have little or no operating history upon which investors can evaluate the anticipated performance. Past investment performance should not be construed as an indication of the future results of an investment in a Fund. The investment programme of a Fund should be evaluated on the basis that there can be no assurance that the Investment Adviser's assessments of the short-term or long-term prospects of investments, will prove accurate or that the Fund will achieve its investment objective.

## Counterparty Risk

A Fund will be exposed to the credit risk of the counterparties with which it transacts and may also bear the risk of settlement default. Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the relevant Fund. This would include the counterparties to any derivatives, repurchase/reverse repurchase agreement or securities lending agreement that it enters into. Trading in derivatives which have not been collateralised gives rise to direct counterparty exposure. The relevant Fund aims to mitigate much of its credit risk to its derivative counterparties by receiving collateral with a value at least equal to the exposure to each counterparty but, to the extent that any derivative is not fully collateralised, a default by the counterparty may result in a reduction in the value of the Fund. A formal review of each new counterparty is completed and all approved counterparties are monitored and reviewed on an ongoing basis. The Fund maintains an active oversight of counterparty exposure and the collateral management process.

## Counterparty Risk to the Depositary

The assets of the Company are entrusted to the Depositary for safekeeping, as set out in further detail in paragraph 8. of Appendix C. In accordance with the UCITS Directive, in safekeeping the assets of the Company, the Depositary shall: (a) hold in custody all financial instruments that may be registered in a financial instruments account opened in the Depositary's books and all financial instruments that can be physically delivered to the Depositary; and (b) for other assets, verify the ownership of such assets and maintain a record accordingly. The assets of the Company should be identified in the Depositary's books as belonging to the Company.

Securities held by the Depositary should be segregated from other securities / assets of the Depositary which mitigates but does not exclude the risk of non-restitution in the case of bankruptcy of the Depositary. The investors are therefore exposed to the risk of the Depositary not being able to fully meet its obligation to reconstitute all of the assets of the Company in the case of bankruptcy of the Depositary. In addition, a Fund's cash held with the Depositary may not be segregated from the Depositary's own cash / cash under custody for other clients of the Depositary, and a Fund may therefore rank as an unsecured creditor in relation thereto in the case of bankruptcy of the Depositary.

The Depositary may not keep all the assets of the Company itself but may use a network of sub-custodians which are not always part of the same group of companies as the Depositary. Investors may be exposed to the risk of bankruptcy of the sub-custodians in circumstances where the Depositary will have no liability.

A Fund may invest in markets where custodial and/or settlement systems are not fully developed. The assets of the Fund that are traded in such markets and which have been entrusted to such sub-custodians may be exposed to risk in circumstances where the Depositary will have no liability.

## Tax Considerations

The Company may be subject to withholding or other taxes on income and/or gains arising from its investment portfolio. Where the Company invests in securities that are not subject to withholding or other taxes at the time of acquisition, there can be no assurance that tax may not be imposed in the future as a

result of any change in applicable laws, treaties, rules or regulations or the interpretation thereof. The Company may not be able to recover such tax and so any such change could have an adverse effect on the Net Asset Value of the Shares.

The tax information provided in the "Taxation" Section is based, to the best knowledge of the Directors, upon tax law and practice as at the date of this Prospectus. Tax legislation, the tax status of the Company, the taxation of shareholders and any tax reliefs, and the consequences of such tax status and tax reliefs, may change from time to time. Any change in the taxation legislation in any jurisdiction where a Fund is registered, marketed or invested could affect the tax status of the Fund, affect the value of the Fund's investments in the affected jurisdiction and affect the Fund's ability to achieve its investment objective and/or alter the post-tax returns to shareholders. Where a Fund invests in derivatives, the preceding sentence may also extend to the jurisdiction of the governing law of the derivative contract and/or the derivative counterparty and/or to the market(s) comprising the underlying exposure(s) of the derivative.

The availability and value of any tax reliefs available to shareholders depend on the individual circumstances of shareholders. The information in the "Taxation" Section is not exhaustive and does not constitute legal or tax advice. Investors are urged to consult their tax advisors with respect to their particular tax situations and the tax effects of an investment in the Company.

Where a Fund invests in a jurisdiction where the tax regime is not fully developed or is not sufficiently certain, for example jurisdictions in the Middle East, the relevant Fund, the Management Company, the Investment Advisers and the Depositary shall not be liable to account to any shareholder for any payment made or suffered by the Company in good faith to a fiscal authority for taxes or other charges of the Company or the relevant Fund notwithstanding that it is later found that such payments need not or ought not have been made or suffered. Conversely, where through fundamental uncertainty as to the tax liability, adherence to best or common market practice (to the extent that there is no established best practice) that is subsequently challenged or the lack of a developed mechanism for practical and timely payment of taxes, the relevant Fund pays taxes relating to previous years, any related interest or late filing penalties will likewise be chargeable to the Fund. Such late paid taxes will normally be debited to the Fund at the point the decision to accrue the liability in the Fund accounts is made.

Shareholders should also read the information set out in the Section "Foreign Account Tax Compliance Act ("FATCA")", particularly in relation to the consequences of the Company being unable to comply with the terms of such reporting systems.

## Currency Risk - Base Currency

The Funds may invest in assets denominated in a currency other than the Base Currency of the Funds. Changes in exchange rates between the Base Currency and the currency in which the assets are denominated will cause the value of the asset expressed in the Base Currency to fall or rise. The Funds may utilise techniques and instruments including derivatives for hedging purposes to control currency risk. However it may not be possible or practical to completely mitigate currency risk in respect of a Fund's

portfolio or specific assets within the portfolio. Furthermore, unless otherwise stated in the investment policies of the relevant fund, the Investment Advisers are not obliged to seek to reduce currency risk within the Funds.

### **Currency Risk - Share Class Currency**

Certain Share Classes of certain Funds may be denominated in a currency other than the Base Currency of the relevant Fund. In addition, the Funds may invest in assets denominated in currencies other than the Base Currency. Therefore changes in exchange rates may affect the value of an investment in the Funds.

### **Hedged Share Classes**

While a Fund or its authorised agent may attempt to hedge currency risks, there can be no guarantee that it will be successful in doing so and it may result in mismatches between the currency position of that Fund and the Hedged Share Class.

The hedging strategies may be entered into whether the Base Currency is declining or increasing in value relative to the relevant currency of the Hedged Share Class and so, where such hedging is undertaken it may substantially protect shareholders in the relevant Class against a decrease in the value of the Base Currency relative to the Hedged Share Class currency, but it may also preclude shareholders from benefiting from an increase in the value of the Base Currency.

Hedged Share Classes in non-major currencies may be affected by the fact that capacity of the relevant currency market may be limited, which could further affect the volatility of the Hedged Share Class.

All gains/losses or expenses arising from hedging transactions are borne separately by the shareholders of the respective Hedged Share Classes. Given that there is no segregation of liabilities between Share Classes, there is a risk that, under certain circumstances, currency hedging transactions in relation to one Share Class could result in liabilities which might affect the Net Asset Value of the other Share Classes of the same Fund.

### **Global Financial Market Crisis and Governmental Intervention**

Since 2007, global financial markets have undergone pervasive and fundamental disruption and suffered significant instability leading to extensive governmental intervention. Regulators in many jurisdictions have implemented or proposed a number of emergency regulatory measures and may continue to do so. Government and regulatory interventions have sometimes been unclear in scope and application, resulting in confusion and uncertainty which in itself has been detrimental to the efficient functioning of financial markets. It is impossible to predict, with certainty, what additional interim or permanent governmental restrictions may be imposed on the markets and/or the effect of such restrictions on the Investment Advisers' ability to implement a Fund's investment objective.

Whether current undertakings by governing bodies of various jurisdictions or any future undertakings will help stabilise the financial markets is unknown. The Investment Advisers cannot predict, with certainty, how long the financial markets will continue to be affected by these events and cannot predict the effects of these - or similar events in the future - on a Fund, the European or global economy and the global securities markets.

### **Potential implications of Brexit**

In a referendum held on 23 June 2016, the electorate of the United Kingdom resolved to leave the European Union. The result has led to political and economic instability, volatility in the financial markets of the United Kingdom and more broadly across Europe. It may also lead to weakening in consumer, corporate and financial confidence in such markets as the UK negotiates its exit from the EU. The longer term process to implement the political, economic and legal framework between the UK and the EU is likely to lead to continuing uncertainty and periods of exacerbated volatility in both the UK and in wider European markets. In particular, the decision made in the British referendum may lead to a call for similar referendums in other European jurisdictions which may also cause increased economic volatility in wider European and global markets.

Currency volatility resulting from this uncertainty may mean that the returns of the Fund and its investments are adversely affected by market movements, potential decline in the value of the British Pound and/or Euro, and any downgrading of UK sovereign credit rating. This may also make it more difficult, or more expensive, for the Fund to execute prudent currency hedging policies.

This mid to long term uncertainty may have an adverse effect on the economy generally and on the ability of relevant Funds and their investments to execute their respective strategies and to receive attractive returns, and may also result in increased costs to the relevant Funds.

### **Euro and Euro Zone Risk**

The deterioration of the sovereign debt of several countries, together with the risk of contagion to other, more stable, countries, has exacerbated the global economic crisis. Concerns persist regarding the risk that other Euro zone countries could be subject to an increase in borrowing costs and could face an economic crisis similar to that of Cyprus, Greece, Italy, Ireland, Spain and Portugal. This situation as well as the United Kingdom's referendum have raised a number of uncertainties regarding the stability and overall standing of the European Economic and Monetary Union and may result in changes to the composition of the Euro zone. The departure or risk of departure from the Euro by one or more Euro zone countries could lead to the reintroduction of national currencies in one or more Euro zone countries or, in more extreme circumstances, the possible dissolution of the Euro entirely. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of a Fund's investments. It is difficult to predict the final outcome of the Euro zone crisis. Unitholders should carefully consider how changes to the Euro zone and European Union may affect their investment in a Fund.

### **Depository Receipts**

American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") are designed to offer exposure to their underlying securities. In certain situations, the Investment Advisers may use ADRs and GDRs to provide exposure to underlying securities within the Benchmark Index, for example where the underlying securities cannot be, or are unsuitable to be, held directly or where direct access to the underlying securities is restricted or limited. However, in such cases the Investment Advisers are unable to guarantee that a similar outcome will be achieved to that if it were possible to hold the

securities directly, due to the fact ADRs and GDRs do not always perform in line with the underlying security.

In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the ADR/GDR will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Advisers cannot, or it is not appropriate to, invest in an ADR or GDR, or the characteristics of the ADR or GDR do not exactly reflect the underlying security.

In the event that a Fund invests in ADRs or GDRs in the circumstances set out above, the Fund's tracking of the Benchmark Index may be impacted, i.e. there is a risk that the Fund's return varies from the return of the Benchmark Index.

### **Depository Notes**

Global depository notes ("GDNs") are designed to offer exposure to their underlying securities.

In certain situations, the Investment Advisers may use GDNs to provide exposure to underlying securities within the relevant Benchmark Index, for example where the underlying securities cannot be, or are unsuitable to be, held directly or where direct access to the underlying securities is restricted or limited. However, in such cases the Investment Advisers are unable to guarantee that a similar outcome will be achieved to that if it were possible to hold the securities directly, due to the fact GDNs do not always perform in line with the underlying securities.

In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the GDN will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Advisers cannot, or it is not appropriate to, invest in a GDN, or the characteristics of the GDN do not exactly reflect the underlying security.

In the event that the Fund invests in GDNs in the circumstances set out above, the Fund's tracking of the Benchmark Index may be impacted, i.e. there is a risk that the Fund's return varies from the return of the Benchmark Index.

### **Derivatives - General**

In accordance with the investment limits and restrictions set out in Appendix A, each of the Funds may use derivatives to hedge market and currency risk, and for the purposes of efficient portfolio management.

The use of derivatives may expose Funds to a higher degree of risk. These risks may include credit risk with regard to counterparties with whom the Funds trade, the risk of settlement default, lack of liquidity of the derivatives, imperfect tracking between the change in value of the derivative and the change in value of the underlying asset that the relevant Fund is seeking to track and greater transaction costs than investing in the underlying assets directly.

In accordance with standard industry practice when purchasing derivatives, a Fund may be required to secure its obligations to its counterparty. For non-fully funded derivatives, this may involve the placing of initial and/or variation margin assets with the counterparty. For derivatives which require a Fund to place initial

margin assets with a counterparty, such assets may not be segregated from the counterparty's own assets and, being freely exchangeable and replaceable, the Fund may have a right to the return of equivalent assets rather than the original margin assets deposited with the counterparty. These deposits or assets may exceed the value of the relevant Fund's obligations to the counterparty in the event that the counterparty requires excess margin or collateral. In addition, as the terms of a derivative may provide for one counterparty to provide collateral to the other counterparty to cover the variation margin exposure arising under the derivative only if a minimum transfer amount is triggered, the Fund may have an uncollateralised risk exposure to a counterparty under a derivative up to such minimum transfer amount.

Derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase Fund volatility. Whilst the Funds will not borrow money to leverage they may for example gain exposure to constituents of their Benchmark Index through derivatives, always within the restrictions provided for in Appendix A of this Prospectus. Certain Funds may enter into long positions executed using derivatives (synthetic long positions) such as futures positions including currency forwards.

Additional risks associated with investing in derivatives may include a counterparty breaching its obligations to provide collateral, or due to operational issues (such as time gaps between the calculation of risk exposure to a counterparty's provision of additional collateral or substitutions of collateral or the sale of collateral in the event of a default by a counterparty), there may be instances where a Fund's credit exposure to its counterparty under a derivative contract is not fully collateralised but each Fund will continue to observe the limits set out in Appendix A. The use of derivatives may also expose a Fund to legal risk, for example the risk of loss resulting from changing laws or from the unexpected application of a law or regulation, or because a court declares a contract not legally enforceable.

Where derivative instruments are used in this manner the overall risk profile of the Fund may be increased. Accordingly the Company will employ a risk-management process which enables the Management Company to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Fund. The Management Company uses a methodology known as the "Commitment Approach" in order to calculate each Fund's global exposure, with the aim of ensuring it complies with the investment restrictions set out in Appendix A.

For more detail regarding the derivative strategies applied by individual Funds please refer to the individual Fund investment objectives in the Section "Investment Objectives and Policies" below and the latest risk management programme which is available on request from the local Investor Servicing team.

### **Securities Lending and Repurchase and Reverse Repurchase Transactions**

The Funds may engage in securities lending. The Funds engaging in securities lending will have a credit risk exposure to the counterparties to any securities lending contract. Fund

investments can be lent to counterparties over a period of time. A default by the counterparty combined with a fall in the value of the collateral below that of the value of the securities lent may result in a reduction in the value of the Fund. The Company intends to ensure that all securities lending is fully collateralised but, to the extent that any securities lending is not fully collateralised (for example due to timing issues arising from payment lags), the Funds will have a credit risk exposure to the counterparties to the securities lending contracts.

#### **Risks Relating to Repurchase Agreements**

In the event of the failure of the counterparty with which collateral has been placed, the Funds may suffer loss as there may be delays in recovering collateral placed out or the cash originally received may be less than the collateral placed with the counterparty due to inaccurate pricing of the collateral or market movements.

#### **Risks Relating to Reverse Repurchase Agreements**

In the event of the failure of the counterparty with which cash has been placed, the Funds may suffer loss as there may be delay in recovering cash placed out or difficulty in realising collateral or proceeds from the sale of the collateral may be less than the cash placed with the counterparty due to inaccurate pricing of the collateral or market movements.

#### **Fund Liability Risk**

The Company is structured as an umbrella fund with segregated liability between its Funds. As a matter of Luxembourg law, the assets of one Fund will not be available to meet the liabilities of another. However, the Company is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation of liability. As at the date of this Prospectus, the Directors are not aware of any such existing or contingent liability.

#### **Financial Markets, Counterparties and Service Providers**

Funds may be exposed to finance sector companies which act as a service provider or as a counterparty for financial contracts. In times of extreme market volatility, such companies may be adversely affected, with a consequent adverse effect on the return of the Funds.

Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The effect of any future regulatory action on the Company could be substantial and adverse.

#### **Other Risks**

The Funds may be exposed to risks that are outside of their control - for example legal risks from investments in countries with unclear and changing laws or the lack of established or effective avenues for legal redress; the risk of terrorist actions; the risk that economic and diplomatic sanctions may be in place or imposed on certain states and military action may be commenced. The impact of such events is unclear, but could have a material effect on general economic conditions and market liquidity.

Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The effect of any future regulatory action on the Company could be substantial and adverse.

## Specific Risk Considerations

In addition to the general risks, as set out above, that should be considered for all Funds, there are other risks that investors should also bear in mind when considering investment into specific Funds.

The table below show which specific risk warnings apply to the Funds.

FUND	Fixed In- come Transfer- able Secu- rities	Bond Downgrade Risk	Sovereign Debt	Equity Risks	Emerging Markets	Restrictions on Foreign Investment	Derivatives
iShares World Equity Index Fund (LU)				X		X	X
iShares Europe Equity Index Fund (LU)				X			X
iShares Japan Equity Index Fund (LU)				X			X
iShares Pacific ex Japan Equity Index Fund (LU)				X			X
iShares Emerging Markets Equity Index Fund (LU)				X	X	X	X
iShares North America Equity Index Fund (LU)				X			X
iShares Euro Government Bond Index Fund (LU)	X	X	X				X
iShares Euro Corporate Bond Index Fund (LU)	X	X					X
iShares Euro Aggregate Bond Index Fund (LU)	X	X	X				X
iShares Emerging Markets Government Bond Index Fund (LU)	X	X	X		X	X	X
iShares Global Government Bond Index Fund (LU)	X	X	X			X	X

## Specific Risks

### Derivatives - Specific

The Funds may use derivatives to hedge market and currency risk and for the purpose of efficient portfolio management in accordance with their respective investment objective and policies. In particular this may involve (on a non-exhaustive basis):

- ▶ using swap contracts to adjust interest rate risk;
- ▶ using currency derivatives to buy or sell currency risk;
- ▶ writing covered call options;
- ▶ using credit default swaps to buy or sell credit risk;
- ▶ using volatility derivatives to adjust volatility risk;
- ▶ buying and selling options;
- ▶ using swap contracts to gain exposure to one or more indices;
- ▶ using synthetic short positions to take advantage of any negative investment views; and
- ▶ using synthetic long positions to gain market exposure.

Investors should note the associated risks with the following types of derivative instruments and strategies as described below:

#### Credit Default Swaps, Interest Rate Swaps, Currency Swaps, Total Return Swaps, Swaptions and Contracts for Difference

The use of credit default swaps may carry a higher risk than investing in bonds directly. A credit default swap allows the transfer of default risk. This allows investors to effectively buy insurance on a bond they hold (hedging the investment) or buy protection on a bond they do not physically own where the investment view is that the stream of coupon payments required will be less than the payments received due to the decline in credit quality. Conversely, where the investment view is that the payments due to decline in credit quality will be less than the coupon payments, protection will be sold by means of entering into a credit default swap. Accordingly, one party, the protection buyer, makes a stream of payments to the seller of protection, and a payment is due to the buyer in the event that there is a "credit event" (a decline in credit quality, which will be pre-defined in the agreement). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid.

The market for credit default swaps may sometimes be more illiquid than bond markets. A Fund entering into credit default swaps must at all times be able to meet the redemption requests. Credit default swaps are valued on a regular basis according to verifiable and transparent valuation methods reviewed by the Auditor.

Interest rate swaps involve an exchange with another party of respective commitments to pay or receive interest, such as an exchange of fixed rate payments for floating rate payments. Currency swaps may involve the exchange of rights to make or

receive payments in specified currencies. Total return swaps involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. The Funds may enter into swaps as either the payer or receiver of payments under such swaps.

Where a Fund enters into interest rate or total return swaps on a net basis, the two payment streams are netted out, with each party receiving or paying, as the case may be, only the net amount of the two payments. Interest rate or total return swaps entered into on a net basis do not involve the physical delivery of investments, other underlying assets or principal. Accordingly, it is intended that the risk of loss with respect to interest rate swaps is limited to the net amount of interest payments that a Fund is contractually obliged to make (or in the case of total return swaps, the net amount of the difference between the total rate of return of a reference investment, index or basket of investments and the fixed or floating payments). If the other party to an interest rate or total return swap defaults, in normal circumstances each Fund's risk of loss consists of the net amount of interest or total return payments that each party is contractually entitled to receive. In contrast, currency swaps usually involve the delivery of the entire principal value of one designated currency in exchange for the other designated currency. Therefore, the entire principal value of a currency swap is subject to the risk that the other party to the swap will default on its contractual delivery obligations.

Certain Funds may also buy or sell interest rate swaption contracts. These give the purchaser the right, but not the obligation to enter into an interest rate swap at a pre-set interest rate within a specified period of time. The interest rate swaption buyer pays a premium to the seller for this right. A receiver interest rate swaption gives the purchaser the right to receive fixed payments in return for paying a floating rate of interest. A payer interest rate swaption would give the purchaser the right to pay a fixed rate of interest in return for receiving a floating rate payment stream.

Contracts for difference are similar to swaps and may also be used by certain Funds. A contract for difference is an agreement between a buyer and a seller stipulating that the seller will pay the buyer the difference between the current value of a security and its value when the contract is made. If the difference turns out to be negative, the buyer pays the seller.

**The use of credit default swaps, interest rate swaps, currency swaps, total return swaps, interest rate swaptions and contracts for difference is a specialised activity which involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. If the Investment Adviser is incorrect in its forecasts of market values, interest rates and currency exchange rates, the investment performance of the Fund would be less favourable than it would have been if these investment techniques were not used.**

### Volatility Derivatives

"Historic Volatility" of a security is a statistical measure of the speed and magnitude of changes in the price of that security over defined periods of time. "Implied Volatility" is the market's expectation of future realised volatility. Volatility derivatives are derivatives whose price depends on Historic Volatility or Implied Volatility or both. Volatility derivatives are based on an underlying

security, and Funds may use volatility derivatives to increase or reduce volatility risk, in order to express an investment view on the change in volatility, based on an assessment of expected developments in underlying securities markets. For example, if a significant change in the market background is expected, it is likely that the volatility of the price of a security will increase as prices adapt to the new circumstances.

The Funds may only buy or sell volatility derivatives which are based on an index where:

- ▶ the composition of the index is sufficiently diversified;
- ▶ the index represents an adequate benchmark for the market to which it refers; and
- ▶ it is published in an appropriate manner.

The price of volatility derivatives may be highly volatile, and may move in a different way to the other assets of the Fund, which could have a significant effect on the Net Asset Value of a Fund's Shares.

### **Transfer of Collateral**

In order to use derivatives the Funds will enter into arrangements with counterparties which may require the payment of collateral or margin out of a Fund's assets to act as cover to any exposure by the counterparty to the Fund. If the title of any such collateral or margin is transferred to the counterparty, it becomes an asset of such counterparty and may be used by the counterparty as part of its business. Collateral so transferred will not be held in custody by the Depositary for safekeeping, but collateral positions will be overseen and reconciled by the Depositary. Where the collateral is pledged by the Fund to the benefit of the relevant counterparty, then such counterparty may not rehypothecate the assets pledged to it as collateral without the Fund's consent.

### **Fixed Income Transferable Securities**

Debt securities are subject to both actual and perceived measures of creditworthiness. The "downgrading" of a rated debt security or adverse publicity and investor perception, which may not be based on fundamental analysis, could decrease the value and liquidity of the security, particularly in a thinly traded market. In certain market environments this may lead to investments in such securities becoming less liquid, making it difficult to dispose of them.

A Fund may be affected by changes in prevailing interest rates and by credit quality considerations. Changes in market rates of interest will generally affect a Fund's asset values as the prices of fixed rate securities generally increase when interest rates decline and decrease when interest rates rise. Prices of shorter-term securities generally fluctuate less in response to interest rate changes than longer-term securities.

An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, a Fund may experience losses and incur costs.

Issuers of non-investment grade debt may be highly leveraged and carry a greater risk of default. In addition, non-investment grade securities tend to be more volatile than higher rated fixed-income securities, so that adverse economic events may have a greater impact on the prices of non-investment grade debt securities than on higher rated fixed-income securities.

### **Bond Downgrade Risk**

A Fund may invest in highly rated / investment grade bonds, however, where a bond is subsequently downgraded it may continue to be held in order to avoid a distressed sale. To the extent that a Fund does hold such downgraded bonds, there will be an increased risk of default on repayment, which in turn translates into a risk that the capital value of the Fund will be affected. Investors should be aware that the yield or the capital value of the Fund (or both) could fluctuate.

### **Sovereign Debt**

Sovereign debt refers to debt obligations issued or guaranteed by governments or their agencies and instrumentalities (each a "governmental entity"). Investments in sovereign debt may involve a degree of risk. The governmental entity that controls the repayment of sovereign debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt. A governmental entity's willingness or ability to repay principal and interest due in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy towards the international monetary bodies, any constraints placed on it by inclusion in a common monetary policy, or any other constraints to which a governmental entity might be subject. Governmental entities may also be dependent on expected disbursements from foreign governments, multilateral agencies and other foreign entities to reduce principal and interest arrears on their debt. The commitment on the part of these governments, agencies and others to make such disbursements may be conditioned on a governmental entity's implementation of economic reforms and/or economic performance and the timely service of such debtor's obligations. Failure to implement such reforms, achieve such levels of economic performance or repay principal or interest when due may result in the cancellation of such third parties' commitments to lend funds to the governmental entity, which may further impair such debtor's ability or willingness to service its debt on a timely basis. Consequently, governmental entities may default on their sovereign debt. Holders of sovereign debt, including a Fund, may be requested to participate in the rescheduling of such debt and to extend further loans to governmental entities.

Sovereign debt holders may also be affected by additional constraints relating to sovereign issuers which may include (i) the restructuring of such debt (including the reduction of outstanding principal and interest and or rescheduling of repayment terms) without the consent of the impacted Fund(s) (e.g. pursuant to legislative actions unilaterally taken by the sovereign issuer and/or decisions made by a qualified majority of the lenders); and (ii) the limited legal recourses available against the sovereign issuer in case of failure of or delay in repayment (for example there may be no bankruptcy proceedings available by which sovereign debt on which a government entity has defaulted may be recovered).

## Equity Risks

The values of equities fluctuate daily and a Fund investing in equities could incur significant losses. The price of equities can be influenced by many factors at the individual company level, as well as by broader economic and political developments, including trends in economic growth, inflation and interest rates, corporate earnings reports, demographic trends and catastrophic events.

## Emerging Markets

Emerging markets are typically those of poorer or less developed countries which exhibit lower levels of economic and/or capital market development, and higher levels of share price and currency volatility, amongst these, those which exhibit the lowest levels of economic and/or capital market development may be referred to as frontier markets, and the below mentioned risks may be amplified for these markets.

Some emerging markets governments exercise substantial influence over the private economic sector and the political and social uncertainties that exist for many developing countries are particularly significant. Another risk common to most such countries is that the economy is heavily export oriented and, accordingly, is dependent upon international trade. The existence of overburdened infrastructures and inadequate financial systems also presents risks in certain countries, as do environmental problems.

In adverse social and political circumstances, governments have been involved in policies of expropriation, confiscatory taxation, nationalisation, intervention in the securities market and trade settlement, and imposition of foreign investment restrictions and exchange controls, and these could be repeated in the future. In addition to withholding taxes on investment income, some emerging markets may impose capital gains taxes on foreign investors.

Generally accepted accounting, auditing and financial reporting practices in emerging markets may be significantly different from those in developed markets. Compared to mature markets, some emerging markets may have a low level of regulation, enforcement of regulations and monitoring of investors' activities. Those activities may include practices such as trading on material non-public information by certain categories of investor.

The securities markets of developing countries are not as large as the more established securities markets and have substantially less trading volume, resulting in a lack of liquidity and high price volatility. There may be a high concentration of market capitalisation and trading volume in a small number of issuers representing a limited number of industries as well as a high concentration of investors and financial intermediaries. These factors may adversely affect the timing and pricing of a Fund's acquisition or disposal of securities.

Practices in relation to the settlement of securities transactions in emerging markets involve higher risks than those in developed markets, in part because the Company will need to use brokers and counterparties which are less well capitalised, and custody and registration of assets in some countries may be unreliable. Delays in settlement could result in investment opportunities being missed if a Fund is unable to acquire or dispose of a security. The Depository is responsible for the proper selection

and supervision of its correspondent banks in all relevant markets in accordance with Luxembourg law and regulation.

In certain emerging markets, registrars are not subject to effective government supervision nor are they always independent from issuers. Investors should therefore be aware that the Funds concerned could suffer loss arising from these registration problems.

## *Emerging Markets – Tracking Error*

In relation to Funds that invest in emerging markets, the Fund performance compared to that of its Benchmark Index may be affected by the fact that the Fund invests in emerging market securities. In certain emerging markets, there may be limits concerning the manner and/or extent to which foreign investors can invest directly in securities in that market, and also taxes or other charges applicable to foreign investors which may render direct investment inefficient or uneconomical for shareholders. This may affect the Fund's ability to invest in all of the securities that make up the Benchmark Index or hold the appropriate amount of these.

Furthermore, where accounts are opened in a market with a local sub-custodian for the first time, a significant amount of time may elapse before the account is operational. In certain situations, it may be possible for the Fund to invest in other transferable securities or utilise certain instruments and techniques, such as ADRs, GDRs or GDNs, which provide an equivalent exposure to the securities in these markets. There may be some circumstances where the Fund cannot gain exposure through an ADR, GDR or GDN. In these circumstances the Fund's tracking error may be impacted.

## **Restrictions on Foreign Investment**

Some countries prohibit or impose substantial restrictions on investments by foreign entities such as a Fund. As illustrations, certain countries require governmental approval prior to investments by foreign persons, or limit the amount of investment by foreign persons in a particular company, or limit the investment by foreign persons in a company to only a specific class of securities which may have less advantageous terms than securities of the company available for purchase by nationals. Certain countries may restrict investment opportunities in issuers or industries deemed important to national interests. The manner in which foreign investors may invest in companies in certain countries, as well as limitations on such investments, may have an adverse impact on the operations of a Fund. For example, a Fund may be required in certain of such countries to invest initially through a local broker or other entity and then have the share purchases re-registered in the name of the Fund. Re-registration may in some instances not be able to occur on a timely basis, resulting in a delay during which a Fund may be denied certain of its rights as an investor, including rights as to dividends or to be made aware of certain corporate actions. There also may be instances where a Fund places a purchase order but is subsequently informed, at the time of re-registration, that the permissible allocation to foreign investors has been filled, depriving the Fund of the ability to make its desired investment at the time. Substantial limitations may exist in certain countries with respect to a Fund's ability to repatriate investment income, capital or the proceeds of sales of securities by foreign investors. A Fund could be adversely affected by delays in, or a refusal to grant any required governmental approval for,

repatriation of capital, as well as by the application to the Fund of any restriction on investments. A number of countries have authorised the formation of closed-end investment companies to facilitate indirect foreign investment in their capital markets. Shares of certain closed-end investment companies may at times be acquired only at market prices representing premiums to their net asset values. If a Fund acquires shares in closed-end investment companies, shareholders would bear both their proportionate share of expenses in the Fund (including management fees) and, indirectly, the expenses of such closed end investment companies. A Fund may also seek, at its own cost, to create its own investment entities under the laws of certain countries and the Prospectus will be updated accordingly to reflect any such developments.

Investments in China are currently subject to certain additional risks, particularly regarding the ability to deal in securities in China. Dealing in certain Chinese securities is restricted to licensed investors and the ability of the investor to repatriate its capital invested in those securities may be limited at times. Due to issues relating to liquidity and repatriation of capital, the Company may determine from time to time that making direct investments in certain securities may not be appropriate for a UCITS. As a result, the Company may choose to gain exposure to Chinese securities indirectly and may be unable to gain full exposure to the Chinese markets. The Renminbi is subject to foreign exchange restrictions and is not a freely convertible currency.

For Funds that invest in or are exposed to investment in Russia, potential investors should also consider the following risk warnings which are specific to investing in or exposure to Russia:

- ▶ As a result of Russia's action in Crimea, as at the date of this Prospectus, the United States, European Union and other countries have imposed sanctions on Russia. The scope and level of the sanctions may increase and there is a risk that this may adversely affect the Russian economy and result in a decline in the value and liquidity of Russian securities, a devaluation of the Russian currency and/or a downgrade in Russia's credit rating. These sanctions could also lead to Russia taking counter measures more broadly against Western and other countries. Depending on the form of action which may be taken by Russia and other countries, it could become more difficult for the Funds with exposure to Russia to continue investing in Russia and/or to liquidate Russian investments and expatriate funds out of Russia. Measures taken by the Russian government could include freezing or seizure of Russian assets of European residents which would reduce the value and liquidity of any Russian assets held by the Funds. If any of these events were to occur, the Directors may (at their discretion) take such action as they consider to be in the interests of investors in Funds which have investment exposure to Russia, including (if necessary) suspending trading in the Funds (see the section entitled "Suspension and Deferrals" for more details).
- ▶ The laws and regulations relating to securities investments have been created on an ad-hoc basis and do not tend to keep pace with market developments leading to ambiguities in interpretation and inconsistent and arbitrary application of them. Monitoring and enforcement of applicable regulations is rudimentary.
- ▶ Rules regulating corporate governance either do not exist or are underdeveloped and offer little protection to minority shareholders.
- ▶ Investments in Russia are currently subject to certain heightened risks with regard to the ownership and custody of securities. In Russia, this is evidenced by entries in the books of a company or its registrar (which is neither an agent nor responsible to the Depositary). No certificates representing ownership of Russian companies will be held by the Depositary or any correspondent or in an effective central depository system. As a result of this system and the lack of state regulation and enforcement, the Company could lose its registration and ownership of Russian securities through fraud, negligence or even mere oversight.

These factors may increase the volatility of any such Fund (depending on its degree of investment in Russia) and hence the risk of loss to the value of your investment.

### Excessive Trading Policy

The Funds do not knowingly allow investments that are associated with excessive trading practices, as such practices may adversely affect the interests of all shareholders. Excessive trading includes individuals or groups of individuals whose securities transactions seem to follow a timing pattern or are characterised by excessively frequent or large trades.

Investors should, however, be aware that the Funds may be utilised by certain investors for asset allocation purposes or by structured product providers, which may require the periodic re-allocation of assets between Funds. This activity will not normally be classed as excessive trading unless the activity becomes, in the opinion of the Directors, too frequent or appears to follow a timing pattern.

As well as the general power of Directors to refuse subscriptions or conversions at their discretion, powers exist in other Sections of this Prospectus to ensure that shareholder interests are protected against excessive trading. These include:

- ▶ fair value pricing – Appendix B paragraph 16.;
- ▶ price swinging – Appendix B paragraph 17.3;
- ▶ in specie redemptions – Appendix B paragraphs 23.-24.; and
- ▶ conversion charges – Appendix B paragraphs 19.-21..

In addition, where excessive trading is suspected, the Funds may:

- ▶ combine Shares that are under common ownership or control for the purposes of ascertaining whether an individual or a group of individuals can be deemed to be involved in excessive trading practices. Accordingly, the Directors reserve the right to reject any application for switching and/or subscription of Shares from investors whom they consider to be excessive traders;
- ▶ adjust the Net Asset Value per Share to reflect more accurately the fair value of the Funds' investments at the point of valuation. This will only take place if the Directors believe that movements in the market price of underlying securities

mean that in their opinion, the interests of all shareholders will be met by a fair price valuation; and

- ▶ levy a redemption charge of up to a maximum of 2% on the redemption proceeds to shareholders whom the Directors, in their reasonable opinion, suspect of excessive trading. This charge will be made for the benefit of the Funds, and affected shareholders will be notified in their contract notes if such a fee has been charged.

## Benchmark Indices

The constituents of a Fund's Benchmark Index may change over time. Potential investors in a Fund may obtain a breakdown of the constituents held by the Fund from the website of the index provider (as referred to in the relevant benchmark index description) or from the Management Company, subject to any applicable restrictions under the licence which the Management Company has in place with the relevant benchmark index providers.

There is no assurance that a Fund's Benchmark Index will continue to be calculated and published on the basis described in this Prospectus or that it will not be amended significantly. The past performance of each Benchmark Index is not a guide to future performance.

The capitalisation of the companies (for equity funds) or minimum amount of qualifying bonds / fixed income securities (for fixed income funds) to which a Fund is exposed or invested is defined by the provider of the Fund's Benchmark Index. The constituents of a Fund's Benchmark Index may change over time.

The Directors may, if they consider it in the interests of the Company or any Fund, substitute another index for the Benchmark Index in certain circumstances including but not limited to:

- ▶ the weightings of constituent securities of the Benchmark Index would cause the Fund (if it were to follow the Benchmark Index closely) to be in breach of the 2010 Law and/or the rules relating to reporting status in the United Kingdom (see the heading Taxation - United Kingdom);
- ▶ the particular Benchmark Index or index series ceases to exist;
- ▶ a new index becomes available which supersedes the existing Benchmark Index;
- ▶ a new index becomes available which is regarded as the market standard for investors in the particular market and/or would be regarded as of greater benefit to the Shareholders than the existing Benchmark Index;
- ▶ it becomes difficult to invest in stocks comprised within the particular Benchmark Index;
- ▶ the Benchmark Index provider increases its charges to a level which the Directors consider too high;
- ▶ the quality (including accuracy and availability of data) of a particular Benchmark Index has, in the opinion of the Directors, deteriorated; or

- ▶ where an index becomes available which more accurately represents the likely tax treatment of the investing Fund in relation to the component securities in that index.

The Directors may change the name of a Fund, particularly if the Benchmark Index is changed or the name of the Benchmark Index changes.

Any change of a Benchmark Index and/or to the name of a Fund, as set out above, will be in accordance with the requirements of the CSSF and will be noted in the annual and semi-annual reports of the Company issued after any such change takes place.

Shareholders will be notified in advance, where possible, of any such changes.

## Risk Management

The Management Company employs a risk management process in respect of the Funds which enables it to monitor and manage the global exposure from financial derivative instruments ("**global exposure**") which each Fund gains.

The Management Company uses a methodology known as the "Commitment Approach" in order to measure the global exposure of the Funds and manage the potential loss to them due to market risk.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of derivative instruments to determine the degree of global exposure of a Fund to derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund must not exceed 100% of that Fund's Net Asset Value.

Derivatives will be used in accordance with the 2010 Law and the requirements of the CSSF (as further detailed in Appendix A).

## Investment Objectives and Policies

### Investment Objectives and Policies - General

Investors must read the Risk Considerations and Specific Risk Considerations Sections in this Prospectus before investing in any of the Funds. There can be no assurance that the objectives of each Fund will be achieved.

Each Fund is managed separately and in accordance with the investment and borrowing restrictions specified in Appendix A.

The Funds are index funds, which are funds whose investment objectives aim to match the performance of an index which represents a particular market or sector, for example the MSCI World Index, which represents large and mid-cap companies across developed markets worldwide.

The Funds invest directly in the equities or bonds / fixed income securities of the relevant Benchmark Index rather than gain exposure to the Benchmark Index exclusively through derivatives.

To achieve their investment objectives, the Funds may use certain investment techniques such as a replicating or an optimising technique. Using a replicating technique, the Fund will aim to replicate the composition of the Benchmark Index by investing in a portfolio of securities that as far as possible and practicable consist of the component securities of the Benchmark Index in similar proportions as their weightings in the Benchmark Index. Using an optimising technique, the Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio. Whether the Fund uses a replicating or an optimising technique depends on a broad range of factors. Replicating the Benchmark Index may not always be possible, practicable or cost efficient (particularly in fixed income funds). The number of constituents in the Benchmark Index, liquidity of the constituents and size of the Fund's portfolio will directly affect a Fund's ability to replicate the Benchmark Index. For example, an index with a limited number of liquid government bonds should be more straight forward to replicate than an index with a large number of illiquid corporate bonds as the portfolio will only need to gain exposure to a limited number of liquid securities. Also, the Fund needs to be of sufficient size to invest in each of the constituents of its Benchmark Index in the correct proportions in order to replicate it. This may not always be possible for newly established Funds / Funds with limited assets under management.

A Fund may invest in highly rated / investment grade bonds / fixed income securities, however, where a bond / fixed income security is subsequently downgraded it may continue to be held in order to avoid a distressed sale.

To assist in achieving their investment objectives the Funds may hold ADRs / GDRs and securities that are not contained in the Benchmark Index (e.g. securities with matching risk profiles to those in the Benchmark Index).

The Funds may enter into securities lending, repurchase and/or reverse repurchase agreements as set out in Appendix A.

**United Nations Convention on Cluster Munitions** - The UN Convention on Cluster Munitions became binding international law on 1 August 2010 and prohibits the use, production, acquisition or transfer of cluster munitions. The Investment Advisers on behalf of the Company accordingly arrange for the

screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and depleted uranium ammunition and armour. Where such corporate involvement has been verified, the Directors' policy is not to permit investment in securities issued by such companies by the Company and its Funds.

The Directors may create new Funds or issue further Share Classes. This Prospectus will be supplemented to refer to these new Funds or Classes.

### Investment Objectives and Policies of the Funds

#### The Equity Funds

##### iShares World Equity Index Fund (LU)

The investment objective of the Fund is to match the performance of the MSCI World Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index, in similar proportions to their weightings in the Benchmark Index.

The Fund aims to replicate the composition of the Benchmark Index; however it may not always be possible or practicable to hold every security in their exact weighting as in the Benchmark Index.

The MSCI World Index is a free float-adjusted index which represents large and mid capitalisation companies in developed countries globally. It currently comprises 23 developed markets which include constituents from Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the UK and the US. The Benchmark Index rebalances on a quarterly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

##### iShares Europe Equity Index Fund (LU)

The investment objective of the Fund is to match the performance of the MSCI Europe Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index, in similar proportions to their weightings in the Benchmark Index.

The Fund aims to replicate the composition of the Benchmark Index; however it may not always be possible or practicable to hold every security in their exact weighting as in the Benchmark Index.

The MSCI Europe Index is a free float-adjusted index which represents large and mid capitalisation companies across developed markets in Europe. It currently comprises 15 developed markets as follows: Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. The Benchmark Index rebalances on quarterly basis. Further

details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

#### **iShares Japan Equity Index Fund (LU)**

The investment objective of the Fund is to match the performance of the MSCI Japan Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index, in similar proportions as their weightings in the Benchmark Index.

The Fund aims to replicate the composition of the Benchmark Index; however it may not always be possible or practicable to hold every security in their exact weighting as in the Benchmark Index.

The MSCI Japan Index is a free float-adjusted index which represents large and mid capitalisation companies in the Japan market. The Benchmark Index rebalances on quarterly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

#### **iShares Pacific ex Japan Equity Index Fund (LU)**

The investment objective of the Fund is to match the performance of the MSCI Pacific ex Japan Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index, in similar proportions to their weightings in the Benchmark Index.

The Fund aims to replicate the composition of the Benchmark Index; however it may not always be possible or practicable to hold every security in their exact weighting as in the Benchmark Index.

The MSCI Pacific ex Japan Index is a free float-adjusted index which represents large and mid capitalisation companies across developed markets in the Pacific region (excluding Japan). It currently comprises: Australia, Hong Kong, New Zealand and Singapore. The Benchmark Index rebalances on quarterly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

#### **iShares North America Equity Index Fund (LU)**

The investment objective of the Fund is to match the performance of the MSCI North America Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index, in similar proportions to their weightings in the Benchmark Index.

The Fund aims to replicate the composition of the Benchmark Index; however it may not always be possible or practicable to hold every security in their exact weighting as in the Benchmark Index.

The MSCI North America Index is a free float-adjusted index which represents large and mid capitalisation companies in the US and Canada markets. The Benchmark Index rebalances on quarterly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

#### **iShares Emerging Markets Equity Index Fund (LU)**

The investment objective of the Fund is to match the performance of the MSCI Emerging Markets Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio. The Fund may hold ADRs and GDRs.

The MSCI Emerging Markets Index is a free float-adjusted index which represents large and mid capitalisation companies across emerging markets globally. It currently comprises markets including: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Peru, Philippines, Poland, Qatar, Russia, South Africa, Taiwan, Thailand, Turkey and the United Arab Emirates. The Benchmark Index rebalances on quarterly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>.

#### **The Fixed Income Funds**

##### **iShares Emerging Markets Government Bond Index Fund (LU)**

The investment objective of the Fund is to match the performance of the J.P. Morgan Emerging Markets Bond Index Global Diversified, the Fund's Benchmark Index.

The Fund will invest in a portfolio of bonds / fixed income securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio.

The J.P. Morgan Emerging Markets Bond Index Global Diversified is an index representing USD denominated bonds / fixed income securities issued by emerging market sovereign and quasi-sovereign entities. Quasi-sovereign entities must be 100% guaranteed or 100% owned by the government. The index is comprised of only those countries that meet JP Morgan's criteria for an emerging market and is diversified to limit the weights of larger countries. The Benchmark Index rebalances on monthly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.jpmorgan.com/pages/jpmorgan/investbk/solutions/research/indices/composition>.

### **iShares Global Government Bond Index Fund (LU)**

The investment objective of the Fund is to match the performance of the Citi World Government Bond Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of bonds / fixed income securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio.

The Citi World Government Bond Index is an index representing government bond markets globally. Currently, this includes the government bond markets of Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Ireland, Italy, Japan, Malaysia, Mexico, the Netherlands, Norway, Poland, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States. At the time of inclusion in the Benchmark Index, the securities will be rated at least investment grade by an internationally recognised rating agency. The Benchmark Index rebalances on monthly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <https://www.yieldbook.com/m/indexes/reg/>.

### **iShares Euro Corporate Bond Index Fund (LU)**

The investment objective of the Fund is to match the performance of the Bloomberg Barclays Euro Corporate Bond Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of bonds / fixed income securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio.

The Bloomberg Barclays Euro Corporate Bond Index is an index representing fixed-rate, investment-grade Euro-denominated securities from industrial, utility and financial issuers only. Inclusion is based on the currency of the issue, and not the domicile of the issuer. At the time of inclusion in the Benchmark Index, the securities will be rated at least investment grade by an internationally recognised rating agency. The Benchmark Index rebalances on monthly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://index.barcap.com/index.dxml?pagelId=4377>.

### **iShares Euro Aggregate Bond Index Fund (LU)**

The investment objective of the Fund is to match the performance of the Bloomberg Barclays Euro Aggregate Bond Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of bonds / fixed income securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio.

The Bloomberg Barclays Euro Aggregate Bond Index, is an index representing fixed-rate Euro denominated securities. Inclusion in the Benchmark Index is based on the currency of the issue, and not the domicile of the issuer. The principal sectors in the Benchmark Index are treasury, corporate, government-related

and securitised. At the time of inclusion in the Benchmark Index, the securities will be rated at least investment grade by an internationally recognised rating agency. The Benchmark Index rebalances on monthly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://index.barcap.com/index.dxml?pagelId=4377>.

### **iShares Euro Government Bond Index Fund (LU)**

The investment objective of the Fund is to match the performance of the Citi EMU Government Bond Index, the Fund's Benchmark Index.

The Fund will invest in a portfolio of bonds / fixed income securities that as far as possible and practicable consist of the component securities of the Benchmark Index. The Fund will strategically select a representative sample of the securities in the Benchmark Index to construct the portfolio.

The Citi EMU Government Bond Index is a market capitalisation weighted index representing the Euro denominated EMU government bond markets. At the time of inclusion in the Benchmark Index, the securities will be rated at least investment grade by an internationally recognised rating agency. The Benchmark Index rebalances on monthly basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <https://www.yieldbook.com/m/indexes/reg/>.

### **Reference to Index Provider Website**

In accordance with CSSF requirements, the Company and the Funds are required to provide details of the relevant Fund's Benchmark Index (including the index constituents). The Company has included details of the relevant index provider's website ("**Website**") to enable Shareholders to obtain these further details. The Company and the Funds have no responsibility for each Website and are not involved in any way in sponsoring, endorsing or otherwise involved in the establishment or maintenance of each Website or the contents thereof.

### **Regulation (EU) 2016/1011 of the European Parliament and of the Council (the "Benchmark Regulation")**

In respect of all Funds, the Company is working with the applicable benchmark administrators for the Benchmark Indices to confirm that the benchmark administrators are, or intend to get themselves, included in the register maintained by ESMA under the Benchmark Regulation.

### **Anticipated Tracking Error of the Funds**

Tracking error is the annualised standard deviation of the difference in monthly returns between a Fund and its Benchmark Index. Anticipated tracking error is based on the expected volatility of differences between the returns of the relevant Fund and the returns of its Benchmark Index. One of the primary drivers of tracking error is the difference between fund holdings and index constituents. Cash management and trading costs from rebalancing can also have an impact on tracking error as well as the return differential between the Fund and the Benchmark Index. The impact can be either positive or negative depending on the underlying circumstances.

In addition to the above, the Company and/or the relevant Fund may also have a tracking error due to withholding tax suffered by

the Company and/or the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed by the Company and/or the Fund with the relevant tax authorities, any benefits obtained by the Company and/or the Fund under a tax treaty or any securities lending activities carried out by the Company and/or the Fund.

A Fund's tracking error may be affected if the times at which a Fund and its Benchmark Index are priced are different. Where the Benchmark Index is valued at the time the relevant markets close for business and a Fund is valued at an earlier time, the tracking error of that Fund may appear to be higher than if the Fund and the Benchmark Index were priced at the same time. This is particularly relevant for the fixed income Funds, however, less so for the equity Funds for which the relevant index provider issues a price of the relevant Benchmark Index at the same time as the equity Fund's valuation point. In addition, as the Net Asset Value of a Fund taken at its valuation point includes the effect of swing pricing (see Appendix B paragraph 17.3), the tracking error figures set out below may be impacted in future depending on the significance of any adjustment in the Net Asset Value in order to reduce the effect of "dilution" on that Fund.

A Fund's tracking error may also be affected at times when the local stock exchanges or regulated markets in respect of a particular Fund are closed for trading and settlement due to public holidays. During such times, the relevant Funds will not be able to obtain access to such market(s) directly and will either hold the cash received from any subscriptions until the relevant market(s) are open or will obtain exposure to the relevant market(s) indirectly using proxy instruments. Both approaches may increase a Fund's tracking error. Alternatively, the tracking error of a Fund may be affected if there is a public holiday in Luxembourg, as the Net Asset Value of the Funds will remain the same, despite movements in the underlying markets.

Shareholders should note that the actual performance of a Fund will not necessarily be aligned with the anticipated tracking error for the Fund as detailed below. This is because anticipated tracking error is calculated on the basis of historical data and therefore will not necessarily capture factors which may positively or negatively impact a Fund's actual performance versus the Benchmark Index. Such factors might include, by way of example, an increase in income generated by way of stock lending or a new tax levied on securities held by a Fund. The anticipated tracking error of each Fund is not a guide to future performance.

### Equity Funds

The table below displays the anticipated tracking error, in normal market conditions, of each of the Funds listed therein.

Fund	Anticipated tracking error (Calculated using the performance of the Fund against the performance of the Benchmark Index at the Fund's valuation point)
iShares World Equity Index Fund (LU)	Up to 0.45%
iShares Europe Equity Index Fund (LU)	Up to 0.60%
iShares Japan Equity Index Fund (LU)	Up to 1.50%
iShares Pacific ex Japan Equity Index Fund (LU)	Up to 2.00%
iShares North America Equity Index Fund (LU)	Up to 0.45%
iShares Emerging Markets Equity Index Fund (LU)	Up to 1.00%

### Fixed Income Funds

Taking into account the paragraph above relating to the impact on tracking error in a Fund where the times at which a Fund and its Benchmark Index are priced are different and in order to provide an accurate reflection of the way in which the fixed income Funds are managed, the table below displays the anticipated tracking error figures of the fixed income Funds, in normal market conditions, using two different performance data points. The first column in the table displays the anticipated tracking error of each Fund based on the Funds' performance at their valuation point (whereby a formal Net Asset Value is calculated and a dealing price produced) against the closing performance of the Benchmark Index. Due to the discrepancy in timing between the valuation point for these Funds and the Benchmark Index's closing price (as described above), there may be movements in the Benchmark Index which are being tracked by the relevant Fund which have not been captured within the anticipated tracking error figure. Accordingly, in order to provide a truer reflection of the way in which these Funds are managed, the figures shown in the second column are based on the close of business informal valuation of each Fund as against the closing performance of the Benchmark Index.

Fund	Anticipated tracking error (Calculated using the performance of the Fund at its Valuation Point against the performance of the Benchmark Index)	Anticipated tracking error (Calculated using the performance of the Fund at close as against the closing performance of the Benchmark Index)*
iShares Euro Government Bond Index Fund (LU)	Up to 0.250%	0.075%
iShares Euro Corporate Bond Index Fund (LU)	Up to 1.200%	0.400%
iShares Euro Aggregate Bond Index Fund (LU)	Up to 0.600%	0.200%
iShares Emerging Markets Government Bond Index Fund (LU)	Up to 1.200%	0.400%
iShares Global Government Bond Index Fund (LU)	Up to 0.450%	0.150%

\* Please note that investors cannot subscribe for Shares, or redeem their Shares, in the Funds at the valuation used at the close of the Benchmark Index. Shares in the Funds will be valued and priced in accordance with Appendix B (Net Asset Value and Price Determination) of this prospectus.

## Classes and Form of Shares

Shares offered in any Fund shall be divided into different Classes as follows: Class A, Class N, Class D, Class F, Class I and Class X representing six different charging structures. All Classes of Shares shall be issued in registered form and no temporary documents of title or share certificates will be issued.

Shares are further divided into Distributing and Non-Distributing Share Classes. For example, Class A (Distributing), Class A (Non-Distributing), Class D (Distributing) and Class D (Non-Distributing). Non-Distributing Shares do not pay dividends, whereas Distributing Shares pay dividends. See Section "Dividends" for further information.

Non-Distributing Shares of any Class are also referred to using the number 2 e.g. Class A2.

Distributing Shares of any Class are also referred to using the number 7 e.g. Class A7.

1. Class A Shares are offered for subscription to all investors.
2. Class N Shares shall be issued at the discretion of the Management Company.
3. Class D Shares are offered for subscription to investors only through distributors and other intermediaries whom, for example, have separate fee arrangements with their clients. They are only available at the Management Company's discretion.
4. Class F Shares are offered for subscription to investors only through distributors and other intermediaries whom, for example, have separate fee arrangements with their clients. They are only available at the Management Company's discretion.
5. Class I Shares are reserved for subscription to investors who satisfy the eligibility and suitability requirements of Institutional Investors. They are only available at the Management Company's discretion.
6. Class X Shares are reserved for subscription to investors who satisfy the eligibility and suitability requirements of Institutional Investors. They are only available at the discretion of the Investment Advisers and their affiliates.

## Hedged Share Classes

The hedging strategies applied to Hedged Share Classes will vary on a Fund by Fund basis. Funds will apply a hedging strategy which aims to mitigate currency risk between the Net Asset Value of the Fund and the currency of the Hedged Share Class, while taking account of practical considerations including transaction costs.

## General

Investors purchasing any Share Class through a distributor will be subject to the distributor's normal account opening requirements. Title to registered shares is evidenced by entries in the Company's Share register. Shareholders will receive confirmation notes of their transactions. Registered share certificates are not issued.

## Dealing in Fund Shares

### Daily Dealing

Dealing in Shares can normally be effected daily on any day that is a Dealing Day for the relevant Fund. Except where provided otherwise below, orders for subscription, redemption and conversion of Shares should be received by the Transfer Agent or the local Investor Servicing team before 12 noon Luxembourg time on the relevant Dealing Day (the "**Cut-Off Point**"). Except where provided otherwise below, such orders shall be processed on that day and the prices applied will be those calculated in the afternoon of that day. Any dealing orders received by the Transfer Agent or the local Investor Servicing team after the Cut-Off Point will be dealt with on the next Dealing Day. At the discretion of the Company, dealing orders transmitted by a paying agent, a correspondent bank or other entity aggregating deals on behalf of its underlying clients before the Cut-Off Point but only received by the Transfer Agent or the local Investor Servicing team after the Cut-Off Point may be treated as if they had been received before the Cut-Off Point. At the discretion of the Company, prices applied to orders backed by uncleared funds may be those calculated in the afternoon of the day following receipt of cleared funds. Further details and exceptions are described under the Sections "Application for Shares", "Redemption of Shares" and "Conversion of Shares" below. Once given, applications to subscribe and instructions to redeem or convert are irrevocable except in the case of suspension or deferral (see paragraphs 29. to 32. of Appendix B) and cancellation requests received before 12 noon Luxembourg time.

Orders placed through distributors rather than directly with the Transfer Agent or the local Investor Servicing team may be subject to different procedures which may delay receipt by the Transfer Agent or the local Investor Servicing team. Investors should consult their distributor before placing orders in any Fund.

Where shareholders subscribe for or redeem Shares having a specific value, the number of Shares dealt in as a result of dividing the specific value by the applicable Net Asset Value per Share is rounded to two decimal places. Such rounding may result in a benefit to the Fund or the shareholder.

### Non-Dealing Days

Some Business Days will not be Dealing Days for certain Funds where, for example, a substantial amount of such Fund's portfolio is traded in market(s) which are closed. In addition, the day immediately preceding such a relevant market closure may be a non-Dealing Day for such Funds, in particular where the Cut-Off Point occurs at a time when the relevant markets are already closed to trading, so that the Funds will be unable to take appropriate actions in the underlying market(s) to reflect investments in or divestments out of Fund Shares made on that day. A list of the Business Days which will be treated as non-Dealing Days for certain Funds from time to time can be obtained from the Management Company upon request and is also available in the Library section at <http://www.blackrockinternational.com/intermediaries/en-zz/library/index>. This list is subject to change.

### General

Confirmation notes and other documents sent by post will be at the risk of the investor.

## Prices of Shares

All prices are determined after the deadline for receipt of dealing orders 12 noon Luxembourg time on the Dealing Day concerned. Prices are quoted in the Dealing Currency(ies) of the relevant Fund. In the case of those Funds for which two or more Dealing Currencies are available, if an investor does not specify his choice of Dealing Currency at the time of dealing then the Base Currency of the relevant Fund will be used.

The previous Dealing Day's prices for Shares may be obtained during business hours from the local Investor Servicing team and are also available from the BlackRock website. They will also be published in such countries as required under applicable law and at the discretion of the Directors in a number of newspapers or electronic platforms worldwide. The Company cannot accept any responsibility for error or delay in the publication or non-publication of prices. Historic dealing prices for all Shares are available from the Fund Accountant or the local Investor Servicing team.

### **Class A, Class N, Class D, Class F, Class I, and Class X Shares**

Class A, Class N, Class D, Class F, Class I, and Class X Shares may normally be acquired or redeemed at their Net Asset Value. Prices may include or have added to them, as appropriate: (i) an initial charge and (ii) in limited circumstances, adjustments to reflect fiscal charges and dealing costs (see paragraph 17.3 of Appendix B).

## Application for Shares

### **Applications**

Initial applications for Shares must be made to the Transfer Agent or the local Investor Servicing team on the application form. Certain distributors may allow underlying investors to submit applications through them for onward transmission to the Transfer Agent or the local Investor Servicing team. For initial applications for Shares by fax, applicants will be sent an application form that must be completed and returned by mail to the Transfer Agent or the local Investor Servicing team to confirm the application. Failure to provide the original application form will delay the completion of the transaction and consequently the ability to effect subsequent dealings in the Shares concerned. Except where provided otherwise below, subsequent applications for Shares may be made in writing or by fax.

Investors who do not specify a Share Class in the application will be deemed to have requested Class A Non-Distributing Shares. All application forms and other dealing orders must contain all required information, including (but not limited to) Share Class specific information such as the International Securities Identification Number (ISIN) of the Share Class the investor wishes to deal in. Where the ISIN quoted by the investor is different from any other Share Class specific information provided by the investor with respect to such order, the quoted ISIN shall be decisive and the Management Company and the Transfer Agent may process the order accordingly taking into account the quoted ISIN only.

Applications for registered shares should be made for Shares having a specified value and fractions of Shares will be issued where appropriate.

The Directors reserve the right to reject any application for Shares or to accept any application in part only. In addition, issues of Shares of any or all Funds may be deferred until the

next Dealing Day or suspended, where the aggregate value of orders for all Share Classes of that Fund exceeds a particular value (currently fixed by the Directors at 5% by approximate value of the Fund concerned) and the Directors consider that to give effect to such orders on the relevant Dealing Day would adversely affect the interests of existing shareholders. This may result in some shareholders having subscription orders deferred on a particular Dealing Day, whilst others do not. Applications for Shares so deferred will be dealt with in priority to later requests.

In order to protect the interests of all shareholders in the relevant Fund, where the aggregate value of any application(s) for Shares by a single investor (or associate investors) exceeds 10% of the Net Asset Value of the Fund concerned, the investor(s) must submit a subscription form (for a subsequent investment into a Fund or an initial application for Shares) to the Transfer Agent or the local Investor Servicing team by the Cut-Off Point at least one Business Day in advance of the required Dealing Day. For the avoidance of doubt, the price of Shares concerned may be calculated on the day of the required Dealing Day and not on the day notice is served. Upon receipt and acceptance of the application/subscription form(s) by the Transfer Agent or the local Investor Servicing team, such application(s) shall be irrevocable and the applicant shall indemnify the relevant Fund and the Management Company for any losses, costs or expenses suffered as a result of it failing to make settlement in accordance with the requirements under "Settlement" and "Default in Settlement" below.

Investors acknowledge and authorise that their personal data and any other information (including information relating to their investments in the Company) supplied to or received by, the Company, the Management Company, the BlackRock Group and/or the Transfer Agent may be stored, processed, transferred and/or disclosed by any of these entities to: (i) any other member(s) of the BlackRock Group and any of their respective agents, delegates and/or service providers and/or any other member(s) of the JP Morgan Group (in each case including where any of the aforementioned entities is located outside Luxembourg or in countries outside the European Economic Area having lower standards of protection for personal data and/or statutory confidentiality) and/or (ii) to any of the Transfer Agent's agents, delegates and/or service providers within the European Economic Area, in each case, by using electronic communications, gateways and/or computing systems operated by any of such entities and solely for the purposes of enabling the Company, the Management Company and/or the Transfer Agent (as appropriate), to: (a) provide administration, transfer agency, paying agency or any ancillary or related services requested by the Company and/or for which investors have applied or may apply in the future, and (b) to comply with any applicable laws, regulations, regulatory requirements, internal risk-management or compliance policies or any orders issued by a court, regulatory or governmental authority in any jurisdiction where the investor's data may be stored or processed. Accordingly, the investor's information will be held in confidence and not shared without the investor's permission other than as described above.

Investors further acknowledge that this authorisation is also granted in the context of the Luxembourg statutory confidentiality and personal data protection obligations of the Transfer Agent and, by subscribing Shares in the Company, waive such confidentiality and personal data protection in

respect of the holding, processing and transfer of their data by the Transfer Agent and only to the extent necessary pursuant to paragraphs (a) and (b) above. Should the investor wish to amend or revoke its authorisation in this respect it shall notify the Transfer Agent of its intention in writing.

Investors may at any time request information about the companies within the BlackRock Group and/or the JP Morgan Group and the countries in which they operate as well as a copy of the information held in relation to them and request any errors to be corrected.

### **Settlement**

For all Shares, settlement in cleared funds net of bank charges must be made within three Business Days of the relevant Dealing Day unless otherwise specified in the contract note in cases where the standard settlement date is a public holiday for the currency of settlement. If timely settlement is not made (or a completed application form is not received for an initial subscription) the relevant allotment of Shares may be cancelled and an applicant may be required to compensate the relevant distributor and/or the Company (see paragraph 26. of Appendix B).

Payment instructions are summarised at the back of this Prospectus. Payments made by cash or cheque will not be accepted.

Settlement should normally be made in the Dealing Currency for the relevant Fund or, if there are two or more Dealing Currencies for the relevant Fund, in the one specified by the investor. An investor may, by prior arrangement with the Transfer Agent or the local Investor Servicing team, provide the Transfer Agent with any major freely convertible currency and the Transfer Agent will arrange the necessary currency exchange transaction. Any such currency exchange will be effected at the investor's risk and cost.

The Management Company may, at its discretion, accept subscriptions in specie, or partly in cash and in specie, subject always to the minimum initial subscription amounts and the additional subscription amounts and provided further that the value of such subscription in specie (after deduction of any relevant charges and expenses) equals the subscription price of the Shares. Such securities will be valued on the relevant Dealing Day and, in accordance with Luxembourg law, may be subject to a special report of the Auditor. Further details of redemptions in specie are set out in paragraphs 23. and 24. of Appendix B.

### **Minimum Subscription**

The minimum initial subscription amounts are as follows (or the approximate equivalents in the relevant Dealing Currency):

Class A Shares: USD5,000, Class D Shares: USD100,000, Class F Shares: USD500,000, Class I Shares, Class X Shares: USD10 million and Class N Shares: USD50 million.

The minimum for additions to existing holdings of Class A Shares, Class D Shares, Class F Shares, Class I Shares and Class X Shares is USD1,000 or the approximate equivalent.

The minimum for additions to existing holdings of Class N Shares is USD5 million or the approximate equivalent.

These minima (initial subscriptions and additions) may be varied for any particular case or distributor or generally. Details of the current minima are available from the local Investor Servicing team.

### **Compliance with Applicable Laws and Regulations**

Investors who wish to subscribe for Shares must provide the Transfer Agent and/or the Management Company and/or Depositary with all necessary information which they may reasonably require to verify the identity of the investor in accordance with applicable Luxembourg regulations on the prevention of the use of the financial sector for money laundering purposes and in particular in accordance with CSSF circular 08/387 as amended, restated or supplemented from time to time and in order to comply with screening requirements issued by any regulatory, governmental or other official authorities in respect of applicable international financial sanctions. Failure to do so may result in the Management Company rejecting a subscription order.

Furthermore, as a result of any other applicable laws and regulations, including but not limited to, other relevant anti-money laundering legislation, requirements in respect of applicable international financial sanctions, tax laws and regulatory requirements, investors may be required, in certain circumstances, to provide additional documentation to confirm their identity or provide other relevant information pursuant to such laws and regulations, as may be required from time to time, even if an existing investor. Any information provided by investors will be used only for the purposes of compliance with these requirements and all documentation will be duly returned to the relevant investor. Until the Transfer Agent and/or the Management Company and/or the Depositary receives the requested documentation or additional information, there may be a delay in processing any subsequent redemption requests and the Management Company reserves the right in all cases to withhold redemption proceeds until such a time as the required documentation or additional information is received.

The Transfer Agent shall at all times comply with any obligations imposed by any applicable laws, rules and regulations with respect to money laundering prevention and, in particular, with the law of 12 November 2004 on the fight against money laundering and terrorist financing and CSSF Circular 08/387 of 19 December 2008, as amended, restated or supplemented from time to time. The Transfer Agent shall furthermore adopt procedures designed to ensure, to the extent applicable, that it and its agents shall comply with the foregoing undertaking. Moreover, the Transfer Agent is legally responsible for identifying the origin of monies transferred, provided that such duties may be delegated, always subject to the responsibility and control of the Transfer Agent, to investment professionals and financial sector institutions required to enforce an identification procedure equal to that required under Luxembourg law. The Transfer Agent as well as the Depositary acting on behalf of the Company may require at any time additional documentation relating to the admission of an investor as a shareholder.

### **Redemption of Shares**

#### **Applications to Redeem**

Instructions for the redemption of registered Shares should normally be given by fax or in writing to the Transfer Agent or the local Investor Servicing team. Certain distributors may allow underlying investors to submit instructions for redemptions

through them for onward transmission to the Transfer Agent or the local Investor Servicing team. They may also be given to the Transfer Agent or the local Investor Servicing team in writing, or by fax followed by confirmation in writing sent by mail to the Transfer Agent or the local Investor Servicing team unless a coverall renunciation and fax indemnity including instructions to pay the redemption proceeds to a specified bank account has been agreed. Failure to provide written confirmations may delay settlement of the transaction (see also paragraph 26. of Appendix B). Written redemption requests (or written confirmations of such requests) must include the full name(s) and address of the holders, the name of the Fund, the Class (including whether it is the Distributing or Non-Distributing Share Class), the value or number of Shares to be redeemed and full settlement instructions and must be signed by all holders. If a redemption order is made for a cash amount or for a number of Shares to a higher value than that of the applicant's account then this order will be automatically treated as an order to redeem all of the Shares on the applicant's account.

In order to protect the interests of all shareholders in the relevant Fund, where the aggregate value of an instruction for the redemption of Shares by a single investor (or associate investors) exceeds 10% of the Net Asset Value of the Fund concerned, the investor(s) must submit an instruction for the redemption of Shares to the Transfer Agent or the local Investor Servicing team by the Cut-Off Point at least one Business Day in advance of the required Dealing Day. For the avoidance of doubt, the price of Shares concerned may be calculated on the day of the required Dealing Day and not on the day notice is served. Upon receipt and acceptance of the instruction(s) for the redemption of Shares by the Transfer Agent or the local Investor Servicing team, such instruction(s) shall be irrevocable. In the event that it is necessary to defer the redemption request, in accordance with paragraphs 29. to 32. of Appendix B, notice of this fact shall be given to the shareholder concerned upon receipt of the instruction for redemption, in advance of the Valuation Point on that Business Day.

Redemptions may be suspended or deferred as described in paragraphs 29. to 32. of Appendix B.

### Settlement

Subject to paragraph 22. of Appendix B, redemption payments will normally be despatched in the relevant Dealing Currency on the third Business Day after the relevant Dealing Day, provided that the relevant documents (as described above and any applicable money laundering prevention or international financial sanctions information) have been received. On written request to the Transfer Agent or the local Investor Servicing team, payment may be made in such other currency as may be freely purchased by the Transfer Agent with the relevant Dealing Currency and such currency exchange will be effected at the shareholder's cost.

Redemption payments for Shares are made by telegraphic transfer to the shareholder's bank account at the shareholder's cost. Investors with bank accounts in the European Union must provide the IBAN (International Bank Account Number) and BIC (Bank Identifier Code) of their account.

The Management Company may, subject to the prior consent of a shareholder and to the minimum dealing and holding amounts, effect a payment of redemption proceeds in specie.

Such redemption in specie will be valued on the relevant Dealing Day and, in accordance with Luxembourg law, may be subject to a special report of the Auditor. Further details of redemptions in specie are set out in paragraphs 23. and 24. of Appendix B.

### Conversion of Shares

#### Switching Between Funds and Share Classes

Shareholders may request conversions of their shareholdings between the same Share Classes of the various Funds and thereby alter the balance of their portfolios to reflect changing market conditions.

Shareholders may also request conversion from one Share Class in a Fund to another Share Class of either the same Fund or a different Fund or between Distributing and Non-Distributing Shares of the same Class or between Hedged Share Classes and un-hedged Shares of the same Class (where available).

In addition, shareholders may convert between any Class of UK Reporting Fund status Shares in one currency and the equivalent class of Distributing Shares in non-UK Reporting Fund status shares of the same currency. Investors should note that a conversion between a Share Class which has UK Reporting Fund status and a Share Class which does not have UK Reporting Fund status may cause the shareholder to be subject to an "offshore income gain" on the eventual disposal of their interest in the Fund. If this is the case, any capital gain realised by investors on disposal of their investment (including any capital gain accruing in relation to the period where they held the UK Reporting Fund Share Class) may be subject to tax as income at their appropriate income tax rate. Investors should seek their own professional tax advice in this regard.

Shareholders should note that a conversion between Shares held in different Funds may give rise to an immediate taxable event.

As tax laws differ widely from country to country, investors should consult their tax advisers as to the tax implications of such a conversion in their individual circumstances.

Shareholders may request conversions of the whole or part of their shareholding provided that the shareholder satisfies the conditions applicable to investment in the Share Class being converted into (see "Classes and Form of Shares" above). Such conditions include but are not limited to:

- ▶ satisfying any minimum investment requirement;
- ▶ demonstrating that they qualify as an eligible investor for the purposes of investing in a particular Share Class;
- ▶ the suitability of the charging structure of the Share Class being converted into; and
- ▶ satisfying any conversion charges that may apply,

provided that the Management Company may, at its discretion, elect to waive any of these requirements where it deems such action reasonable and appropriate under the circumstances.

For holders of all Share Classes, there is normally no conversion charge by the Management Company. However, conversion charges may apply in some circumstances – see paragraphs 19. to 21. of Appendix B.

Conversion and investment into and out of certain Share Classes is at the discretion of the Management Company. At the Management Company's discretion and provided always that the investor is an Institutional Investor, conversion from any Share Class into Class I and Class X Shares is permitted.

The Management Company may, at its discretion, refuse conversions in order to ensure that the Shares are not held by or on behalf of any person who does not meet the conditions applicable to investment in that Share Class, or who would then hold the Shares in circumstances which could give rise to a breach of law, or requirements of any country, government or regulatory authority on the part of that person or the Company or give rise to adverse tax or other pecuniary consequences for the Company, including a requirement to register under any securities or investment or similar laws or requirements of any country or authority.

### Instructions to Convert

Instructions for the conversion of registered shares should normally be given by instructing the Transfer Agent or the local Investor Servicing team in writing or by fax (in a format acceptable to the Company). Certain distributors may allow underlying investors to submit instructions for conversions through them for onward transmission to the Transfer Agent or the local Investor Servicing team. Instructions may also be given by fax or in writing to the Transfer Agent or the local Investor Servicing team. Written conversion requests (or written confirmations of such requests) must include the full name(s) and address of the holder(s), the name of the Fund, the Class (including whether it is the Distributing or Non-Distributing Share class), the value or number of Shares to be converted and the Fund to be converted into (and the choice of Dealing Currency of the Fund where more than one is available) and whether or not they are UK Reporting Fund status Shares.

In order to protect the interests of all shareholders in the relevant Fund, where the aggregate value of an instruction for the conversion of registered Shares by a single investor (or associate investors) exceeds 10% of the Net Asset Value of the Fund concerned, the investor(s) must submit the instruction(s) to the Transfer Agent or the local Investor Servicing team by the Cut-Off Point at least one Business Day in advance of the required Dealing Day on which conversion is desired. For the avoidance of doubt, the price of Shares concerned may be calculated on the day of the required Dealing Day and not on the day notice is served. Upon receipt and acceptance of the instruction for the conversion of registered shares by the Transfer Agent or the local Investor Servicing team, such instruction shall be irrevocable. Where the Funds to which a conversion relates have different Dealing Currencies, currency will be converted at the relevant rate of exchange on the Dealing Day on which the conversion is effected.

Conversions may be suspended or deferred as described in paragraphs 29. to 32. of Appendix B and an order for conversion into a Fund constituting over 10% of such Fund's value may not be accepted, as described in paragraph 31. of Appendix B.

### Transfer of Shares

Shareholders holding Shares of any Class through a distributor or other intermediary may request that their existing holdings be transferred to another distributor or intermediary which has an agreement with the Principal Distributor.

### Minimum Dealing and Holding Sizes

The Company may refuse to comply with redemption, conversion or transfer instructions if they are given in respect of part of a holding in the relevant Share Class which has a value of less than USD1,000 or the approximate equivalent in the relevant Dealing Currency or if to do so would result in such a holding of less than USD5,000 (except for Class I and Class X Shares where there is no on-going minimum holding size once the initial subscription amount has been made). These minima may be varied for any particular case or distributor or generally. Details of any variations to the current minima shown above are available from the local Investor Servicing team.

If as a result of a withdrawal, switch or transfer a small balance of Shares, meaning an amount of USD5 (or its currency equivalent) or less, is held by a shareholder, the Management Company shall have absolute discretion to realise this small balance and donate the proceeds to a UK registered charity selected by the Management Company.

### Dividends

#### Dividend Policy

Distributions will not be made to the shareholders of the Non-Distributing Share Classes. The investment income and other profits will be accumulated and reinvested on behalf of these shareholders.

For the Distributing Share Classes, the policy is to distribute substantially all the investment income for the period after deduction of expenses.

The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

#### Distributing Share Classes

The Directors intend to declare dividends on the Distributing Share Classes out of the net revenue of the relevant Fund (i.e. all interest, dividends and other income less the Fund's accrued expenses) for that financial year.

Dividends will normally be declared with a view to being paid semi-annually. The dividend payment frequency for each Fund is as follows:

Fund	Distributing Share Classes	Frequency
iShares World Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Europe Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Japan Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)

Fund	Distributing Share Classes	Frequency
iShares Pacific ex Japan Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares North America Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Emerging Markets Equity Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Euro Government Bond Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Euro Corporate Bond Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Euro Aggregate Bond Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Emerging Markets Government Bond Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)
iShares Global Government Bond Index Fund (LU)	Class A, Class D, Class F, Class N, Class I, Class X	Semi-Annually (March and September)

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

For those Funds which offer UK Reporting Fund status Share Classes, the frequency at which the dividend payment is generally made is determined by the Fund type as described in the Section "Classes and Form of Shares".

Distributing Shares with alternative payment frequencies may be introduced at the Directors' discretion. Confirmation of additional distribution frequencies and the date of their availability can be obtained from the Company's registered office and the local Investor Servicing team.

The Company may operate income equalisation arrangements with a view to ensuring that the level of net income accrued within a Fund and attributable to each Share is not affected by the issue, conversion or redemption of those Shares during an accounting period.

Where an investor buys Shares during an accounting period, the price at which those Shares were bought may be deemed to include an amount of net income accrued since the date of the last distribution. The result is that, in relation to these Shares, the first distribution which an investor receives following purchase may include a repayment of capital. Non-Distributing Shares do not distribute income and so should not be impacted in the same way.

Where an investor sells Shares during an accounting period the redemption price may be deemed to include an amount of net income accrued since the date of the last distribution. Non-Distributing Shares do not distribute income and so should not be impacted in the same way.

The list of Funds' operating income equalisation arrangements and the income element included will be made available upon request from the Company's registered office.

A list of Dealing Currencies, Hedged Share Classes, Distributing and Non-Distributing Share Classes and UK Reporting Fund status Classes is available from the Company's registered office and the local Investor Servicing team.

## Fees, Charges and Expenses

### Please see Appendix E for a summary of fees and charges.

Further information on fees, charges and expenses is given in Appendix C, and the following information must be read in conjunction with Appendix C.

### Management Fees

The Company will pay the Management Fee at an annual rate as shown in Appendix E. The level of management fee varies according to which Fund and Share Class the investor buys. These fees accrue daily, are based on the Net Asset Value of the relevant Fund (reflecting, when applicable, any adjustment to the Net Asset Value of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly. Certain costs and fees are paid out of the management fee, including the fees of the Investment Advisers.

### Securities Lending Fees

The securities lending agent, BlackRock Advisors (UK) Limited, receives remuneration in relation to its activities. Such remuneration shall not exceed 37.5% of the net revenue from the activities, with all operational costs borne out of the securities lending agent's share.

### Administration Fee

The Company pays an Administration Fee to the Management Company.

The level of Administration Fee may vary at the Directors' discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Directors and the Management Company that the Administration Fee currently paid shall not exceed 0.15% per annum. It is accrued daily, based on the Net Asset Value of the relevant Share Class (reflecting, when applicable, any adjustment to the Net Asset Value of the relevant Fund, as described in paragraph 17.3 of Appendix B) and paid monthly.

The Directors and the Management Company set the level of the Administration Fee at a rate which aims to ensure that the total expense ratio of each Fund remains competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The Administration Fee is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the Depositary fees, securities lending fees, any costs relating to

withholding tax reclaims<sup>1</sup> (plus any taxes or interest thereon) and any taxes at an investment or Company level. Any costs relating to withholding tax reclaims will be allocated between the relevant Funds on a fair and equitable basis.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the risk of ensuring that the Fund's total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the Administration Fee paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of Administration Fee that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

#### **Other Fees**

The Company also pays the fees of the Depositary. This fee is normally allocated between the relevant Funds (plus any taxes thereon) on a fair and equitable basis at the Directors' discretion.

#### **Initial Charge**

On application for Shares an initial charge, payable to the Principal Distributor, of up to 5% may be added to the price of Class A Shares, Class N Shares, Class D Shares and Class F Shares.

#### **Conversion Charges**

Conversion charges may be applied by selected distributors. See paragraphs 19. to 21. of Appendix B for further details.

#### **Redemption Charges**

A redemption charge up to a maximum of 2% of the redemption proceeds can be charged to a shareholder at the discretion of the Directors where the Directors, in their reasonable opinion, suspect that shareholder of excessive trading as described in the Section "Excessive Trading Policy". This charge will be made for the benefit of the Funds, and shareholders will be notified in their contract notes if such a fee has been charged.

#### **General**

Over time, the different charging structures summarised above may result in different Share Classes of the same Fund, which were bought at the same time, producing different investment

returns. In this context investors may also wish to consider the services provided by their distributor in relation to their Shares.

The Management Company may pay fees and charges to the Principal Distributor, which in turn may pay fees to other distributors as described in Appendix C where permitted by applicable local laws.

#### **Taxation**

The following summary is based on current law and practice, which is subject to change.

**Shareholders should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling shares or the effects of any equalisation policy relevant in respect of shares, under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and relief from, taxation can change.**

#### **Luxembourg**

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income or capital gains tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax.

Under Luxembourg tax law in force at the time of this Prospectus, shareholders are not subject to any capital gains, income, withholding, estate, inheritance or other taxes in Luxembourg (except for those domiciled, resident or having a permanent establishment in Luxembourg). Non-resident shareholders are not subject to tax in Luxembourg on any capital gain realized from January 1, 2011, upon disposal of Shares held in the Company.

#### *Luxembourg Taxe d'abonnement*

#### **The Funds are exempt from taxe d'abonnement.**

The sole objective of each Fund is to match / replicate the performance its Benchmark Index and all Share Classes of the Company are listed on the Luxembourg Stock Exchange. Therefore, in accordance with the 2010 Law, which provides an exemption from taxe d'abonnement to funds and classes structured in this manner, it is expected that the Share Classes should be exempt from this annual subscription tax (which otherwise would be applied at 0.05% of the Fund's Net Asset Value for Class A, Class N, Class D and Class F Shares and at 0.01% of the Fund's Net Asset Value for Class I and Class X Shares).

#### **United Kingdom**

The Company is not resident in the UK for tax purposes and it is the intention of the Directors to continue to conduct the affairs of the Company so that it does not become resident in the UK. Accordingly it should not be subject to UK taxation (except in respect of income for which every investor is inherently subject to UK tax). Any gain realised by a UK resident shareholder on disposal of Shares in the Company that have not obtained UK Reporting Fund status would be expected to be an 'offshore income gain' subject to tax as income. UK residents are likely to be subject to income tax on any dividends declared in respect of

<sup>1</sup> From 8 March 2017, any costs relating to withholding tax reclaims (plus any taxes or interest thereon) will no longer be paid by the Management Company and will be allocated between the relevant Funds on a fair and equitable basis

such shares in the Company, even if they elect for such dividends to be reinvested.

Dividends from offshore funds received by investors subject to UK income tax will be taxed as dividends in the hands of the investor provided that the fund does not at any time during the distribution period hold more than 60% of its assets in interest-bearing (or economically similar) form. From 6 April 2016, there is no longer a notional 10% tax credit on dividend distributions. Instead, a £5,000 tax free dividend allowance has been introduced for UK individuals. Dividends received in excess of this threshold will be taxed at 7.5% for basic rate taxpayers, 32.5% for higher rate taxpayers and 38.1% for additional rate taxpayers.

If the fund holds more than 60% of its assets in interest-bearing (or economically similar) form, any distribution received by UK investors who are subject to income tax will be treated as a payment of yearly interest. The tax rates applying will be those applying to interest (section 378A ITTOIA 2005).

The attention of individuals resident in the UK is drawn to sections 714 to 751 of the Income Tax Act 2007, which contains provisions for preventing avoidance of income tax by transactions resulting in the transfer of income to persons (including companies) abroad and may render them liable to taxation in respect of undistributed income and profits of the Company.

The provisions of section 13 TCGA 1992 may apply to a holding in the Company. Where at least 50% of the Shares are held by five or fewer participators, then any UK person who (together with connected parties) holds more than 25% of the Shares may be taxed upon his proportion of the chargeable gain realised by the Fund as calculated for UK tax purposes.

On the death of a UK resident and domiciled individual shareholder, the shareholder's estate (excluding the UK Reporting Fund status Share Classes) may be liable to pay income tax on any accrued gain. Inheritance tax may be due on the value of the holding after deduction of income tax and subject to any available inheritance tax exemptions.

A UK corporate shareholder may be subject to UK taxation in relation to its holdings in the Fund. It may be required to apply fair value accounting basis in respect of its shareholding in accordance with provisions of Chapter 3 Part 6 Corporation Tax Act 2009 and any increases or decreases in value of the Shares may be taken into account as receipts or deductions for corporation tax purposes.

Corporate shareholders resident in the UK for taxation purposes should note that the "controlled foreign companies" legislation contained in Part 9A of TIOPA 2010 could apply to any UK resident company which is, either alone or together with persons connected or associated with it for taxation purposes, deemed to be interested in 25 per cent or more of any chargeable profits of a non-UK resident company, where that non-UK resident company is controlled by residents of the UK and meets certain other criteria (broadly that it is resident in a low tax jurisdiction). "Control" is defined in Chapter 18, Part 9A of TIOPA 2010. A non-UK resident company is controlled by persons (whether companies, individuals or others) who are resident in the UK for taxation purposes or is controlled by two persons taken together,

one of whom is resident in the UK for tax purposes and has at least 40 per cent of the interests, rights and powers by which those persons control the non-UK resident company, and the other of whom has at least 40 per cent and not more than 55 per cent of such interests, rights and powers. The effect of these provisions could be to render such shareholders liable to UK corporation tax in respect of the income of the Fund.

It is the intention of the Company that assets held by the Funds will generally be held for investment purposes and not for the purposes of trading. Even if Her Majesty's Revenue & Customs ("HMRC") successfully argued that a Fund is trading for UK tax purposes, it is expected that the conditions of the Investment Management Exemption ("IME") should be met, although no guarantee is given in this respect. Assuming that the requirements of the IME are satisfied, the Fund should not be subject to UK tax in respect of the profits / gains earned on its investments (except in respect of income for which every investor is inherently subject to UK tax). This is on the basis that the investments held by the Funds meet the definition of a "specified transaction" as defined in The Investment Manager (Specified Transactions) Regulations 2009. It is expected that the assets held by the Company should meet the definition of a "specified transaction", although no guarantee is given in this respect.

If the Company failed to satisfy the conditions of the IME or if any investments held are not considered to be a "specified transaction", this may lead to tax leakage within the Funds.

In addition to the above, if HMRC successfully argue that a Fund is trading for UK tax purposes, the returns earned by the Fund from its interest in the underlying assets may need to be included in the Fund's calculation of "income" for the purposes of computing the relevant amount to report to investors in order to meet the requirements for UK Reporting Fund status. However, it is considered that the investments held by the Funds should meet the definition of an "investment transaction" as defined by The Offshore Funds (Tax) Regulations 2009 ("the regulations") which came into force on 1 December 2009. Therefore, it is considered that these investments should be considered as "non-trading transactions" as outlined in the regulations. This assumption is on the basis that the Company meets both the "equivalence condition" and the "genuine diversity of ownership" condition as outlined in the regulations. On the basis that the Company is a UCITS fund, the first condition should be met. Shares in each of the Funds shall be widely available. The intended categories of investors for the Funds are retail and Institutional Investors. Shares in the Funds shall be marketed and made available sufficiently widely to reach the intended categories of investors, and in a manner appropriate to attract those categories of investors. On this basis, the second condition should also be met.

### UK Reporting Funds

In November 2009, the UK Government enacted Statutory Instrument 2009 / 3001 (The Offshore Funds (Tax) Regulations 2009) which provides for a framework for the taxation of investments in offshore funds, and which operates by reference to whether a fund opts into a reporting regime ("UK Reporting Funds") or not ("Non- UK Reporting Funds"). Under the regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Fund's income attributable to their holding in the Fund, whether or not distributed, but any gains on disposal of their holding are subject to capital gains tax.

A list of the Funds which currently have UK Reporting Fund status is available at <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Provided such certification is obtained, shareholders who are UK taxpayers (i.e. resident in the UK for tax purposes) will (unless regarded as trading in securities) have any gain realised upon disposal or conversion of the Company's Share treated as a capital gain which will be subject to UK capital gains tax. Otherwise any such gain would be treated as income subject to income tax. In the case of individuals domiciled for UK tax purposes outside the UK, the tax implications in relation to any gain on disposal will depend on whether or not the individual is subject to the remittance basis of taxation. Please note that the changes made in Finance Bill 2008 relating to the UK taxation of non-domiciled, UK resident individuals are complex therefore investors subject to the remittance basis of taxation should seek their own professional advice.

In accordance with Regulation 90 of the Offshore Funds (Tax) Regulations 2009, shareholder reports are made available within six months of the end of the reporting period at [www.blackrock.co.uk/reportingfundstatus](http://www.blackrock.co.uk/reportingfundstatus). The intention of the Offshore Fund Reporting regulations is that reportable income data shall principally be made available on a website accessible to UK investors. Alternatively, the shareholders may if they so require, request a hard copy of the reporting fund data for any given year. Such requests must be made in writing to the following address:

Head of Product Tax, BlackRock Investment Management (UK) Limited, 12 Throgmorton Avenue, London EC2N 2DL.

Each such request must be received within three months of the end of the reporting period. Unless the Management Company is notified to the contrary in the manner described above, it is understood that investors do not require their report to be made available other than by accessing the appropriate website.

#### **Foreign Account Tax Compliance Act ("FATCA")**

The US-Luxembourg Agreement to Improve International Tax Compliance and to Implement FATCA (the "**US-Luxembourg IGA**") was entered into with the intention of enabling the Luxembourg implementation of the Foreign Account Tax Compliance Act provisions of the U.S. Hiring Incentives to Restore Employment Act ("**FATCA**"), which impose a reporting regime and potentially a 30% withholding tax on certain payments made from (or attributable to) US sources or in respect of US assets to certain categories of recipient including a non-US financial institution (a "**foreign financial institution**" or "**FFI**") that does not comply with the terms of FATCA and is not otherwise exempt. Certain financial institutions ("**reporting financial institutions**") are required to provide certain information about their US account holders to the *Administration des contributions directes* (the "**ACD**") (which information will in turn be provided to the US tax authority) pursuant to the US-Luxembourg IGA. It is expected that the Company will constitute a reporting financial institution for these purposes. Accordingly, the Company is required to provide certain information about its direct and, in certain circumstances, its indirect US shareholders to the ACD (which information will in turn be provided to the US tax authorities) and is also required to register with the US Internal Revenue Service. It is the intention of the Company and the Management Company to procure that the Company is treated

as complying with the terms of FATCA by complying with the terms of the reporting system contemplated by the US-Luxembourg IGA. No assurance can, however, be provided that the Company will be able to comply with FATCA and, in the event that it is not able to do so, a 30% withholding tax may be imposed on payments it receives from (or which are attributable to) US sources or in respect of US assets, which may reduce the amounts available to it to make payments to its shareholders.

A number of jurisdictions have entered into multilateral arrangements modelled on the Common Reporting Standard for Automatic Exchange of Financial Account Information published by the Organisation for Economic Co-operation and Development (OECD). This will require the Company to provide certain information to the ACD about its direct and, in certain circumstances, its indirect shareholders from the jurisdictions which are party to such arrangements (which information will in turn be provided to the relevant tax authorities).

In light of the above, shareholders in the Company will be required to provide certain information to the Company to comply with the terms of the reporting systems. Please note that the Directors have determined that US Persons are not permitted to own Shares in the Funds. Please see paragraph 4. of Appendix B below for further information in this regard.

#### **Generally**

Dividends and interest received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax.

Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change.

Under current Luxembourg tax law and subject to the application of the laws dated 21 June 2005 (the "**Laws**") implementing Council Directive 2003/48/EC on the taxation of savings income (the "**EUSD**"), there is no withholding tax on payments made by the Company or its paying agent to the shareholders.

Under the Laws, a Luxembourg-based paying agent (within the meaning of the EUSD) is required since 1 July 2005 to withhold tax on interest and other similar income paid by it to (or under certain circumstances, to the benefit of) an individual resident in another Member State of the European Union ("**EU**") or an entity in the sense of Article 4.2. of the EUSD ("**Residual Entities**"), established in another Member State of the EU, unless the beneficiary of the interest payments elects for an exchange of information or for the tax certificate procedure. The same regime applies to payments to individuals or Residual Entities resident in any of the following EU dependent or associated territories: Netherlands Antilles, Aruba, Guernsey, Jersey, the Isle of Man, Montserrat and the British Virgin Islands.

The withholding tax rate is 35% as from 1 July 2011. The withholding tax system will only apply during a transitional period, the ending of which depends on the conclusion of

certain agreements relating to information exchange with certain third countries.

Interest as defined by the Laws and the EUSD encompasses income realised upon the sale, refund, redemption of shares or units held in certain funds of the Company if, under its investment policy or, in the absence of a clear investment policy, under the real composition of the funds' investment portfolio, said funds invest, directly or indirectly, more than 25% of their assets in debt claims, as well as any income distributed by said funds where the investment in debt claims of such funds exceeds 15% of their assets. Subject to the 15% and/or 25% thresholds being reached, a withholding tax could thus apply when a Luxembourg-based paying agent makes payments available on account of a dividend distribution (a reinvested dividend is considered dividend distribution) and/or a redemption or refund of Shares (including redemption in kind) to the immediate benefit of a shareholder who is an individual or a Residual Entity residing in another EU Member State or in certain EU dependent or associated territories.

The European Union has adopted a Directive repealing the EUSD from 1 January 2016 (1 January 2017 in the case of Austria)(in each case subject to transitional arrangements).

### **Tax Status in Various Jurisdictions**

The following sets out a summary of the tax status that Share classes have obtained in various jurisdictions. Please note that this summary does not set out the tax implications for investors resident in such jurisdictions and the investors should refer to their tax advisors in relation to tax implications on investing in a Share class.

#### *German Taxation*

It is the intention of the Company to seek German Tax Transparent status for certain Share Classes of the Company if the Directors determine it is relevant and appropriate to do so.

#### *Austrian Taxation*

It is the intention of the Company to seek Austrian reporting fund status for certain Share Classes of the Company if the Directors determine it is relevant and appropriate to do so.

#### *United Kingdom Taxation*

It is the intention of the Company to seek UK Reporting Fund status for certain Share Classes of the Company if the Directors determine it is relevant and appropriate to do so. A list of the Funds which currently have UK Reporting Fund status is available at [www.blackrock.co.uk/reportingfundstatus](http://www.blackrock.co.uk/reportingfundstatus).

## **Meetings and Reports**

### **Meetings**

The annual general meeting of shareholders of the Company is held in Luxembourg at 11 a.m. (Luxembourg time) on 20 September each year (or if such day is not a Business Day in Luxembourg, on the next following Business Day in Luxembourg). Other general meetings of shareholders will be held at such times and places as are indicated in the notices of such meetings. Notices are sent to registered shareholders and (when legally required) published in such newspapers as

decided by the Board of Directors and in the Recueil des Sociétés et Associations du Mémorial in Luxembourg. The first annual general meeting will be held in 2013.

### **Reports**

Financial periods of the Company end on 31 March each year. The annual report containing the audited financial accounts of the Company and of each of the Funds in respect of the preceding financial period is available within four months of the relevant year-end. An unaudited interim report is available within two months of the end of the relevant half-year. Copies of all reports are available upon request at the registered office of the Company and from the local Investor Servicing teams. Registered shareholders will be sent a personal statement of account twice-yearly. The first report will be an audited report as at 31 March 2013.

Appendix A - Investment and Borrowing Powers and Restrictions

1. Investment and Borrowing Powers

1.1 The Company's Articles of Association permit it to invest in transferable securities and other liquid financial assets, to the full extent permitted by Luxembourg law. The Articles have the effect that, subject to the law, it is at the Directors' discretion to determine any restrictions on investment or on borrowing or on the pledging of the Company's assets.

1.2 The Company's Articles of Association permit the subscription, acquisition and holding of securities issued or to be issued by one or more other Fund of the Company under the conditions set forth by Luxembourg laws and regulations.

2. Investment and Borrowing Restrictions

The following restrictions of Luxembourg law and (where relevant) of the Directors currently apply to the Company:

2.1 The investments of each Fund shall consist of:

2.1.1 Transferable securities and money market instruments admitted to official listings on regulated stock exchanges in Member States of the European Union (the "EU");

2.1.2 Transferable securities and money market instruments dealt in on other regulated markets in Member States of the EU, that are operating regularly, are recognised and are open to the public;

2.1.3 Transferable securities and money market instruments admitted to official listings on stock exchanges in any other country in Europe, Asia, Oceania, the American continents and Africa;

2.1.4 Transferable securities and money market instruments dealt in on other regulated markets that are operating regularly, are recognised and open to the public of any other country in Europe, Asia, Oceania, the American continents and Africa;

2.1.5 Recently issued transferable securities and money market instruments provided that the terms of the issue include an undertaking that application will be made for admission to the official listing on one of the stock exchanges as specified in 2.1.1 and 2.1.3 or regulated markets that are operating regularly, are recognised and open to the public as specified in 2.1.2 and 2.1.4 and that such admission is secured within a year of issue;

2.1.6 Units of UCITS and/or other undertakings for collective investment ("UCIs") within the meaning of Article 1(2), points (a) and (b) of Directive 2009/65/EC, as amended, whether they are situated in a Member State or not, provided that:

- ▶ such other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured;
- ▶ the level of protection for unitholders in the other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC, as amended;
- ▶ the business of the other UCIs is reported in half-yearly and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period;

▶ no more than 10% of the UCITS' or the other UCIs' assets (or of the assets of any Fund thereof, provided that the principle of segregation of liabilities of the different compartments is ensured in relation to third parties), whose acquisition is contemplated, may, according to their constitutional documents, be invested in aggregate in units of other UCITS or other UCIs;

2.1.7 deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in an EU Member State or, if the registered office of the credit institution is situated in a non-Member State, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;

2.1.8 financial derivative instruments, including equivalent cash-settled instruments, dealt in on a regulated market; and/or financial derivative instruments dealt in over-the-counter ('OTC derivatives'), provided that:

- ▶ the underlying consists of instruments described in subparagraphs 2.1.1 to 2.1.7 above and 2.1.9 below, financial indices, interest rates, foreign exchange rates or currencies, in which the Company may invest according to its investment objectives;
- ▶ the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the CSSF; and
- ▶ the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative;

2.1.9 money market instruments other than those dealt in on a regulated market, which fall under Article 1 of the 2010 Law, if the issue or issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that they are:

- ▶ issued or guaranteed by a central, regional or local authority or central bank of an EU Member State, the European Central Bank, the EU or the European Investment Bank, a non-Member State or, in the case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong; or
- ▶ issued by an undertaking any securities of which are dealt in on regulated markets referred to in subparagraphs 2.1.1, 2.1.2 or 2.1.3 above; or
- ▶ issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law; or
- ▶ issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least €10 million and which presents and publishes its annual accounts in accordance with Directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity

which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

- 2.2 Furthermore, each Fund may invest no more than 10% of its net assets in transferable securities and money market instruments other than those referred to in sub-paragraph 2.1.1 to 2.1.7.
- 2.3 Each Fund may acquire the units of other Funds in the Company, UCITS and/or other UCIs referred to in paragraph 2.1.6. Each Fund's aggregate investment in UCITS or other UCIs will not exceed 10% of its net assets in order that the Funds are deemed eligible investments for other UCITS funds.

When each Fund has acquired shares of UCITS and/or other UCIs, the assets of the respective UCITS or other UCIs do not have to be combined for the purposes of the limits laid down in paragraph 2.6.

When a Fund invests in the units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same investment manager or by any other company with which the investment manager is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs.

- 2.4 When a Fund invests (the "investor Fund") in shares of another Fund in the Company (the "target Fund"):
- ▶ the target Fund may not itself invest in the investor Fund;
  - ▶ the target Fund may not invest more than 10% of its net assets in units of another Fund of the Company ( as set out in paragraph 2.3 above);
  - ▶ any voting rights which may be attached to the shares of the target Fund will be suspended for the investor Fund for the duration of the investment;
  - ▶ any management fees or subscription or redemption fees payable in relation to the target Fund may not be charged to the investor Fund; and
  - ▶ the net asset value of the shares of the target Fund may not be considered for the purpose of the requirement that the capital of the Company should be above the legal minimum as specified in the 2010 Law, currently EUR 1,250,000.

2.5 A Fund may hold ancillary liquid assets.

2.6 A Fund may not invest in any one issuer in excess of the limits set out below:

- 2.6.1 Not more than 10% of a Fund's net assets may be invested in transferable securities or money market instruments issued by the same entity.
- 2.6.2 Not more than 20% of a Fund's net assets may be invested in deposits made with the same entity.
- 2.6.3 By way of exception, the 10% limit stated in the first paragraph of this Section may be increased to:
- ▶ a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by an EU Member State, by its local authorities, by a non-Member State or by public international bodies to which one or more Member States belong;

- ▶ a maximum of 25% in the case of certain bonds when these are issued by a credit institution which has its registered office in an EU Member State and is subject by law to special public supervision designed to protect bond holders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. When a Fund invests more than 5% of its net assets in the bonds referred to in this paragraph and issued by one issuer, the total value of these investments may not exceed 80% of the value of the net assets of such Fund.

2.6.4 The total value of the transferable securities or money market instruments held by a Fund in the issuing bodies in each of which it invests more than 5% of its net assets must not then exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision. The transferable securities and money market instruments limits referred to in the two indents of paragraph 2.6.3 above shall not be taken into account for the purpose of applying the limit of 40% referred to in this paragraph.

Notwithstanding the individual limits laid down in sub-paragraphs 2.6.1 to 2.6.4 above, a Fund may not combine:

- ▶ investments in transferable securities or money market instruments issued by a single entity; and/or
- ▶ deposits made with a single entity; and/or
- ▶ exposures arising from OTC derivative transactions undertaken with a single entity in excess of 20% of its net assets.

When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above mentioned restrictions.

The limits provided for in sub-paragraphs 2.6.1 to 2.6.4 above may not be combined, and thus investments in transferable securities or money market instruments issued by the same entity or in deposits or derivative instruments made with this entity carried out in accordance with paragraphs 2.6.1 to 2.6.4 shall under no circumstances exceed in total 35% of the net assets of the Fund.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/ EEC or in accordance with recognised international accounting rules, are regarded as a single entity for the purpose of calculating the investment limits mentioned in sub-paragraphs 2.6.1 to 2.6.4 above.

The Fund may not invest cumulatively more than 20% of its net assets in transferable securities or money market instruments of the same group subject to restrictions 2.6.1 and the three indents under 2.6.4 above.

Without prejudice to the limits laid down in paragraph 2.8. below, the limit of 10% laid down in sub-paragraph 2.6.1 above is raised to a maximum of 20% for investment in equity and/or debt securities issued by the same body when the aim of the investment policy of a Fund is to replicate the composition of a certain equity or debt securities index which is recognised by the CSSF, on the following basis:

## Appendix A

- ▶ the composition of the index is sufficiently diversified;
- ▶ the index represents an adequate benchmark for the market to which it refers;
- ▶ it is published in an appropriate manner;
- ▶ it is replicable;
- ▶ it is transparent, with the full calculation methodology and index performance published; and
- ▶ it is subject to independent valuation.

This limit is 35% where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. Market dominance exists where a particular constituent of a Benchmark Index has a dominant position in the particular market sector in which it operates and as such accounts for a large proportion of a benchmark index. The investment up to this limit is only permitted for a single issuer.

**By way of derogation, each Fund is authorised to invest up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by an EU Member State, its local authorities, by another member state of the OECD or public international bodies of which one or more EU Member States are members, provided that (i) such securities are part of at least six different issues and (ii) securities from any one issue do not account for more than 30% of the net assets of such Fund.**

- 2.7 The Company may not invest in shares with voting rights enabling it to exercise significant influence over the management of the issuing body.
- 2.8 The Company may not:
- 2.8.1 acquire more than 10% of the shares with non-voting rights of one and the same issuer;
- 2.8.2 acquire more than 10% of the debt securities of one and the same issuer;
- 2.8.3 acquire more than 25% of the units of one and the same undertaking for collective investment; or
- 2.8.4 acquire more than 10% of the money market instruments of any single issuer.
- The limits stipulated in sub-paragraphs 2.8.2, 2.8.3 and 2.8.4 above may be disregarded at the time of acquisition if, at that time, the gross amount of debt securities or of the money market instruments, or the net amount of securities in issue cannot be calculated.
- 2.9 The limits stipulated in paragraphs 2.7 and 2.8 above do not apply to:
- 2.9.1 Transferable securities and money market instruments issued or guaranteed by an EU Member State or its local authorities;
- 2.9.2 Transferable securities and money market instruments issued or guaranteed by a non-EU Member State;
- 2.9.3 Transferable securities and money market instruments issued by public international institutions of which one or more EU Member States are members;

- 2.9.4 Transferable securities held by a Fund in the capital of a company incorporated in a non-Member State investing its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which such Fund can invest in the securities of issuing bodies of that State. This derogation, however, shall apply only if in its investment policy the company from the non-Member State complies with the limits laid down in Articles 43, 46 and 48(1) and (2) of the 2010 Law. Where the limits set in Articles 43 and 46 of the 2010 Law are exceeded, Article 49 shall apply mutatis mutandis; and
- 2.9.5 Transferable securities held by the Company in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of units at shareholders' request exclusively on its or their behalf.
- 2.10 The Company may always, in the interest of the shareholders, exercise the subscription rights attached to securities, which form part of its assets.

When the maximum percentages stated in paragraphs 2.2 through 2.8 above are exceeded for reasons beyond the control of the Company, or as a result of the exercise of subscription rights, the Company must adopt, as a priority objective, sales transactions to remedy the situation, taking due account of the interests of its shareholders.

- 2.11 A Fund may borrow to the extent of 10% of its total net assets (valued at market value) provided these borrowings are made on a temporary basis. However, the Company may acquire for the account of a Fund foreign currency by way of back-to-back loan.
- 2.12 The Company may not grant credit facilities nor act as guarantor on behalf of third parties, provided that for the purpose of this restriction (i) the acquisition of transferable securities, money market instruments or other financial investments referred to in sub-paragraphs 2.1.6, 2.1.8 and 2.1.9 above, in fully or partly paid form and (ii) the permitted lending of portfolio securities shall be deemed not to constitute the making of a loan.
- 2.13 The Company undertakes not to carry out uncovered sales transactions of transferable securities, money market instruments or other financial instruments referred to in sub-paragraphs 2.1.6, 2.1.8 and 2.1.9 above; provided that this restriction shall not prevent the Company from making deposits or carrying out accounts in connection with financial derivatives instruments, permitted within the limits referred to above.
- 2.14 The Company's assets may not include precious metals or certificates representing them, commodities, commodities contracts, or certificates representing commodities.
- 2.15 The Company may not purchase or sell real estate or any option, right or interest therein, provided that the Company may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- 2.16 The Company will in addition comply with such further restrictions as may be required by the regulatory authorities in any country in which the Shares are marketed.
3. Financial Techniques and Instruments.
- 3.1 The Company must employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio; it must employ a process for accurate and independent assessment of the value of OTC derivative instruments. It must

communicate to the CSSF regularly and in accordance with the detailed rules defined by the latter, the types of derivative instruments, the underlying risks, the quantitative limits and the methods which are chosen in order to estimate the risks associated with transactions in derivative instruments.

3.2 In addition, the Company is authorised to employ techniques and instruments relating to transferable securities and to money market instruments under the conditions and within the limits laid down by the CSSF provided that such techniques and instruments are used for the purpose of efficient portfolio management or for hedging purposes.

3.3 When these operations concern the use of derivative instruments, these conditions and limits shall conform to the provisions laid down in the 2010 Law.

Under no circumstances shall these operations cause the Company to diverge from its investment policies and investment restrictions.

3.4 The underlying assets of index based derivative instruments are not combined for the purposes of the investment limits laid down under sub-paragraphs 2.6.1 to 2.6.4 above.

- ▶ When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above-mentioned restrictions.
- ▶ The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

3.5 Efficient Portfolio Management – Other Techniques and Instruments

In addition to the investments in financial derivatives instruments, the Company may employ other techniques and instruments relating to transferable securities and money market instruments subject to the conditions set out in the CSSF Circular 08/356, as amended from time to time, and ESMA Guidelines ESMA/2012/832EL, such as repurchase/ reverse repurchase transactions, (“repo transactions”) and securities lending.

Appendix F specifies, for each Fund, the maximum and expected proportion of the Net Asset Value that can be subject to securities lending and repo transactions. The expected proportion is not a limit and the actual percentage may vary over time depending on factors including, but not limited to, market conditions and borrowing demand in the market.

Techniques and instruments which relate to transferable securities or money market instruments and which are used for the purpose of efficient portfolio management, including financial derivatives instruments which are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

3.5.1 they are economically appropriate in that they are realised in a cost-effective way;

3.5.2 they are entered into for one or more of the following specific aims:

- (a) reduction of risk;
- (b) reduction of cost;

(c) generation of additional capital or income for the Company with a level of risk which is consistent with the risk profile of the Company and its relevant Funds and the risk diversification rules applicable to them;

3.5.3 their risks are adequately captured by the risk management process of the Company; and

3.5.4 they cannot result in a change to the Fund’s declared investment objective or add supplementary risks in comparison to the general risk policy as described in the Prospectus and relevant KIIDs.

Techniques and instruments (other than financial derivatives instruments) which may be used for efficient portfolio management purposes are set out below and are subject to the conditions set out below.

Moreover those transactions may be carried out for 100% of the assets held by the relevant Fund provided (i) that their volume is kept at an appropriate level or that the Company is entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations; and (ii) that these transactions do not jeopardise the management of the Company’s assets in accordance with the investment policy of the relevant Fund. Risks shall be monitored in accordance with the risk management process of the Company.

The Depositary will ensure that the assets of the Funds held in custody by the Depositary shall not be reused by the Depositary or by any third party to whom the custody function has been delegated for their own account. Reuse comprises any transaction of assets of the Funds held in custody including, but not limited to, transferring, pledging, selling and lending. Assets of the Funds held in custody are only allowed to be reused where:

- (a) the reuse of the assets is executed for the account of the Funds;
- (b) the Depositary is carrying out the instructions of the Management Company;
- (c) the reuse is for the benefit of the Fund and in the interest of the shareholders; and
- (d) the transaction is covered by high quality and liquid collateral received by the Fund under a title transfer arrangement with a market value at least equivalent to the market value of the reused assets plus a premium.

3.6 Securities lending transactions and related potential conflicts of interest

Each Fund may conduct securities lending transactions in aggregate for up to 100% of its Net Asset Value.

The Company may enter into securities lending transactions provided that it complies with the following rules:

3.6.1 the Company may lend securities either directly or through a standardised system organised by a recognised clearing institution or a lending program organised by a financial institution subject to prudential supervision rules which are recognised by the CSSF as equivalent to those laid down in EU law and specialised in this type of transactions;

3.6.2 the borrower must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;

- 3.6.3 net exposures (i.e. the exposures of a Fund less the collateral received by a Fund) to a counterparty arising from securities lending transactions shall be taken into account in the 20% limit provided for in article 43(2) of the 2010 Law;
- 3.6.4 as part of its lending transactions, the Company must receive collateral, the market value of which shall, at all times, be equal to at least the market value of the securities lent plus a premium;
- 3.6.5 such collateral must be received prior to or simultaneously with the transfer of the securities lent. When the securities are lent through an intermediary referred to under 3.6.1 above, the transfer of the securities lent may be effected prior to receipt of the collateral, if the relevant intermediary ensures proper completion of the transaction. The intermediary may, instead of the borrower, provide to the UCITS collateral in lieu of the borrower; and
- 3.6.6 the Company must have the right to terminate any securities lending arrangement which it has entered into at any time or demand the return of any or all of the securities loaned.

Counterparties for securities lending transactions are selected based on a rigorous credit assessment and in-depth review at the individual legal entity level at the outset of the trading relationship. Credit assessments include an evaluation of the legal entity corporate and/or ownership structure, regulatory regime, track record, financial health and any external agency ratings, where applicable.

The Company shall disclose the global valuation of the securities lent in the annual and semi-annual reports. Please refer also to the paragraph 8. in Appendix C for information on additional requirements pursuant to the UCITS Directive in relation to the reuse of assets held in custody by the Depository.

There are potential conflicts of interests in managing a securities lending program, including but not limited to: (i) BlackRock as lending agent may have an incentive to increase or decrease the amount of securities on loan or to lend particular securities in order to generate additional risk-adjusted revenue for BlackRock and its affiliates; and (ii) BlackRock as lending agent may have an incentive to allocate loans to clients that would provide more revenue to BlackRock. As described further below, BlackRock seeks to mitigate this conflict by providing its securities lending clients with equal lending opportunities over time in order to approximate pro-rata allocation.

As part of its securities lending program, BlackRock indemnifies certain clients and/or funds against a shortfall in collateral in the event of borrower default. BlackRock's Risk and Quantitative Analytics Group ("RQA") calculates, on a regular basis, BlackRock's potential dollar exposure to the risk of collateral shortfall upon counterparty default ("shortfall risk") under the securities lending program for both indemnified and non-indemnified clients. On a periodic basis, RQA also determines the maximum amount of potential indemnified shortfall risk arising from securities lending activities ("indemnification exposure limit") and the maximum amount of counterparty-specific credit exposure ("credit limits") BlackRock is willing to assume as well as the program's operational complexity. RQA oversees the risk model that calculates projected shortfall values using loan-level factors such as loan and collateral type and market value as well as specific borrower counterparty credit characteristics. When necessary, RQA may further adjust other securities lending program attributes by restricting eligible collateral or reducing counterparty credit limits. As a result, the management of the indemnification exposure limit may affect the amount of securities lending activity BlackRock may conduct at any given point in time and impact indemnified and non-indemnified clients by reducing the volume

of lending opportunities for certain loans (including by asset type, collateral type and/or revenue profile).

BlackRock uses a predetermined systematic and fair process in order to approximate pro-rata allocation. In order to allocate a loan to a portfolio: (i) BlackRock as a whole must have sufficient lending capacity pursuant to the various program limits (i.e. indemnification exposure limit and counterparty credit limits); (ii) the lending portfolio must hold the asset at the time a loan opportunity arrives; and (iii) the lending portfolio must also have enough inventory, either on its own or when aggregated with other portfolios into one single market delivery, to satisfy the loan request. In doing so, BlackRock seeks to provide equal lending opportunities for all portfolios, independent of whether BlackRock indemnifies the portfolio. Equal opportunities for lending portfolios does not guarantee equal outcomes. Specifically, short and long-term outcomes for individual clients may vary due to asset mix, asset/liability spreads on different securities, and the overall limits imposed by the firm.

### 3.7 Repo transactions

The Company may enter into:

- (i) repurchase transactions which consist of the purchase or sale of securities with provisions reserving the seller the right or the obligation to repurchase from the buyer securities sold at a price and term specified by the two parties in their contractual arrangement; and
- (ii) reverse repurchase agreement transactions, which consist of a forward transaction at the maturity of which the seller (counterparty) has the obligation to repurchase the securities sold and the Company the obligation to return the securities received under the transaction.

Each Fund may conduct repurchase/reverse repurchase transactions in aggregate for up to such percentage of its latest available net asset value as disclosed in the table in Appendix F. All incremental incomes generated from such transactions will be accrued to the Fund.

3.7.1 The Company can act either as buyer or seller in repo transactions. Its involvement in such transactions is however subject to the following rules:

- (a) the fulfilment of the conditions 3.6.2 and 3.6.3;
- (b) during the life of a repo transaction with the Company acting as purchaser, the Company shall not sell the securities which are the object of the contract, before the counterparty has exercised its option or until the deadline for the repurchase has expired, unless the Company has other means of coverage;
- (c) the securities acquired by the Company under a repo transaction must conform to the Fund's investment policy and investment restrictions and must be limited to:
  - (i) short-term bank certificates or money market instruments as defined in Directive 2007/16/EC of 19 March 2007;
  - (ii) bonds issued by non-governmental issuers offering an adequate liquidity; and
  - (iii) assets referred to under 3.8.2(b), 3.8.2(c) and 3.8.2(d) below.

The Company shall disclose the total amount of the open repo transactions on the date of reference of its annual and interim reports.

3.7.2 Where the Company enters into repurchase agreements, it must be able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

3.7.3 Where the Company enters into reverse repurchase agreements, it must be able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is callable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the net asset value. Fixed-term reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

3.8 Management of collateral for OTC financial derivative transactions and efficient portfolio management techniques.

3.8.1 Collateral obtained in respect of OTC financial derivative transactions and efficient portfolio management techniques ("**Collateral**"), such as a repo transaction or securities lending arrangement, must comply with the following criteria:

- (a) liquidity: Collateral (other than cash) should be highly liquid and traded on a regulated market or multi-lateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to its pre-sale valuation. Collateral received should also comply with the provisions of Article 48 of the 2010 Law;
- (b) valuation: Collateral should be capable of being valued marked to market on a daily basis and assets that exhibit high price volatility should not be accepted as Collateral unless suitably conservative haircuts are in place;
- (c) issuer credit quality: Collateral should be of high quality;
- (d) correlation: Collateral should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (e) diversification: Collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of a Fund's Net Asset Value. When a Fund is exposed to different counterparties, the different baskets of Collateral should be aggregated to calculate the 20% limit of exposure to a single issuer; and
- (f) immediately available: Collateral must be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Counterparties for repurchase / reverse repurchase transactions are selected based on a rigorous credit assessment and in-depth review at the individual legal entity level at the outset of the trading relationship. Credit assessments include an evaluation of the legal entity corporate and/or ownership structure, regulatory regime, track record, financial health and any external agency ratings, where applicable.

3.8.2 Subject to the above criteria, Collateral must comply with the following criteria:

- (a) liquid assets such as cash, short term bank deposits, money market instruments as defined in Directive 2007/16/EC of 19 March 2007, letters of credit and guarantees at first demand issued by a first class credit institution not affiliated to the counterparty;
- (b) bonds issued or guaranteed by a Member State of the OECD or by their local authorities or supranational institutions and bodies of a community, regional or world-wide scope;
- (c) shares or units issued by money market-type UCIs calculating a daily net asset value and having a rating of AAA or its equivalent;
- (d) shares or units issued by UCITS investing mainly in bonds/shares mentioned under 3.8.2(e) and 3.8.2(f) hereunder;
- (e) bonds issued or guaranteed by first class issuers offering an adequate liquidity; or
- (f) shares admitted to or dealt in on a regulated market of a Member State of the European Union or on a stock exchange of a Member State of the OECD, provided that these shares are included in a main index.

3.8.3 Where there is title transfer, the Collateral received should be held by the Depositary, or its agent. This is not applicable in the event that there is no title transfer in which case the Collateral will be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the Collateral.

3.8.4 When the Collateral given in the form of cash exposes the Company to a credit risk vis-à-vis the trustee of this Collateral, such exposure shall be subject to the 20% limitation as laid down in Section 2.6 above.

3.8.5 During the duration of the agreement, non-cash Collateral cannot be sold, re-invested or pledged.

3.8.6 Cash received as Collateral may only be:

- (a) placed on deposit with entities prescribed in Article 50(f) of Directive 2009/65/EC;
- (b) invested in high quality government bonds;
- (c) used for the purpose of reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Company can recall at any time the full amount of the cash on an accrued basis; and
- (d) invested in short term money market funds as defined in the ESMA Guidelines on a common definition of European Money Market Funds.

Re-invested cash Collateral should be diversified in accordance with the diversification requirements applicable to non-cash Collateral.

3.8.7 The Company has implemented a haircut policy in respect of each class of assets received as Collateral. A haircut is a discount applied to the value of a Collateral asset to account for the fact that its valuation, or liquidity profile, may deteriorate over time.

## Appendix A

The haircut policy takes account of the characteristics of the relevant asset class, including the credit standing of the issuer of the Collateral, the price volatility of the Collateral and the results of any stress tests which may be performed in accordance with the collateral management policy. Subject to the framework of agreements in place with the relevant counterparty, which may or may not include minimum transfer amounts, it is the intention of the Company that any Collateral received shall have a value, adjusted in light of the haircut policy, which equals or exceeds the relevant counterparty exposure where appropriate.

The applicable haircuts for each of the relevant types of assets held as Collateral are specified below as a valuation percentage. Larger haircuts than those noted below may be applied at the sole discretion of the Company; larger haircuts may apply to certain counterparties, and/or to certain transactions (e.g. wrong way risk).

The Company reserves the right to vary this policy at any time in which case this Prospectus will be updated accordingly.

### *OTC Derivative Transactions*

Eligible Collateral	Minimum Haircut Applicable
Cash	0%
Government Bonds having a remaining term to maturity of one year or less	0.5%
Government Bonds having a remaining term to maturity of greater than one year but less than or equal to five years	2%
Government Bonds having a remaining term to maturity of greater than five years	4%
Non-Government Bonds having a remaining term to maturity of less than or equal to five years	10%
Non-Government Bonds having a remaining term to maturity of greater than 5 years	12%

### *Securities Lending Transactions*

Eligible Collateral	Minimum Haircut Applicable
Cash	2%
Money Market Funds	2%
Government Bonds	2.5%
Supranational / Agency Bonds	2.5%
Equities (including ADRs and ETFs)	5%

### *Reverse Repurchase Transactions*

Eligible Collateral	Minimum Haircut Applicable
Government bonds	0%
Corporate Bonds	6%

to the Depository. These risks may expose investors to an increased risk of loss.

- (b) The combined counterparty risk on any transaction involving an OTC derivative instrument or efficient portfolio management technique may not exceed 10% of the assets of a Fund when the counterparty is a credit institution domiciled in the EU or in a country where the CSSF considers that supervisory regulations are equivalent to those prevailing on the EU. This limit is set at 5% in any other case.
- (c) The Company's delegates will continuously assess the credit or counterparty risk as well as the potential risk, which is for trading activities, the risk resulting from adverse movements in the level of volatility of market prices and will assess the hedging effectiveness on an ongoing basis. They will define specific internal limits applicable to these kinds of operations and monitor the counterparties accepted for these transactions.

#### 3.8.8 Risk and potential Conflicts of Interest associated with OTC derivatives and efficient portfolio management.

- (a) There are certain risks involved in efficient portfolio management activities and the management of Collateral in relation to such activities. Please refer to the Sections "Conflicts of Interest and Relationships within the BlackRock Group and with the PNC Group" and "Risk Considerations" and, in particular but without limitation, the risk factors relating to derivatives, counterparty risk and counterparty risk

## Appendix B – Summary of Certain Provisions of the Articles and of Company Practice

The below is a summary of the Articles. However, such summary does not purport to be complete. It is subject to and qualified in its entirety by reference to the contents of such Articles, the application forms and other documents and, accordingly, they should be reviewed for complete information concerning the rights, privileges and obligations of investors in the Company. In the event that the description in or terms of this Prospectus are inconsistent with or contrary to the description in or terms of the Articles or the application forms, the Articles shall prevail and investors will be taken as having full knowledge of the Articles in applying for Shares.

### Articles of Association

1. Terms used in this summary that are defined in the Articles have the same meaning below.
- 1.1 **Corporate Existence**  
The Company is a company existing in the form of a société anonyme qualifying as a société d'investissement à capital variable (SICAV) under the name of BlackRock Global Index Funds with the status of a Part I Undertaking for Collective Investment in Transferable Securities (UCITS).
- 1.2 **Sole Object**  
The sole object of the Company is to place the funds available to it in one or more portfolios of transferable securities or other assets referred to in Article 41(1) of the 2010 Law, referred to as "Funds", with the purpose of spreading investment risks and affording to its shareholders the results of the management of the Company's Funds.
- 1.3 **Capital**  
The capital is represented by fully paid Shares of no par value and will at any time be equal to the aggregate value of the net assets of the Funds of the Company. Any variation of the Company's capital has immediate effect.
- 1.4 **Fractions**  
Fractions of Shares may be issued only as registered shares.
- 1.5 **Voting**  
In addition to the right to one vote for each whole Share of which he is the holder at general meetings, a holder of Shares of any particular Class will be entitled at any separate meeting of the holders of Shares of that Class to one vote for each whole Share of that Class of which he is the holder.
- 1.6 **Annual General Meeting**  
The annual general meeting of shareholders shall be held, in accordance with Luxembourg law, at the registered office of the Company or at such other place in the Grand Duchy of Luxembourg as may be specified in the notice of meeting, on 20 September at 11.00 a.m. If such day is not a bank business day in Luxembourg, the annual general meeting of shareholders shall be held on the next following bank business day in Luxembourg.
- 1.7 **Allotment of Shares**  
The Directors are authorised without limitation to issue fully paid Shares at any time at the current price per Share without reserving preferential subscription rights to existing shareholders.
- 1.8 **Directors**  
The Articles provide for the Company to be managed by a board of Directors composed of at least three persons. Directors are elected by the shareholders at each annual general meeting. The Directors are vested with all powers to perform all acts of administration and disposition in the Company's interest. In

particular the Directors have power to appoint any person to act as a functionary to the Company.

No contract or other transaction between the Company and any other company or firm shall be affected or invalidated by the fact that any one or more of the Directors or officers of the Company is interested in, or is a director, associate, officer or employee of, that other company or firm.

### 1.9 Indemnity

The Company may indemnify any Director or officer against expenses reasonably incurred by him in connection with any proceedings to which he may be made a party by reason of such position in the Company or in any other company of which the Company is a shareholder or creditor and from which he is not entitled to be indemnified, except where due to gross negligence or wilful misconduct on his part.

### 1.10 Winding up and Liquidation

The Company may be wound up at any time by a resolution adopted by a general meeting of shareholders in accordance with the provisions of the Articles.

In the event of a dissolution of the Company liquidation shall be carried out by one or several liquidators (who may be physical persons or legal entities) named by the meeting of shareholders effecting such dissolution and which shall determine their powers and their compensation. The net proceeds of liquidation corresponding to each class of shares shall be distributed by the liquidators to the holders of shares of each class in proportion of their holding of shares in such class.

Liquidation proceeds not claimed by shareholders at close of liquidation of a Fund will be deposited at the Caisse de Consignation in Luxembourg and shall be forfeited after thirty years.

## Company Practice

### Restrictions on Holding of Shares

2. Shares will be divided into Classes each linked to a Fund. More than one Share Class may be linked to a Fund and Classes may have different distribution, fee and currency features (See the Section entitled "Classes and Form of Shares" for further details). The Share Classes do not have any preferential or pre-emption rights.  
  
Although the Shares are required to be negotiable and transferable for the purposes of the Luxembourg Stock Exchange, any eligibility requirements in respect of a specific Share Class shall nonetheless continue to apply and the Directors may enforce their powers of compulsory redemption should any such eligibility requirements in respect of a specific Share Class be breached by a shareholder, as further described under paragraph 6. below.
3. The Directors may impose or relax restrictions (including restrictions on transfer and/or the requirement that Shares be issued only in registered form) on any Shares or Share Classes (but not necessarily on all Shares within the same Class) as they may think necessary to ensure that Shares are neither acquired nor held by or on behalf of any person in circumstances giving rise to a breach of the laws or requirements of any country or governmental or regulatory authority on the part of that person or the Company, or which might have adverse taxation or other pecuniary consequences for the Company, including a requirement to register under any securities or investment or similar laws or requirements of any country or authority. The Directors may in this connection require a shareholder to provide such information as they may consider necessary to establish whether he is the beneficial owner of the Shares that he holds. In addition to the foregoing, the Directors may determine to restrict

the issue of shares when it is in the interests of the Fund and/or its Shareholders to do so, including when the Company or any Fund reaches a size that could impact the ability to find suitable investments for the Company or Fund. The Directors may remove such restriction at their discretion.

If the Company becomes aware that any Shares are owned directly or beneficially by any person in breach of any law or requirement of a country or governmental or regulatory authority, or otherwise in breach of the terms of this Prospectus, or otherwise in the circumstances referred to in this paragraph 3., the Directors may require the redemption of such Shares, decline to issue any Shares and register any transfer of any Shares or decline to accept the vote of any person who is precluded from holding Shares at any meeting of the shareholders of the Company.

4. The Directors have resolved that no US Persons will be permitted to own Shares. The Directors have resolved that "US Person" means any citizen or resident of the United States of America, a partnership organized or existing under the laws of any state, territory or possession of the United States of America (other than a partnership that is not treated as a United States person under any applicable Treasury regulations), or a corporation organized under the laws of the United States of America or of any state, territory or possession thereof, any estate or trust, other than an estate the income of which from sources without the United States of America (which is not effectively connected with the conduct of a trade or business within the United States of America) is not included in gross income for purposes of computing United States federal income tax payable by it, any trust if a court within the United States is able to exercise primary supervision over its administration and one or more United States persons have the authority to control all substantial decisions of the trust, or certain trusts in existence on 20th August, 1996 and treated as United States persons prior to such date, which elect pursuant to regulations to continue to be treated as United States persons.

If a shareholder currently resident outside the US becomes resident in the US (and consequently comes within the definition of a US Person), that shareholder will be required to redeem its Shares. All US residents and citizens should note the requirements of FATCA, please see the Section "Taxation" above.

**Funds and Share Classes**

5. The Company operates separate investment "Funds" and within each Fund separate Share Classes are linked to that Fund. Pursuant to Article 181 of the 2010 Law, each Fund is only liable for the liabilities attributable to it.
6. Shares may be issued with or have attached thereto with certain rights, or such restrictions whether in regard to dividend, return of capital, conversion, transfer, the price payable on allotment or otherwise as the Directors may from time to time determine and such rights or restrictions need not be attached to all Shares of the same Class.

If the Company becomes aware that any Shares are owned directly or beneficially by any person in breach of any of the eligibility requirements attached to an investment in a particular Share Class, the Directors may require the redemption of such Shares, decline to issue any Shares and register any transfer of any Shares or decline to accept the vote of any person who is precluded from holding Shares at any meeting of the shareholders of the Company.

7. The Directors are permitted to create more than one Share Class linked to a single Fund. This allows, for example, the creation of Distributing and Non-Distributing Shares, Share Classes with different dealing currencies or Share Classes with different features as regards participation in capital and/or income linked

to the same Fund; and also permits different charging structures. The Directors are also permitted, at any time, to close a particular Share Class, or, subject to at least 30 days' prior notice to the shareholders of the relevant Class, to decide to merge such Class with another Share Class of the same Fund. The Articles provide that certain variations of the rights attached to a Share Class may only be made with the sanction of a Class meeting of holders of Shares of that Class.

8. The Directors may require redemption of all the Shares linked to a particular Fund if the Net Asset Value of the relevant Fund falls below USD50 million (or the equivalent in any relevant Dealing Currency) for a period of thirty consecutive days. The Articles also permit the Directors to notify shareholders of the closure of any particular Fund where they deem it in the interests of the shareholders or appropriate because of changes in the economic or political situation affecting the Fund but in such circumstances the Directors intend as a matter of policy to offer holders of any Share Classes a free transfer into the same Share Class of other Funds. As an alternative, subject to such prior notice to holders of Shares of all Classes of the relevant Fund, as may be required by law or regulation from time to time, the Directors may arrange for a Fund to be merged with another Fund of the Company or with another UCITS. Any such merger will be binding on the holders of the Share Classes of that Fund.

A Fund may be terminated or merged in circumstances other than those mentioned above with the consent of a majority of the Shares present or represented at a meeting of all shareholders of the Share Classes of that Fund (at which no quorum requirement will apply). To the extent applicable, where a Fund is terminated the redemption price payable on termination will be calculated on a basis reflecting the realisation and liquidation costs on terminating the Fund and no redemption charge may be made in respect of any such redemption. Where a Fund is merged, the redemption price payable on a merger will only reflect transaction costs.

The Directors have power to suspend dealings in the Shares linked to any Fund where it is to be terminated or merged in accordance with the above provisions. Such suspension may take effect at any time after the notice has been given by the Directors as mentioned above or, where the termination or merger requires the approval of a meeting of holders, after the passing of the relevant resolution. Where dealings in the Shares of the Fund are not suspended, the prices of Shares may be adjusted to reflect the anticipated realisation and liquidation costs or transaction costs mentioned above.

**Valuation Arrangements**

9. Under the Articles, for the purpose of determining the issue and redemption price per Share, the net asset value of Shares shall be determined as to the Shares of each Share Class by the Company from time to time, but in no instance less than twice monthly, as the Directors may direct.
10. The Directors' policy is normally to deal with requests received before 12 noon Luxembourg time on a Dealing Day on that day; other requests are normally dealt with on the next Dealing Day. Forward dated requests will not be accepted and will be rejected or processed on the next Dealing Day at the discretion of the Directors.

**Net Asset Value and Price Determination**

11. All prices for transactions in Shares on a Dealing Day are based on the Net Asset Value per Share of the Share Classes concerned, as shown by a valuation made at a time or times determined by the Directors. The Directors currently operate "forward pricing" for all Funds and Share Classes, i.e., prices are calculated on the Dealing Day concerned after the closing time for acceptance of orders (see Section "Dealing in Fund Shares, Daily Dealing").

- Prices in respect of a Dealing Day are normally published on the next Business Day. Neither the Company nor the Depositary can accept any responsibility for any error in publication or for non-publication of prices or for any inaccuracy of prices so published or quoted. Notwithstanding any price quoted by the Company, by the Depositary or by any distributor, all transactions are effected strictly on the basis of the prices calculated as described above. If for any reason such prices are required to be recalculated or amended, the terms of any transaction effected on the basis of them will be subject to correction and, where appropriate, the investor may be required to make good any underpayment or reimburse any overpayment as appropriate. Periodic valuations of holdings in any Fund or Share Class may be supplied by arrangement with the local Investor Servicing teams.
12. The Net Asset Value of each Fund, calculated in its Base Currency, is determined by aggregating the value of securities and other assets of the Company allocated to the relevant Fund and deducting the liabilities of the Company allocated to that Fund. The Net Asset Value per Share of the Share Classes of a particular Fund will reflect any adjustment to the Net Asset Value of the relevant Fund described in paragraph 17.3 below and will differ as a result of the allocation of different liabilities to those Classes (see Section "Fees, Charges and Expenses") and as a result of dividends paid.
  13. The value of all securities and other assets forming any particular Fund's portfolio is determined by the last known prices upon close of the exchange on which those securities or assets are traded or admitted for trading. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. If net transactions in Shares of the Fund on any Dealing Day exceed the threshold referred to in paragraph 17.3 below, then additional procedures apply. The value of any securities or assets traded on any other regulated market is determined in the same way. Where such securities or other assets are quoted or dealt in on or by more than one stock exchange or regulated market the Directors may in their discretion select one of such stock exchanges or regulated markets for such purposes. Where possible, swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the quotations of the actual market maker. Where third party prices are not available, swap prices are based upon daily quotations available from the market maker.
  14. The value of any investment which is a unit of or participation in an open-ended collective investment scheme/mutual fund shall be calculated at the latest available net asset value of such unit/participation or the estimated net asset value of such unit/participation (whichever is the more recent) in accordance with the requirements of the scheme/fund of which the relevant investment is a unit/participation.
  15. If a security is not traded on or admitted to any official stock exchange or any regulated market, or in the case of securities so traded or admitted the last known price is not considered to reflect their true value, the Directors will value the securities concerned with prudence and in good faith on the basis of their expected disposal or acquisition price. Cash, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable.
  16. If in any case a particular value is not ascertainable by the methods outlined above, or if the Directors consider that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the Directors in their absolute discretion decide. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the Net Asset Value of certain Funds. In such cases the Directors may set specific thresholds that, where exceeded, result in adjustment to the value of these securities to their fair value by applying a specific index adjustment. Additionally, where governments chose to impose fiscal or transaction charges on foreign investment the Directors may adjust the Net Asset Value to reflect such charges.
  - 17.1 Under current procedures adopted by the Directors the price for all Share Classes of any Fund is the Net Asset Value per relevant Class of that Fund calculated to the nearest currency unit of the relevant Dealing Currency.
  - 17.2 For those Funds with more than one Dealing Currency, the additional Dealing Currency prices are calculated by converting the price at the relevant spot exchange rate at the time of valuation.
  - 17.3 The Directors may adjust the Net Asset Value per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund deviates from the carrying value of these assets in the Fund's valuation due to dealing charges, taxes and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the Net Asset Value per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the Net Asset Value of a Fund if on any Dealing Day the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds a threshold set by the Directors from time to time for that Fund (relating to the cost of market dealing for that Fund). In such circumstances the Net Asset Value of the relevant Fund may be adjusted by an amount (not exceeding 1.50%, or 3% in the case of fixed income Funds, of that Net Asset Value) which reflects the dealing costs that may be incurred by the Fund and the estimated bid/offer spread of the assets in which the Fund invests. In addition, the Directors may agree to include anticipated fiscal charges in the amount of the adjustment. These fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that Net Asset Value. The adjustment will be an addition when the net movement results in an increase of all Shares of the Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Where a Fund invests substantially in government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment. Shareholders should note that due to adjustments being made to the Net Asset Value per Share, the volatility of a Fund's Net Asset Value per Share may not fully reflect the true performance of the Fund's underlying assets.
- Redemption Charges**
18. The Directors are entitled to levy a discretionary redemption charge on shareholders of all Share Classes where they believe that excessive trading is being practised.
- Conversion**
19. The Articles allow the Directors on issuing new Share Classes to impose such rights of conversion as they determine, as described in paragraph 6. above. The basis of all conversions is related to the respective Net Asset Values per Share of the relevant Class of the two Funds concerned.
  20. The Directors have determined that the number of Shares of the Class into which a shareholder wishes to convert his existing Shares will be calculated by dividing (a) the value of the number of Shares to be converted, calculated by reference to the Net Asset Value per Share by (b) the Net Asset Value per Share of the

new Class. This calculation will be adjusted where appropriate by the inclusion of a conversion charge (see paragraph 21. below).

The Net Asset Value(s) per Share used in this calculation may reflect any adjustment(s) to the Net Asset Value(s) of the relevant Fund(s) described in paragraph 17.3 above.

21. Conversions are permitted between different Share Classes of the same Fund or of different Funds, subject to the limitations set out under the Section "Switching Between Funds and Share Classes" and provided investors and/or the holding (as appropriate) meet the specific eligibility criteria for each Share Class set out above (see "Classes and Form of Shares").

Selected distributors may impose a charge on each conversion of those Shares acquired through it, which will be deducted at the time of conversion and paid to the relevant distributor. While other conversions between the same Share Class of two Funds are normally free of charge, the Management Company may, at its discretion (and without prior notice), make an additional conversion charge which would increase the amount paid up to a maximum of 2% if excessively frequent conversions are made. Any such charges will be deducted at the time of conversion and paid to the relevant Fund.

The Directors reserve the right to waive or vary these requirements and also to amend their policy if they consider it appropriate to do so, either generally or in particular circumstances.

### Settlement on Redemptions

22. Payment of an amount to a single shareholder in excess of USD500,000 may be deferred for up to seven Business Days beyond the normal settlement date. The redemption price may be payable in specie as explained in paragraph 24. below. Failure to meet money laundering prevention or international financial sanctions requirements may result in the withholding of redemption proceeds. The Company reserves the right to extend the period of payment of redemption proceeds to such period, not exceeding eight Business Days, as shall be necessary to repatriate proceeds of the sale of investments in the event of impediments due to exchange control requirements or similar constraints in the markets in which a substantial part of the assets of the Company are invested or in exceptional circumstances where the liquidity of the Company is not sufficient to meet the redemption requests.

### In Specie Applications and Redemptions

23. The Management Company may accept subscriptions in specie, or partly in cash and in specie, subject always to the minimum initial subscription amounts and the additional subscription amounts and provided further that the value of such subscription in specie (after deduction of any relevant charges and expenses) equals the subscription price of the Shares. The securities contributed in specie must comply with the investment policy and restrictions of the relevant Fund. Such securities will be valued on the relevant Dealing Day and, in accordance with Luxembourg law, may be subject to a special report of the Auditor. The Fund will not bear the costs of this report.
24. The Management Company may, subject to the prior consent of a shareholder and to the minimum dealing and holding amounts, effect a payment of redemption proceeds in specie by allocating to the shareholder investments from the portfolio of the relevant Fund equal in value (calculated in the manner referred to in paragraphs 13. to 15. above) to the price of the relevant Shares to be redeemed. The nature and type of asset to be transferred in such case will be determined on an equitable basis and without prejudicing the interests of the other holders of Shares of the same Class, and will be valued on the relevant Dealing Day. In accordance with Luxembourg law, such valuation may be subject to a special report of the Auditor. The Fund will not bear the costs

of this report. In specie applications and redemptions may attract transaction taxes depending on the assets in question. In the case of an in specie redemption these taxes will be at the charge of the investor. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of redeeming their shareholding in this way, under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and relief from, taxation can change.

In specie applications and redemptions may not always be possible, practicable or cost efficient and may have an adverse impact on existing shareholders. The Management Company has sole discretion to refuse requests for in specie applications and redemptions.

### Dealings in Shares by the Principal Distributor

25. The Principal Distributor, may as principal acquire and hold Shares and may at its sole discretion satisfy, in whole or in part, an application or request for the issue, redemption or conversion of such Shares by selling Shares to and/or buying them from the applicant, as appropriate, provided that the applicant consents to such transaction. Shareholders will be deemed to have consented to deal with the Principal Distributor unless they have expressly informed the Transfer Agent or the local Investor Servicing teams to the contrary. Any such transaction will be effected on the same terms as to price and settlement as would have applied in the case of a corresponding issue, redemption or conversion of Shares (as relevant) by the Company. The Principal Distributor is entitled to retain any benefit arising from these transactions.

### Default in Settlement

26. Where an applicant for Shares fails to pay settlement monies on subscription or to provide a completed application form for an initial application by the due date, the Directors may cancel the allotment or, if applicable, redeem the Shares. Redemption or conversion instructions may be refused or treated as though they have been withdrawn if payment for the Shares has not been made or a completed initial application form has not been received by the Company. In addition, no dealings will be effected following a conversion instruction and no proceeds will be paid on a redemption until all documents required in relation to the transaction have been provided to the Company. **An applicant may be required to indemnify the Company or, as described below, the Principal Distributor against any losses, costs or expenses incurred directly or indirectly as a result of the applicant's failure to pay for Shares applied for or to lodge the required documents by the due date.**

In computing any losses covered under this paragraph 26., account shall be taken, where appropriate, of any movement in the price of the Shares concerned between the transaction date and cancellation of the transaction or redemption of the Shares, and of the costs incurred by the Company or, if applicable, the Principal Distributor in taking proceedings against the applicant.

The Principal Distributor has agreed to exercise its discretion to take steps to avoid the Company suffering losses as a result of late settlement by any applicant. In cases where payment for Shares is not made on a timely basis, the Principal Distributor may assume ownership of the Shares and it shall also have the right to give instructions to the Company to make any consequent alterations in its register of shareholders, delay the completion of the relevant transaction, redeem the Shares in question, claim indemnification from the applicant and/or take proceedings to enforce any applicable indemnity, all to the same extent that the Company itself may do so.

The Company has instructed the Depositary that any interest benefit that may arise as a result of the early settlement of Share subscriptions and late clearance of redemption proceeds may be

set off against any interest obligation that the Principal Distributor may incur as a result of its arrangements to protect the Company from losses from the late settlement of Share subscriptions. The Principal Distributor will benefit from interest earned on any balances held in client money accounts. No interest is paid to shareholders by the Principal Distributor in respect of amounts relating to individual transactions.

#### Compulsory Redemption

27. If at any time the Net Asset Value of the Company is less than USD100 million (or equivalent), all Shares not previously redeemed may be redeemed by notice to all shareholders. There is a similar power to redeem Shares of any Class if the Net Asset Value of the Fund to which that Class is linked falls below USD50 million (or equivalent), or in the circumstances described in paragraphs 3., 4. and 8. above.

#### Limits on Redemption and Conversion

28. The Company will not be bound to redeem or convert on any one Dealing Day more than 10% of the value of Shares of all Classes of a Fund then in issue or deemed to be in issue, as described in paragraph 31. below.

Where the aggregate value of an instruction for the redemption of Shares or an instruction to convert by a single investor (or associate investors) exceeds 10% of the Net Asset Value of the Fund concerned, the investor(s) must submit an instruction for the redemption or conversion (as applicable) to the Transfer Agent or the local Investor Servicing team by the Cut-Off Point at least one Business Day in advance of the required Dealing Day.

#### Suspension and Deferrals

29. Valuations (and consequently issues, redemptions and conversions) of a Fund may be suspended in certain circumstances including:
- ▶ the closure (otherwise than for ordinary holidays) of or suspension or restriction of trading on any stock exchange or market on which are quoted a substantial proportion of the investments held in that Fund;
  - ▶ the existence of any state of affairs which constitutes an emergency as a result of which disposals or valuation of assets owned by the Company attributable to such Fund would be impracticable;
  - ▶ any breakdown in the means of communication normally employed in determining the price or value of any of the investments of such Fund or the current price or values on any stock exchange or other market;
  - ▶ any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of such Shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares cannot in the opinion of the directors be effected at normal rates of exchange;
  - ▶ where notice has been given or a resolution passed for the closure or merger of a Fund as explained in paragraph 8.; and
  - ▶ in respect of a suspension of the issuing of Shares only, any period when notice of winding up of the Company as a whole has been given.

30. Each period of suspension shall be published, if appropriate, by the Company. Notice will also be given to any shareholder lodging a request for redemption or conversion of Shares.

31. The Company will also not be bound to accept instructions to subscribe for, and will be entitled to defer instructions to redeem or convert any Shares of a Fund on any one Dealing Day if there are redemption or outgoing conversion orders that day for all Share Classes of that Fund with an aggregate value exceeding a particular level (currently fixed at 10%) of the approximate value of that Fund. Where the aggregate value of any application(s) for Shares by a single investor (or associate investors) exceeds 10% of the Net Asset Value of the Fund concerned, the investor(s) must submit a subscription form (for a subsequent investment into a Fund or an initial application for Shares) to the Transfer Agent or the local Investor Servicing team by the Cut-Off Point at least one Business Day in advance of the required Dealing Day. In addition, the Company may defer redemptions and conversions in exceptional circumstances that may, in the opinion of the Directors, adversely affect the interests of holders of any Class or Share Classes of that Fund. In either case, the Directors may declare that redemptions and conversions will be deferred until the Company has executed, as soon as possible, the necessary realisation of assets out of the Fund concerned or until the exceptional circumstances cease to apply. Redemptions and conversions so deferred will be done on a pro rata basis and will be dealt with in priority to later requests.

32. During a period of suspension or deferral a shareholder may withdraw his request, in respect of any transaction which is deferred or suspended, by notice in writing to the Company. Such notice will only be effective if received before the transaction is effected.

Shareholders may not redeem a holding of the Company's Shares unless and until cleared funds have been received by the Company in respect of that holding.

#### Transfers

33. The transfer of registered shares may normally be effected by delivery to the Transfer Agent of an instrument of transfer in appropriate form. If a transfer or transmission of Shares results in a holding on the part of the transferor or the transferee having a value of less than the prescribed minimum (as set out under the section entitled "Minimum Subscription") the Directors may require the holding to be redeemed.

#### Probate

34. Upon the death of a shareholder, the Directors reserve the right to require the provision of appropriate legal documentation to evidence the rights of the shareholder's legal successor. Upon the death of a shareholder whose investment is held jointly with another shareholder, where permitted by applicable law, ownership of the investment will be transferred to the name of the surviving shareholder.

#### Dividends

35. The Articles impose no restriction on dividends other than the requirement to maintain the statutory minimum level of capital (currently the equivalent of €1,250,000). The Directors have the power to pay interim dividends in respect of any Fund. The current dividend policy of the Directors is explained in the Section "Dividends".

If a dividend has been declared but not paid, and no coupon has been tendered for such dividend within a period of five years, the Company is entitled under Luxembourg law to declare the dividend forfeited for the benefit of the Fund concerned. The Directors have, however, resolved as a matter of policy not to exercise this right for at least twelve years after the relevant dividend is declared. This policy will not be altered without the sanction of the shareholders in general meeting.

## **Appendix B**

### **Changes of Policy or Practice**

36. Except as otherwise provided in the Articles, and subject to any legal or regulatory requirements, the Directors reserve the right to amend any practice or policy stated in this Prospectus. The Management Company may, in the interests of shareholders and subject to the discretion of the Directors, vary or waive the operational procedures of the Company.

### **Intermediary Arrangements**

37. Where Shares are issued by the Company to financial institutions (or their nominees) which act as intermediaries, the benefits and obligations described in this Prospectus may be applied by the Company to each of the intermediary's clients as if such client were a direct shareholder.

## Appendix C - Additional Information

### The Company

1. The Company is registered under Section B, Number 171278 at the Register of Commerce and Companies of Luxembourg where its Articles of Association are available for inspection and where copies thereof may be obtained upon request (and see also paragraph 30. below).
2. The Company's constitution is defined in the Articles.

### Directors' Remuneration and Other Benefits

3. The Articles contain no express provision governing the remuneration (including pension or other benefits) of the Directors. The Directors (who are not employees of the BlackRock Group) receive fees and out-of-pocket expenses which are paid out of the Administration Fee. For Directors who are not employees of the BlackRock Group, the annual fees received by them are disclosed in the annual report of the Company.

### Auditor

4. The Company's auditor is Deloitte Audit Sàrl.

### Administrative Organisation

#### 5. The Investment Advisers

The Management Company is entitled to delegate its investment management functions to any of its subsidiaries or associates and any other person. The Management Company has delegated some functions to the Investment Advisers as described in the Section "Investment Management of the Funds".

#### 6. The Principal Distributor

BlackRock Investment Management (UK) Limited is the Principal Distributor and was incorporated with limited liability in England on 16th May 1986 for an unlimited period. The directors of the Principal Distributor are: D J Blumer, N J Charrington, E J de Freitas, J E Fishwick, P M Olson, C R Thomson, R M Webb, and M A Young. The Management Company has entered into an agreement with the Principal Distributor for the provision of distribution, promotion and marketing services.

The registered office of the Principal Distributor is at 12 Throgmorton Avenue, London EC2N 2DL, UK. The Principal Distributor is regulated by the Financial Conduct Authority.

The Principal Distributor has appointed BlackRock (Channel Islands) Limited, a company incorporated with limited liability in Jersey on 10th August 1972 for an unlimited period ("BCI") to carry out certain administration services. The directors of BCI are: G D Bamping, E A Bellew, F P Le Feuvre, D Hellen, and D McSparran. The registered office of BCI is at One Waverley Place, 4th Floor, Union Street, St. Helier, Jersey JE1 0BR, Channel Islands.

#### 7. Investor Servicing

The Management Company has entered into an Agreement with various BlackRock Group companies for the provision of dealing facilities and related investor support functions.

#### 8. The Depositary

The Company has entered into a Custodian Agreement with the Depositary whereby the Depositary has agreed to act as custodian of the assets of the Company and to assume the functions and responsibilities of a custodian under the 2010 Law and other applicable law. The Depositary will also act as a depositary of the Company for the purposes of the UCITS Directive.

The Depositary and Fund Accountant (see paragraph 11. below) is State Street Bank Luxembourg S.C.A.. Its office is at 49, avenue

J.F. Kennedy, L-1855 Luxembourg. State Street Bank Luxembourg S.C.A. was incorporated with limited liability in 1990 and has an issued and fully paid up share capital of EUR 65 million. Its registered office is 49, avenue J.F. Kennedy, L-1855 Luxembourg and its ultimate holding company is State Street Corporation which is incorporated in Boston, Massachusetts, United States of America. The Depositary's and the Fund Accountant's principal business activity is the provision of custodial and investment administration services.

### The Duties of the Depositary

The Depositary shall act as the depositary of the Funds for the purposes of the UCITS Directive and, in doing so, will comply with the provisions of the UCITS Directive. In this capacity, the Depositary's duties shall include, amongst others, the following:

- (i) ensuring that each Fund's cash flows are properly monitored, and that all payments made by or on behalf of unitholders upon the subscription of units of the Funds have been received;
- (ii) safekeeping the assets of the Funds, which includes (a) holding in custody all financial instruments that may be registered in a financial instruments account opened in the Depositary's books and all financial instruments that can be physically delivered to the Depositary; and (b) for other assets, verifying the ownership of such assets and the maintaining a record accordingly (the "Safekeeping Function");
- (iii) ensuring that the sale, issue, re-purchase, redemption and cancellation of units of each Fund are carried out in accordance with the applicable national law and the Articles;
- (iv) ensuring that the value of the units of each Fund is calculated in accordance with the applicable national laws and the Articles;
- (v) carrying out the instructions of the Management Company, unless they conflict with the applicable national law or the Articles;
- (vi) ensuring that in transactions involving each Fund's assets any consideration is remitted to the relevant Fund within the usual time limits; and
- (vii) ensuring that the Funds' income is applied in accordance with the applicable national law.

The Depositary will further ensure, in accordance with the requirements of the UCITS Directive that the assets of the Funds held in custody by the Depositary shall not be reused by the Depositary or by any third party to whom the custody function has been delegated for their own account. Reuse comprises any transaction of assets of the Funds held in custody including, but not limited to, transferring, pledging, selling and lending. Assets of the Funds held in custody are only allowed to be reused where:

- (a) the reuse of the assets is executed for the account of the Funds;
- (b) the Depositary is carrying out the instructions of the Management Company;
- (c) the reuse is for the benefit of the Fund and in the interest of the shareholders; and
- (d) the transaction is covered by high quality and liquid collateral received by the Fund under a title transfer arrangement with a

market value at all times at least equivalent to the market value of the reused assets plus a premium.

The Depositary has entered into written agreements delegating the performance of its Safekeeping Function in respect of certain investments. The liability of the Depositary will not be affected by the fact that it has entrusted the Safekeeping Function to a third party. The Depositary's delegates can be viewed at the following website: <http://www.statestreet.com/about/office-locations/luxembourg/subcustodians.html>.

The Depositary is part of an international group of companies and businesses that, in the ordinary course of their business, act simultaneously for a large number of clients, as well as for their own account, which may result in actual or potential conflicts. Conflicts of interest arise where the Depositary or its affiliates engage in activities under the agreement with the Company, or under separate contractual or other arrangements. Such activities may include:

- (i) providing nominee, administration, registrar and transfer agency, research, agent securities lending, investment management, financial advice and/or other advisory services to the Company;
- (ii) engaging in banking, sales and trading transactions including foreign exchange, derivative, principal lending, broking, market making or other financial transactions with the Company either as principal and in the interests of itself, or for other clients.

In connection with the above activities the Depositary or its affiliates:

- (i) will seek to profit from such activities and are entitled to receive and retain any profits or compensation in any form and are not bound to disclose to, the Company, the nature or amount of any such profits or compensation including any fee, charge, commission, revenue share, spread, mark-up, mark-down, interest, rebate, discount, or other benefit received in connection with any such activities;
- (ii) may buy, sell, issue, deal with or hold, securities or other financial products or instruments as principal acting in its own interests, the interests of its affiliates or for its other clients;
- (iii) may trade in the same or opposite direction to the transactions undertaken, including based upon information in its possession that is not available to the Company;
- (iv) may provide the same or similar services to other clients including competitors of the Company;
- (v) may be granted creditors' rights by the Company which it may exercise.

The Company may use an affiliate of the Depositary to execute foreign exchange, spot or swap transactions for the account of the Company. In such instances the affiliate shall be acting in a principal capacity and not as a broker, agent or fiduciary of the Company. The affiliate will seek to profit from these transactions and is entitled to retain and not disclose any profit to the Company.

The affiliate shall enter into such transactions on the terms and conditions agreed with the Company.

Where cash belonging to the Company is deposited with an affiliate being a bank, a potential conflict arises in relation to the interest (if any) which the affiliate may pay or charge to such

account and the fees or other benefits which it may derive from holding such cash as banker and not as trustee. The Management Company may also be a client or counterparty of the Depositary or its affiliates.

Potential conflicts that may arise in the Depositary's use of sub-custodians include four broad categories:

- (1) conflicts from the sub-custodian selection and asset allocation among multiple sub-custodians influenced by (a) cost factors, including lowest fees charged, fee rebates or similar incentives and (b) broad two-way commercial relationships in which the Depositary may act based on the economic value of the broader relationship, in addition to objective evaluation criteria;
- (2) sub-custodians, both affiliated and non-affiliated, act for other clients and in their own proprietary interest, which might conflict with clients' interests;
- (3) sub-custodians, both affiliated and non-affiliated, have only indirect relationships with clients and look to the Depositary as its counterparty, which might create incentive for the Depositary to act in its self-interest, or other clients' interests to the detriment of clients; and
- (4) sub-custodians may have market-based creditors' rights against client assets that they have an interest in enforcing if not paid for securities transactions.

In carrying out its duties the Depositary shall act honestly, fairly, professionally, independently and solely in the interests of the Company and its shareholders.

The Depositary has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks. The system of internal controls, the different reporting lines, the allocation of tasks and the management reporting allow potential conflicts of interest and the Depositary issues to be properly identified, managed and monitored. Additionally, in the context of the Depositary's use of sub-custodians, the Depositary imposes contractual restrictions to address some of the potential conflicts and maintains due diligence and oversight of sub-custodians to ensure a high level of client service by those agents. The Depositary further provides frequent reporting on clients' activity and holdings, with the underlying functions subject to internal and external control audits. Finally, the Depositary internally separates the performance of its custodial tasks from its proprietary activity and follows a Standard of Conduct that requires employees to act ethically, fairly and transparently with clients.

Up-to-date information on the Depositary, its duties, any conflicts of interest that may arise, the safekeeping functions delegated by the Depositary, the list of delegates and sub-delegates and any conflicts of interest that may arise from such delegations will be made available to shareholders on request.

#### 9. **The Fund Accountant**

The Management Company has entered into an agreement with the Fund Accountant whereby the Fund Accountant has agreed to provide fund accounting, Net Asset Value determination and services related to these functions. Subject to Luxembourg law and regulation the Fund Accountant is entitled to delegate specific functions to any other person, firm or company (with the approval of the Management Company and the regulatory authority).

#### 10. **The Transfer Agent**

The Management Company has entered into a Transfer Agency

Agreement with the Transfer Agent whereby the Transfer Agent has agreed to provide all necessary transfer agency functions including application and transaction processing, maintaining the share register, and services related to these functions.

#### 11. Relationship of Depositary and Fund Accountant with BlackRock Group

The Depositary's and Fund Accountant's associates provide custody and fund accounting services to BlackRock Investment Management (UK) Limited and some of its associates in respect of their investment management business generally.

#### 12. The Paying Agents

The Company has appointed the following paying agents:

##### *Austria*

Raiffeisen Bank International AG  
Am Stadtpark 9  
1030 Vienna

##### *Luxembourg*

(Central Paying Agent)  
J.P. Morgan Bank Luxembourg S.A.  
European Bank & Business Centre  
6C, route de Trèves  
L-2633, Senningerberg

##### *Switzerland*

State Street Bank International GmbH Munich,  
Zurich branch  
Beethovenstrasse 19  
CH-8027 Zurich

##### *United Kingdom*

J.P. Morgan Europe Limited  
UK Paying Agency  
3 Lochside View  
Edinburgh  
United Kingdom  
EH12 9DH

##### *Denmark*

BlackRock Copenhagen Branch  
Harbour House  
Sundkrogsgade 21  
Copenhagen  
DK- 2100

##### *France*

CACEIS Bank France  
1-3 Place Valhubert  
75013 Paris

##### *Sweden*

BlackRock Investment Management (UK) Limited Stockholm Filial  
Norlandsgatan 16  
111 43 Stockholm

#### Fees, Charges and Expenses

13. The Management Company is remunerated from the management fees based on the Net Asset Value of each Fund, at an annual rate as shown in Appendix E.
14. The Depositary receives a fee in respect of each Fund. These fees are to remunerate the Depositary for safekeeping and transaction costs applicable to each Fund. These fees will vary in respect of

each Fund depending on the value of assets under management and the volume of trading in that Fund.

The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees. The annual custody safekeeping fees range from 0.005% to 0.40% per annum and the transaction fees range from USD5 to USD75 per transaction. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the custody cost to each Fund will depend on its asset allocation at any time.

The Company pays administration fees of up to 0.15% per annum. The level of administration fees may vary at the Directors' discretion, as agreed with the Management Company, across Funds and Classes. Administration fees accrue daily, are based on the Net Asset Value of the relevant Class and are paid monthly. Administration fees comprise without limitation all operational costs and expenses incurred by the Company, with the exception of the fees of the Depositary and any taxes thereon. In addition taxes payable by the Company such as subscription taxes remain payable by the Company. The administration fee shall not exceed 0.15% per annum and any costs and expenses in excess shall be borne by a BlackRock Group Company. For further details, please see Section "Fees, charges and expenses".

15. The Principal Distributor is entitled to receive:
- ▶ the initial charge of up to 5% of the price of the Class A Shares, Class N Shares, Class D Shares and Class F Shares issued, where levied.
16. Subject to the approval of the Directors, the combined Management Fee and Administration Fee for any Fund may be increased up to a maximum of 2.25% in total by giving shareholders at least three months' prior notice. Any increase to the combined Management Fee and Administration Fee above this level would require approval of shareholders at an extraordinary general meeting. At least one month's notice will be given to shareholders of any increase in the rates of other fees and charges specified in this Prospectus, unless prior shareholder consent is required under the Company's Articles when at least one month's notice will be given from the date of such consent.
17. The Principal Distributor is entitled, at its sole discretion and without recourse or cost to the Company but subject always to any applicable legislation, to waive any initial charge, in whole or in part, or determine to make a rebate payment in respect of the payment of any fees charged in respect of any holding of Shares to any investor (including discounts on charges to directors and employees of the Principal Distributor and its affiliates in the BlackRock Group) or its distributors, authorised intermediaries or other agents in respect of any subscriptions for, redemption or holdings of, Shares.

Rebates of any annual management fee will not exceed the amount of the annual management fee for each Fund as set out in Appendix E and will vary depending on the share class concerned. Rebates are not available for all share classes.

The terms of any rebate will be agreed between the Principal Distributor and the relevant investor from time to time. If so required by applicable rules, the investor shall disclose to any underlying clients the amount of any rebate on the annual management fee it receives from the Principal Distributor. The Management Company shall also disclose to shareholders, upon request, details of any rebate paid by the Principal Distributor to an authorised intermediary in connection with a holding of Shares

where the authorised intermediary has acted on behalf of that Shareholder. Payment of such rebates is subject to the Management Company and the Principal Distributor receiving their fees and charges from the Company.

18. If a Fund is closed at a time when any expenses previously allocated to that Fund have not been amortised in full, the Directors shall determine how the outstanding expenses should be treated, and may, where appropriate, decide that the outstanding expenses should be met by the Fund as a liquidation expense.

**Conflicts of Interest and Relationships within the BlackRock Group and with the PNC Group**

19. The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. PNC Financial Services Group Inc. is a substantial shareholder in BlackRock, Inc.
20. Subject to any policies established by the Directors, when arranging investment transactions for the Company, the Investment Advisers will seek to obtain the best net results for the Company, taking into account such factors as price (including the applicable brokerage commission or dealer spread), size of order, difficulty of execution and operational facilities of the firm involved and the firm's risk in positioning a block of securities. Therefore, whilst the Investment Advisers generally seek reasonably competitive commission rates, the Company does not necessarily pay the lowest commission or spread available. In a number of developing markets, commissions are fixed pursuant to local law or regulation and, therefore, are not subject to negotiation.
21. When arranging transactions in securities for the Company, companies in the PNC Group may provide securities brokerage, foreign exchange, banking and other services, or may act as principal, on their usual terms and may benefit therefrom. Commissions will be paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other commission discounts or cash commissions rebates provided by brokers or agents will be passed on to the Company. The services of the PNC Group companies may be used by the Investment Advisers where it is considered appropriate to do so provided that (a) their commissions and other terms of business are generally comparable with those available from unassociated brokers and agents in the markets concerned, and (b) this is consistent with the above policy of obtaining best net results. Consistent with the above policies, it is anticipated that a proportion of the Company's investment transactions will be executed through the PNC Group broker dealers and that they will be amongst a relatively small group of global firms which may each be assigned a larger proportion of transactions than the proportion assigned to any other firm.
22. Subject to the foregoing, and to any restrictions adopted by the Directors or set forth in the Articles, the Investment Advisers and any other BlackRock Group company or a PNC Group company, and any directors of the foregoing, may (a) have an interest in the Company or in any transaction effected with or for it, or a relationship of any description with any other person, which may involve a potential conflict with their respective duties to the Company, and (b) deal with or otherwise use the services of PNC Group companies in connection with the performance of such duties; and none of them will be liable to account for any profit or remuneration derived from so doing.

For example, such potential conflicts may arise because the relevant BlackRock Group company or PNC Group company:

- 22.1 undertakes business for other clients;

- 22.2 has directors or employees who are directors of, hold or deal in securities of, or are otherwise interested in, any company the securities of which are held by or dealt in on behalf of the Company;
- 22.3 may benefit from a commission, fee, mark-up or mark-down payable otherwise than by the Company in relation to a transaction in investment;
- 22.4 may act as agent for the Company in relation to transactions in which it is also acting as agent for the account of other clients of itself;
- 22.5 may deal in investments and/or currencies as principal with the Company or any of the Company's shareholders;
- 22.6 transacts in units or shares of a collective investment scheme or any company of which any BlackRock Group company or PNC Group company is the manager, operator, banker, adviser or trustee; and/or
- 22.7 may effect transactions for the Company involving placings and/or new issues with another of its group companies which may be acting as principal or receiving agent's commission.
23. As described above, securities may be held by, or be an appropriate investment for, the Company as well as by or for other clients of the Investment Advisers or other BlackRock Group companies. Because of different objectives or other factors, a particular security may be bought for one or more such clients, when other clients are selling the same security. If purchases or sales of securities for the Company or such clients arise for consideration at or about the same time, such transactions will be made, insofar as feasible, for the relevant clients in a manner deemed equitable to all. There may be circumstances when purchases or sales of securities for one or more BlackRock Group clients have an adverse effect on other BlackRock Group clients.
24. With respect to the Funds (or portion of a Fund) for which they provide investment management and advice, companies within the BlackRock Group may select brokers (including, without limitation, brokers who are affiliated with the BlackRock Group or PNC Group) that furnish the BlackRock Group, directly or through third-party or correspondent relationships, with research or execution services which provide, in BlackRock Group's view, lawful and appropriate assistance to each applicable BlackRock Group company in the investment decision-making or trade execution processes and the nature of which is that their provision can reasonably be expected to benefit the Fund as a whole and may contribute to an improvement in the Funds' performance. Such research or execution services may include, without limitation and to the extent permitted by applicable law: research reports on companies, industries and securities; economic and financial information and analysis; and quantitative analytical software. Research or execution services obtained in this manner may be used in servicing not only the account from which commissions were used to pay for the services, but also other BlackRock Group client accounts. For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods and services, general office equipment, computer hardware or premises, membership fees, employee salaries or direct money payments. To the extent that BlackRock uses its clients' commission dollars to obtain research or execution services, BlackRock Group companies will not have to pay for those products and services themselves. BlackRock Group companies may receive research or execution services that are bundled with the trade execution, clearing and/or settlement services provided by a particular broker-dealer. To the extent that each BlackRock Group company receives research or execution services on this basis, many of the same potential conflicts related to receipt of these services

through third party arrangements exist. For example, the research effectively will be paid by client commissions that also will be used to pay for the execution, clearing and settlement services provided by the broker-dealer and will not be paid by that BlackRock Group company.

Each BlackRock Group company may endeavour, subject to best execution, to execute trades through brokers who, pursuant to such arrangements, provide research or execution services in order to ensure the continued receipt of research or execution services that BlackRock Group company believes are useful in their investment decision-making or trade execution process. Each BlackRock Group company may pay, or be deemed to have paid, commission rates higher than it could have otherwise paid in order to obtain research or execution services if that BlackRock Group Company determines in good faith that the commission paid is reasonable in relation to the value of the research or execution services provided. BlackRock Group believes that using commission dollars to obtain the research or execution services enhances its investment research and trading processes, thereby increasing the prospect for higher investment returns.

BlackRock Group may from time to time choose to alter or choose not to engage in the above described arrangements to varying degrees, without notice to BlackRock Group clients, to the extent permitted by applicable law.

25. Establishing, holding or unwinding opposite positions (i.e., long and short) in the same security at the same time for different clients may prejudice the interests of clients on one side or the other and may pose a conflict of interest for the BlackRock Group as well, particularly if a BlackRock Group company or the portfolio managers involved may earn higher compensation from one activity than from the other. This activity may occur as a result of different portfolio management teams taking different views of a particular security or in the course of implementing risk management strategies, and special policies and procedures are not generally utilized in these situations.

This activity may also occur within the same portfolio management team as a result of the team having both long only mandates and long-short or short only mandates or in the course of implementing risk management strategies. Where the same portfolio management team has such mandates, shorting a security in some portfolios that is held long in other portfolios or establishing a long position in a security in some portfolios that is held short in other portfolios may be done only in accordance with established policies and procedures designed to ensure the presence of an appropriate fiduciary rationale and to achieve execution of opposing transactions in a manner that does not systematically advantage or disadvantage any particular set of clients. BlackRock's compliance group monitors compliance with these policies and procedures and may require their modification or termination of certain activities to minimize conflicts. Exceptions to these policies and procedures must be approved by the compliance group.

Among the fiduciary rationales that may justify taking opposite positions in the same security at the same time would be differing views as to the short-term and long-term performance of a security, as a result of which it may be inappropriate for long only accounts to sell the security but may be appropriate for short-term oriented accounts that have a shorting mandate to short the security over the near term. Another rationale may be to seek to neutralize the effect of the performance of a particular segment of one company's business by taking the opposite position in another company whose business is substantially similar to that of the segment in question.

In certain cases BlackRock's efforts to effectively manage these conflicts may result in a loss of investment opportunity for its

clients or may cause it to trade in a manner that is different from how it would trade if these conflicts were not present, which may negatively impact investment performance.

26. The investment activities of the BlackRock Group for its own account and for other accounts managed by it or by a PNC Group company may limit the investment strategies that can be conducted on behalf of the Funds by the Investment Advisers as a result of aggregation limits. For example, the definition of corporate and regulatory ownership of regulated industries in certain markets may impose limits on the aggregate amount of investment by affiliated investors that may not be exceeded. Exceeding these limits without the grant of a license or other regulatory or corporate consent may cause the BlackRock Group and the Funds to suffer disadvantages or business restrictions. If such aggregate ownership limits are reached, the ability of the Funds to purchase or dispose of investments or exercise rights may be restricted by regulation or otherwise impaired. As a result, the Investment Advisers on behalf of the Funds may limit purchases, sell existing investments or otherwise restrict or limit the exercise of rights (including voting rights) in light of potential regulatory restrictions on ownership or other restriction resulting from reaching investment thresholds.
27. For investments in the units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the Management Company itself or by any other company with which the Management Company is linked by common management or control, or by a substantial direct or indirect holding of more than 10% of the capital or voting rights, no management, subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or other UCIs.
28. With reference to Paragraph 3.5 of Appendix A, the Company shall appoint BlackRock Advisors (UK) Limited as securities lending agent which in turn may sub-delegate the provision of securities lending agency services to other BlackRock Group companies. BlackRock Advisors (UK) Limited has the discretion to arrange stock loans with highly rated specialist financial institutions (the "counterparties"). Such counterparties can include associates of BlackRock Advisors (UK) Limited. Collateral is marked to market on a daily basis and stock loans are repayable upon demand. BlackRock Advisors (UK) Limited receives remuneration in relation to its activities above. Such remuneration shall not exceed 37.5% of the net revenue from the activities.

#### **Conflicts of Interest and Relationships between the BlackRock Group and its Service Providers**

29. The BlackRock Group or its affiliates own or have an ownership interest in certain trading, portfolio management, operations and/or information systems used by certain fund service providers. These systems are, or may be, used by a service provider in connection with the provision of services to accounts managed by the BlackRock Group and funds managed and sponsored by the BlackRock Group, including the Company, that engage the service provider (typically the depository). The Company's service provider remunerates the BlackRock Group or its affiliates for the use of the systems. The service provider's payments to the BlackRock Group or its affiliates for the use of these systems may enhance the profitability of the BlackRock Group and its affiliates. The BlackRock Group's or its affiliates' receipt of fees from a service provider in connection with the use of systems provided by the BlackRock Group or its affiliates may create an incentive for the BlackRock Group to recommend that the Company enter into or renew an arrangement with the service provider.

#### **Statutory and Other Information**

30. Copies of the following documents (together with a certified translation thereof where relevant) are available for inspection during usual business hours on any weekday (Saturdays and Public Holidays excepted) at the registered office of the Company

## Appendix C

and at the offices of BlackRock (Luxembourg) S.A., 35A, avenue J.F. Kennedy, L-1855, Luxembourg:

- 30.1 the Articles; and
- 30.2 the material contracts entered into between the Company and its functionaries (as varied or substituted from time to time).

A copy of the Articles may be obtained free of charge at the above addresses.

- 31. Shares in the Company are and will continue to be made widely available. The intended categories of investor include both the general public as well as Institutional Investors. Shares in the Company will be marketed and made available sufficiently widely to reach the intended categories of investors and in a manner appropriate to attract these investors.

## Appendix D - Authorised Status

**This Prospectus does not constitute, and may not be used for the purposes of an offer or an invitation to apply for any Shares by any person: (i) in any jurisdiction in which such offer or invitation is not authorised; or (ii) in any jurisdiction in which the person making such offer or invitation is not qualified to do so; or (iii) to any person to whom it is unlawful to make such offer or invitation.**

**The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted. Accordingly, persons into whose possession this Prospectus comes are required to inform themselves about and observe any restrictions as to the offer or sale of Shares and the distribution of this Prospectus under the laws and regulations of the relevant jurisdiction in connection with any applications for Shares in the Company, including obtaining any requisite governmental or other consent and observing any other formality prescribed in such jurisdiction.**

**In certain jurisdictions no action has been taken or will be taken by the Company that would permit a public offering of Shares where action for that purpose is required, nor has any such action been taken with respect to the possession or distribution of this Prospectus other than in any jurisdiction where action for that purpose is required. The information below is for general guidance only and it is the responsibility of any investor or distributor to comply with applicable securities laws and regulations.**

### Austria

The Company has notified the Financial Market Authority of its intention to distribute its Shares in Austria pursuant to Article 140 para 1 of the Investment Fund Act 2011 (InvFG 2011). This Prospectus is available in a German language version, which includes additional information for Austrian investors. The KIIDs are also available in German.

### Bahrain

If you are in any doubt about the contents of this Prospectus, you should seek independent professional financial advice. Remember that all investments carry varying levels of risk and that the value of your investment may go down as well as up. Investments in this collective investment undertaking are not considered deposits and are therefore not covered by the Kingdom of Bahrain's deposit protection scheme. The fact that this collective investment undertaking has been authorised by the Central Bank of Bahrain (CBB), does not mean that the CBB takes responsibility for the performance of these investments, nor for the correctness of any statements or representations made by the operator of this collective investment undertaking. The Central Bank of Bahrain and the Bahrain stock exchange assume no responsibility for the accuracy and completeness of the statements and information contained in this document and expressly disclaim any liability whatsoever for any loss howsoever arising from reliance upon the whole or any part of the contents of this document.

### Canada

The Shares have not been, nor will they be, qualified for distribution to the public in Canada as no prospectus for the Fund has been filed with any securities commission or regulatory authority in Canada or any province or territory thereof. This Prospectus is not, and under no circumstances is to be construed, as an advertisement or any other step in furtherance of a public offering of Shares in Canada. No Canadian resident may purchase or accept a transfer of Shares unless it is eligible to do so under applicable Canadian or provincial laws.

### Denmark

Approval has been granted to the Company by the Danish Financial Supervisory Authority (Finanstilsynet) in accordance with Section 18 of the Danish Act on Investment Associations Etc. (Consolidation Act no. 333 of 20 March 2013) to market its Shares to retail investors and professional investors in Denmark. The KIIDs for the Funds approved for marketing in Denmark are available in Danish.

### Dubai International Financial Centre (DIFC)

This Prospectus relates to a Fund which is not subject to any form of regulation or approval by the Dubai Financial Services Authority ("DFSA"). The DFSA has no responsibility for reviewing or verifying any Prospectus or other documents in connection with this Fund. Accordingly, the DFSA has not approved this Prospectus or any other associated documents nor taken any steps to verify the information set out in this Prospectus, and has no responsibility for it. The Units to which this Prospectus relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers should conduct their own due diligence on the Units. If you do not understand the contents of this document you should consult an authorised financial adviser. This prospectus can be distributed to Professional Clients in and from the DIFC by BlackRock Advisors (UK) Limited -Dubai Branch which is regulated by the Dubai Financial Services Authority ("DFSA"). Where the prospectus or any fund within the prospectus is directed at 'Professional Clients', no other person should rely upon the information contained within it.

### Finland

The Company has notified the Financial Supervision Authority in accordance with Section 127 of the Act on Common Funds (29.1.1999/48) and by virtue of confirmation from the Financial Supervision Authority the Company may publicly distribute its Shares in Finland. Certain information and documents that the Company must publish in Luxembourg pursuant to applicable Luxembourg Law are translated into Finnish and are available for Finnish investors at the offices of the appointed distributors in Finland.

### France

The Company has been authorised by the Autorité des Marchés Financiers (the "AMF") to market certain of its Funds in France. CACEIS Bank will perform the services of Centralising Correspondent in France. This Prospectus is available in a French language version that includes additional information for French investors. The additional information for French investors should be read in conjunction with this Prospectus. Documentation relating to the Company can be inspected at the offices of CACEIS Bank, the registered office of which is at 1/3, place Valhubert, 75013 Paris, France, during normal business hours and copies of the documentation can be obtained from them if required.

### Germany

The German Federal Financial Supervisory Authority has been notified of the intention to distribute certain sub-funds of the Company in the Federal Republic of Germany pursuant to § 310 German Capital Investment Act. The German language prospectus contains additional information for investors in the Federal Republic of Germany.

### Ireland

The requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) having been met, the Central Bank of Ireland has confirmed that the Company may market its Shares in Ireland. J.P. Morgan Administration Services (Ireland) Limited will perform the services of facility agent in Ireland. Documentation relating to the Company can be inspected at J.P. Morgan Administration Services (Ireland) Limited's offices at J.P. Morgan House, International Financial Services Centre, Dublin 1, Ireland during normal business hours and copies of the documentation can be obtained from them if required. J.P. Morgan Administration Services (Ireland) Limited will also forward any redemption or dividend payment requests or any complaints relating to the Company to the Transfer Agent.

### Italy

The Company has notified the intention to market in Italy certain Funds pursuant to article 42 of Legislative Decree no. 58 of 24 February 1998 and implementing regulations. The offering of the Funds can only be carried out by the appointed distributors indicated in the list referred to in the Italian wrapper (Subscription Form) in accordance with the procedures indicated therein. A shareholder who makes a subscription or a redemption of Shares through the local Paying Agent or other entities responsible for processing Share transactions in Italy may be

## Appendix D

charged with the expenses linked to the activity carried out by such entities. In Italy, additional expenses incurred by the Italian Paying Agent(s) or other entities responsible for processing Share transactions for and on behalf of Italian shareholders (for example for the cost of foreign exchange dealing and for intermediation in payments) may be charged to those shareholders directly. Further details of any such additional charges will be provided in the Subscription Form for Italy. Investors in Italy may confer on the Italian Paying Agent a specific mandate empowering the latter to act in its own name and on behalf of the same investors. Under this mandate, the Italian Paying Agent in its own name and on behalf of the investors in Italy shall (i) transmit in aggregated form to the Company subscription /redemption/conversion orders; (ii) hold the Shares in the register of shareholders of the Company and (iii) carry out any other administrative activity under the investment contract. Further details of such mandate will be provided in the subscription form for Italy.

In Italy investors may be able to subscribe for Shares through regular savings plans. Under regular savings plans it may be also possible to periodically/regularly redeem and/or convert the Shares. Details of the regular savings plans facilities offered will be provided in the subscription form for Italy.

### Kingdom of Saudi Arabia

This document may not be distributed in the Kingdom except to such persons as are permitted under the Offers of Securities Regulations issued by the Capital Market Authority. The Capital Market Authority does not make any representation as to the accuracy or completeness of this document, and expressly disclaims any liability whatsoever for any loss arising from, or incurred in reliance upon, any part of this document. Prospective purchasers of the securities offered hereby should conduct their own due diligence on the accuracy of the information relating to the securities. If you do not understand the contents of this document you should consult an authorised financial adviser.

### Kuwait

This Prospectus is not for general circulation to the public in Kuwait. The Company has not been licensed for offering in Kuwait by the Kuwait Capital Markets Authority or any other relevant Kuwaiti government agency. The offering of the Company in Kuwait on the basis of a private placement or public offering is, therefore, restricted in accordance with Law No. 7 of 2010 and the bylaws thereto (as amended). No private or public offering of the Company is being made in Kuwait, and no agreement relating to the sale of the Company will be concluded in Kuwait. No marketing or solicitation or inducement activities are being used to offer or market the Company in Kuwait.

### Netherlands

The Company may offer its Shares to the public in the Netherlands in accordance with Directive 2009/65/EC on undertakings for collective investment in transferable securities (UCITS), as implemented in the Netherlands Financial Markets Supervision Act (Wet op het financieel toezicht). Dutch translations of the KIID and all information and documents that the Company must publish in Luxembourg pursuant to applicable Luxembourg laws are available from BlackRock Investment Management (UK) Limited, Amsterdam Branch.

### Norway

The Company has notified the Financial Supervisory Authority of Norway (Finanstilsynet) in accordance with applicable Norwegian Securities Funds legislation. By virtue of a confirmation letter sent from the CSSF to the Financial Supervisory Authority on 5 October 2012 the Company may market and sell its Shares in Norway.

### Oman

The information contained in this Prospectus does not constitute a public offer of securities in the Sultanate of Oman as contemplated by the Commercial Companies Law of Oman (Royal Decree 4/74) or the Capital Market Law of Oman (Royal Decree 80/98). Due to legal restrictions, imposed by the Executive Regulations of the Capital Market

Law issued by the Capital Market Authority of the Sultanate of Oman (the "CMA"), this Prospectus is only available to individuals and corporate entities that fall within the description of "sophisticated investors" in Article 139 of the Executive Regulations to the Capital Market Law. The CMA is not liable for the correctness or adequacy of information provided in this Prospectus or for identifying whether or not the security being offered pursuant to this Prospectus is an appropriate investment for a potential investor. The CMA shall also not be liable for any damage or loss resulting from reliance placed on the Prospectus.

### Qatar

The Shares are only being offered to a limited number of investors who are willing and able to conduct an independent investigation of the risks involved in an investment in such Shares. The Prospectus does not constitute an offer to the public and is for the use only of the named addressee and should not be given or shown to any other person (other than employees, agents or consultants in connection with the addressee's consideration thereof). The Company has not been and will not be registered with the Qatar Central Bank or under any laws of the State of Qatar. No transaction will be concluded in your jurisdiction and any inquiries regarding the Shares should be made to the Company.

### Sweden

The Company has notified the Swedish Financial Supervisory Authority in accordance with Chapter 1, section 7 of the Swedish Investment Funds Act 2004 (Sw. lag (2004:46) om investeringsfonder) and by virtue of a confirmation from the Swedish Financial Supervisory Authority, the Company may publicly distribute its Shares in Sweden.

### Switzerland

The Swiss Financial Market Authority FINMA has authorised BlackRock Asset Management Schweiz AG, as the Company's Swiss representative, to publicly distribute the Shares of each of the Company's Funds in or from Switzerland in accordance with Article 123 of the Collective Investment Schemes Act of 23 June 2006. A German language version of this Prospectus is available which also includes the additional information for Swiss investors.

### United Arab Emirates (UAE)

*For Funds registered with the Securities and Commodities Authority in the United Arab Emirates:*

A copy of this Prospectus has been submitted to the Securities and Commodities Authority (the "Authority") in the United Arab Emirates ("UAE"). The Authority assumes no liability for the accuracy of the information set out in this Prospectus, nor for the failure of any persons engaged by the Company in performing their duties and responsibilities. The relevant parties whose names are listed in this Prospectus shall assume such liability, each according to their respective roles and duties.

For investors to which the qualified investor exemption applies: A copy of this Prospectus has been submitted to the Authority in the UAE. The Authority assumes no liability for the accuracy of the information set out in this Prospectus, nor for the failure of any persons engaged by the Company in performing their duties and responsibilities. This document is only intended for those that fall under the definition of "Qualified Investor" as contained within the Authority's Board's Decision No. 9/R.M. of 2016 concerning Mutual Funds Regulations and the Authority's Board Decision No. 3/R.M. of 2017 concerning Promoting and Introducing Regulations, which includes: (1) an investor which is able to manage its investments on its own, namely: (a) the federal government, local governments, government entities and authorities or companies wholly-owned by any such entities; (b) international entities and organisations; (c) a person licensed to carry out a commercial activity in the UAE, provided that investment is one of the objects of such person; or (d) a financially sound natural person who acknowledges that their annual income is not less than AED 1 million, that their net equity, excluding their main place of residence, amounts to AED 5 million, and that they, themselves or with the assistance of a financial advisor, has the necessary know-how and experience to assess the offer document and

the ensuing benefits and risks associated with the investment; or (2) an investor who is represented by an investment manager licensed by the Authority, (each a "Qualified Investor"). The relevant parties whose names are listed in this Prospectus shall assume such liability, each according to their respective roles and duties.

*For Funds not registered with the Securities and Commodities Authority in the United Arab Emirates:*

This Prospectus, and the information contained herein, does not constitute, and is not intended to constitute, a public offer of securities in the UAE and accordingly should not be construed as such. The Shares are only being offered to a limited number of investors in the UAE who (a) are willing and able to conduct an independent investigation of the risks involved in an investment in such Shares, and (b) upon their specific request. The Shares have not been approved by or licensed or registered with the UAE Central Bank, the Authority or any other relevant licensing authorities or governmental agencies in the UAE. The Prospectus is for the use of the named addressee only, who has specifically requested it without a promotion effected by BlackRock, its promoters or the distributors of its units, and should not be given or shown to any other person (other than employees, agents or consultants in connection with the addressee's consideration thereof). No transaction will be concluded in the UAE and any enquiries regarding the Shares should be made to the local Investor Servicing Team, telephone: +44 (0)207 743 3300.

For investors to which the qualified investor exemption applies: This Prospectus, and the information contained herein, does not constitute, and is not intended to constitute, a public offer of securities in the UAE and accordingly should not be construed as such. The Shares are only being offered to a limited number of exempt investors in the UAE who fall under one of the following categories of non-natural Qualified Investors: (1) an investor which is able to manage its investments on its own, namely: (a) the federal government, local governments, government entities and authorities or companies wholly-owned by any such entities; (b) international entities and organisations; or (c) a person licensed to carry out a commercial activity in the UAE, provided that investment is one of the objects of such person; or (2) an investor who is represented by an investment manager licensed by the SCA, (each a "non-natural Qualified Investor"). The Shares have not been approved by or licensed or registered with the UAE Central Bank, the Authority, the Dubai Financial Services Authority, the Financial Services Regulatory Authority or any other relevant licensing authorities or governmental agencies in the UAE (the "Authorities"). The Authorities assume no liability for any investment that the named addressee makes as a non-natural Qualified Investor. The Prospectus is for the use of the named addressee only and should not be given or shown to any other person (other than employees, agents or consultants in connection with the addressee's consideration thereof).

## USA

The Shares will not be registered under the US Securities Act of 1933, as amended (the "Securities Act") and may not be directly or indirectly offered or sold in the USA or any of its territories or possessions or areas subject to its jurisdiction or to or for the benefit of a US Person. The Company will not be registered under the US Investment Company Act of 1940. US Persons are not permitted to own Shares. Attention is drawn to paragraphs 3. and 4. of Appendix B which specify certain compulsory redemption powers and define "US Person".

## United Kingdom

The contents of this Prospectus have been approved solely for the purposes of section 21 of the UK Financial Services and Markets Act 2000 (the "Act") by the Company's UK Distributor, BlackRock Investment Management (UK) Limited, 12 Throgmorton Avenue, London EC2N 2DL (which is regulated by the FCA in the conduct of investment business in the UK). The Company has obtained the status of "recognised scheme" for the purposes of the Act. Some or all of the protections provided by the UK regulatory system will not apply to investments in the Company. Compensation under the UK Investors Compensation Scheme will generally not be available. The Company

provides the facilities required by the regulations governing such schemes at the offices of BlackRock Investment Management (UK) Limited which acts as the UK facilities agent. UK investors can contact the UK facilities agent at the above address to obtain details regarding the prices of units, to redeem or arrange for the redemption of Shares, to obtain payment and to make a complaint. Details on the procedure to be followed in connection with the subscription, redemption and switching of Shares are set out in this Prospectus. Copies of the following documents will be available (in English) for inspection and can be obtained at any time during normal business hours on any day (excluding Saturdays, Sundays and public holidays) free of charge at the above address of the UK Facilities Agent:

1. the Articles of Association;
2. the Prospectus, key investor information document and any supplement or addendum to the Prospectus; and
3. the most recently published annual and half yearly reports relating to the Company;

An applicant for Shares will not have the right to cancel his application under the UK FCA's Conduct of Business Rules. Further details on the Company can be obtained from the local Investor Servicing team in London, telephone: +44 (0)207 743 3300.

## Generally

The distribution of this Prospectus and the offering of the Shares may be authorised or restricted in certain other jurisdictions. The above information is for general guidance only and it is the responsibility of any persons in possession of this Prospectus and of any persons wishing to make application for Shares to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdictions.

## Appendix E

### Appendix E - Summary of Charges and Expenses

All Share Classes are also subject to an Administration Fee, which may be charged at a rate of up to 0.15% per annum.

No management fees are payable in respect of Class X Shares (instead a fee will be paid to the Investment Advisers or affiliates under an agreement).

Class I	0.00%	0.15%
Class X	0.00%	0.00%

Note: Subject to the approval of the Directors, the combined Management Fee and Administration Fee for any Fund may be increased up to a maximum of 2.25% in total by giving shareholders three months' prior notice in accordance with paragraph 16. of Appendix C. Any increase above this level would require approval of shareholders at a general meeting.

## Appendix F – Securities Financing Transaction Disclosures

### General

Securities Financing Transactions (SFTs) such as securities lending, repurchase transactions, total return swaps (TRS) and contracts for difference may be used by all the Funds (subject to their investment objective and policy) either to help meet the investment objective of a Fund and/or as part of efficient portfolio management.

SFTs are defined as:

- (a) a repurchase transaction (which means a transaction governed by an agreement by which a counterparty transfers securities, commodities, or guaranteed rights relating to title to securities or commodities where that guarantee is issued by a recognised exchange which holds the rights to the securities or commodities and the agreement does not allow a counterparty to transfer or pledge a particular security or commodity to more than one counterparty at a time, subject to a commitment to repurchase them, or substituted securities or commodities of the same description at a specified price on a future date specified, or to be specified, by the transferor, being a repurchase agreement for the counterparty selling the securities or commodities and a reverse repurchase agreement for the counterparty buying them”);
- (b) securities lending and securities borrowing (which means transactions governed by an agreement by which a counterparty transfers securities or guaranteed rights relating to title to securities where that guarantee is issued by a recognised exchange which holds the rights to the securities and the agreement does not allow a counterparty to transfer or pledge a particular security to more than one counterparty at a time, subject to a commitment to repurchase them, or substituted securities of the same description at a specified price on a future date specified, or to be specified, by the transferor, being a repurchase agreement for the counterparty selling the securities and a reverse repurchase agreement for the counterparty buying them);
- (c) a buy-sell back transaction or sell-buy back transaction (which means transactions by which a counterparty buys or sells securities, commodities, or guaranteed rights relating to title to securities or commodities, agreeing, respectively, to sell or to buy back securities, commodities or such guaranteed rights of the same description at a specified price on a future date, that transaction being a buy-sell back transaction for the counterparty buying the securities, commodities or guaranteed rights, and a sell-buy back transaction for the counterparty selling them, such buy-sell back transaction or sell-buy back transaction not being governed by a repurchase agreement or by a reverse-repurchase agreement); and
- (d) a margin lending transaction (which means a transaction in which a counterparty extends credit in connection with the purchase, sale, carrying or trading of securities, but not including other loans that are secured by collateral in the form of securities).

The Funds do not use SFTs described in paragraphs c) and d) above.

The types of assets that may be subject to SFTs, total return swaps and contracts for difference include equity securities, fixed income securities, collective investment schemes, money market instruments and cash. Use of such assets is subject to a Fund’s investment objective and policy.

### Counterparty Selection & Review

The Investment Advisers select from an extensive list of full service and execution-only brokers and counterparties. All prospective and existing counterparties require the approval of the Counterparty and

Concentration Risk Group (“CCRG”), which is part of BlackRock’s independent Risk & Quantitative Analysis department (“RQA”).

In order for a new counterparty to be approved, a requesting portfolio manager or trader is required to submit a request to the CCRG. The CCRG will review relevant information to assess the credit-worthiness of the proposed counterparty in combination with the type and settlement and delivery mechanism of the proposed security transactions. The counterparties will be entities with legal personality subject to ongoing supervision by a regulatory authority and will typically have at least an investment grade credit rating from one or more globally recognised credit rating agencies. The counterparties will be entities with legal personality typically located in OECD jurisdictions (but may also be located outside such jurisdictions), be subject to ongoing supervision by a regulatory authority and will typically have at least an investment grade credit rating from one or more globally recognised credit rating agencies. A list of approved trading counterparties is maintained by the CCRG and reviewed on an on-going basis.

Counterparty reviews take into account the fundamental creditworthiness (ownership structure, financial strength, regulatory oversight) and commercial reputation of specific legal entities in conjunction with the nature and structure of proposed trading activities. Counterparties are monitored on an ongoing basis through the receipt of audited and interim financial statements, via alert portfolios with market data service providers, and where applicable, as part of BlackRock’s internal research process. Formal renewal assessments are performed on a cyclical basis.

The Investment Advisers select brokers based upon their ability to provide good execution quality (i.e. trading), whether on an agency or a principal basis; their execution capabilities in a particular market segment; and their operational quality and efficiency; and we expect them to adhere to regulatory reporting obligations.

Once a counterparty is approved by the CCRG, broker selection for an individual trade is then made by the relevant dealer at the point of trade, based upon the relative importance of the relevant execution factors. For some trades, it is appropriate to enter into a competitive tender amongst a shortlist of brokers.

The Investment Advisers perform pre-trade analysis to forecast transaction cost and to guide the formation of trading strategies including selection of techniques, division between points of liquidity, timing and selection of broker. In addition, the Investment Advisers monitor trade results on a continuous basis.

Broker selection will be based on a number of factors including, but not limited to the following:

- ▶ Ability to execute and execution quality;
- ▶ Ability to provide liquidity/capital;
- ▶ Price and quote speed;
- ▶ Operational quality and efficiency; and
- ▶ Adherence to regulatory reporting obligations.

The SFTR contain requirements in relation to the selection of counterparties and the eligibility, safekeeping and reuse of collateral. These requirements are set out in Appendix A.

### Returns generated by SFTs

All returns generated from the use of repurchase transactions, total return swaps and contracts for difference will be paid to the relevant Fund.

In relation to securities lending, the securities lending agent, BlackRock Advisors (UK) Limited, receives remuneration in relation to its activities. Such remuneration is paid from the returns generated and shall not exceed 37.5% of the net revenue from the activities, with all operational costs borne out of BlackRock's share. The securities lending agent is a related party to the Management Company.

### Proportions of Fund property subject to SFTs

The table below specifies the maximum and expected proportion of the Net Asset Value of a Fund that can be subject to securities financing transactions for the purposes of the Securities Financing Transaction Regulation 2015 (2015/2365). The expected proportion is not a limit and the actual percentage may vary over time depending on factors including, but not limited to, market conditions. The maximum figure is a limit.

Fund Name	TRS and CFDs (in aggregate)*	Securities Lending**	Repo Transactions
	Maximum/Expected proportion of the NAV (%)	Maximum/Expected proportion of the NAV (%)	Maximum/Expected proportion of the NAV (%)
iShares World Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares Europe Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares Japan Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares Pacific ex Japan Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares North America Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares Emerging Markets Equity Index Fund (LU)	50% / 0%	100% / 0-40%	0% / 0%
iShares Euro Government Bond Index Fund (LU)	10% / 0%	100% / 0-40%	5% / 0%
iShares Euro Corporate Bond Index Fund (LU)	10% / 0%	100% / 40%	5% / 0%
iShares Euro Aggregate Bond Index Fund (LU)	10% / 0%	100% / 0-40%	5% / 0%
iShares Emerging Markets Government Bond Index Fund (LU)	10% / 0%	100% / 0-40%	5% / 0%
iShares Global Government Bond Index Fund (LU)	10% / 0%	100% / 0-40%	5% / 0%

\*Within the total ranges noted above, the Funds' exposure to CFDs and TRS will vary. Further details of exposures to CFD or TRS can be obtained from the Company's registered office.

\*\*The maximum proportion of the Net Asset Value of the Funds that can be subject to securities lending is 100%. The demand to borrow securities is a significant driver for the amount that is actually lent from a Fund at a given time. Borrowing demand fluctuates over time and depends to a large extent on market factors that cannot be forecasted precisely. Due to fluctuations in borrowing demand in the market, future lending volumes could fall outside of this range.

## Summary of Subscription Procedure and Payment Instructions

### 1. Application Form

For initial subscriptions for Shares you must complete the application form which may be obtained from the Transfer Agent or the local Investor Servicing teams and the form must be signed by all joint applicants. Subsequent subscriptions may be made in writing or by fax stating your registration details and the amount to be invested. If your application is being submitted by your professional adviser, section 5 of the application form should be completed. Completed application forms must be sent to the Transfer Agent or the local Investor Servicing teams.

### 2. Money Laundering Prevention and International Financial Sanctions

Please read the notes on the application form regarding the identification documents required and ensure that you provide these to the Transfer Agent or the local Investor Servicing teams together with your application form.

### 3. Payment

A copy of your telegraphic transfer instructions should be supplied with your application (see sections 4. and 5. below).

### 4. Payment by Telegraphic Transfer

Payment by SWIFT/bank transfer in the relevant currency should be made to one of the accounts opposite. The SWIFT/bank transfer instruction should contain the following information:

- (i) Bank Name
- (ii) SWIFT Code or Bank Identifier
- (iii) Account (IBAN)
- (iv) Account Number
- (v) Account Reference - "BGIF - Fund name subscribed into and BGIF account number / contract reference number"
- (vi) By order of Shareholder name/agent name & Shareholder number/agent number

An applicant's obligation to pay for Shares is fulfilled once the amount due has been paid in cleared funds into this account.

### 5. Foreign Exchange

If you wish to make payment in a currency other than that in the Dealing Currency (or one of the Dealing Currencies) of your chosen Fund, this must be made clear at the time of application.
