

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Unless otherwise defined in this document, all words and expressions defined in the Company's current Prospectus shall have the same meaning herein.

New Capital Wealthy Nations Bond Fund (the "Fund"), a sub-fund of New Capital UCITS Fund Plc (the "Company")

New Capital Wealthy Nations Bond Fund USD Ord Inc. (the "Share Class") - ISIN: IE00B6VQXN27

The Fund is managed by New Capital Fund Management Limited

Objective and Investment Policy

Objective: The Fund's objective is to seek long term appreciation, through a combination of capital growth and income.

Policy: The Fund will invest in medium to long term international debt securities, predominantly issued by issuers located in wealthy nations, in various currencies primarily listed on Recognised Markets in major financial markets. The Fund will invest in a broadly diversified range of debt securities such as notes, bills, bonds, commercial paper, certificates of deposit and floating rate notes issued by governments, institutions and corporations in both developed and developing markets.

The Fund utilises macro-economic research to assist asset allocation combined with a Net Foreign Assets measure to specify an investable universe. Fixed income assets are also selected by a quantitative screen which identifies the best value investment opportunities based on credit quality and maturity. The Fund will usually hold debt securities with investment grade ratings (Baa3 or above by Moody's or BBB- or above by Standard and Poor's or equivalent credit ratings as determined by the Investment Manager). There is no maturity limitation. The Fund will be actively managed.

The Fund may use techniques and instruments for purposes of efficient portfolio management including reduction of risk or cost or the generation of additional capital or income for the Fund with a level of risk which

is consistent with the risk profile of the Fund, such as forward foreign currency exchange contracts, futures contracts, options, put and call options on securities, indices and currencies, swap contracts, repurchase/reverse repurchase agreements and/or stock lending agreements. The use of these instruments may result in the Fund being leveraged. However the total exposure of the Fund as a result of all positions held by it will not exceed its Net Asset Value.

The Investment Manager has discretion in managing the investments of the Fund.

Dividends on Income share classes will be paid bi-annually. Accumulating share classes accumulate income.

Benchmark: The Fund's benchmark is Merrill Lynch Eurodollars and Globals Index and may be used for comparative purposes only.

Profile of typical investor: The Fund is suitable for investors seeking capital growth and income over a 5 to 10 year time horizon with a medium level of volatility.

Dealing: Shares in the Fund can be bought and sold daily (every Business Day of the Fund).

Further information: Please refer to the Prospectus for more detailed information.

Risk and Reward Profile

The risk indicator is based on the volatility of the Fund's performance over the years the Fund has been in existence combined with simulated benchmark data. The risk category shown is not guaranteed and may shift over time. Historical data may not be a reliable indicator for the future risk profile of the Fund. The lowest risk category does not mean a "risk free investment."

The Fund is also subject to risks which are not included in the calculation of the risk-reward indicator.

Liquidity risk - the risk that assets may not be saleable immediately at a price consistent with

that observed for valuation purposes.

Currency risk - investors not investing in their local currency will additionally be exposed to the fluctuation of the exchange rate between their local currency and the currency class in which they are invested.

Credit risk - the issuer of a Bond or a similar investment within the Fund may not pay income or repay capital to the Fund when due.

Interest rate risk - investments in bonds are affected by interest rates and inflation trends which may affect the value of the Fund.

Further Information: The Prospectus for this Fund gives you more details about all the risks for this Fund - see under "Practical Information" for how to obtain a copy.
